Chang, 1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art music and drama education factory management economic planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades This comprehensive easy to use bibliography provides a guide to published English language sources on the Cultural Revolution With over a thousand entries it includes books monographs dissertations and audio visual materials on a broad range of topics from the military education religion and economics to foreign relations population art literature and drama Including titles published through the end of 1997 and a few in 1998 the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history *The Cultural Revolution in China* James C.F. Chang Ch'un-ch'iao and Shanghai's January Revolution Andrew Walder, 2021-01-19 Shanghai's January Revolution was a highly visible and by all accounts crucially important event in China's Cultural Revolution. Its occurrence along with the subsequent attempt to establish a commune form of municipal government has greatly shaped our understanding both of the goals originally envisaged for the Cultural Revolution by its leaders and of the political positions held by the new corps of Party leaders thrust upward during its course, most notably Chang Ch'un-ch'iao. At this interpretive level the events in Shanghai seem to embody in microcosm the issues and conflicts in Chinese politics during the Cultural Revolution as a whole, while at the same time shaping our conception of what these larger issues and conflicts were. At the more general theoretical level, however, the events in Shanghai provide us with an unusual opportunity, thanks to Red Guard raids on Party offices, to view the internal workings of the Party organization under a period of stress and to observe unrestrained interest group formation and mass political conflict through the press accounts provided by these unofficial groups themselves. The January Revolution thus provides us with an opportunity to develop better our more abstract theoretical understanding of the functioning of the Chinese political system and the dynamics of the social system in which it operates. 1

Shanghai Christopher Howe, 1981-05-07 This book is a comprehensive study of the way in which old Shanghai was transformed and developed by the Communist Party between 1949 and the later 1970s.

China's Provinces in Reform David Goodman, 2002-11-01 China is a far larger and more diverse country than many people in the West realise. The provinces that make up the country are considerable social, economic and political systems in their own right. They are comparable in size and complexity to European states. China's Provinces in Reform is concerned with the impact of economic reform and social and political change within the provinces at the immediate sub-central level of the People's Republic of China. One of the main aims of this book is to question over-generalizations about China's development in the reform era. However, the provincial analysis of social and political change in China also has the potential to reveal even more in a comparative perspective. This is the first volume of a series and covers Guangxi, Hainan, Liaoning, Shandong, Shanghai, Sichuan and Zhejiang. It is part of a project conducted by the Institute for International Studies at the University of Technology Sydney that will provide the most thorough and up-to-date analysis of China's provinces yet published.

Liu Shaoqi and the Chinese Cultural Revolution Lowell Dittmer, 2015-02-12 By addressing the issues that decimated China's monolithic elite in the late 1960s, this text illuminates not only the life and fate of Liu Shaoqi but also the policy-making process of a revolutionary state facing the diverting exigencies of economic modernization and political development.

[Mao's Last Revolution](#) Roderick MACFARQUHAR, Michael Schoenhals, 2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China, the defining decade of half a century of communist rule. Before 1966, China was a typical communist state with a command economy and a powerful party able to keep the population under control. But during the Cultural Revolution, in a move

unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China

Policies of Chaos Lynn T. White III, 2014-07-14 The tumult of the Cultural Revolution after 1966 is often blamed on a few leaders in Beijing or on long term egalitarian ideals or on communist or Chinese political cultures Lynn White shows however that the chaos resulted mainly from reactions by masses of individuals and small groups to three specific policies of administrative manipulation labeling groups designating bosses and legitimating violence in political campaigns These habits of local organization were common after 1949 and gave the state success in short term revolutionary aims despite scarce resources and staff but they also drove millions to attack each other later First measures accumulated before 1966 to give people bad or good names such as rightist or worker these set a family's access to employment education residence and rations so they gave interests to potential conflict groups Second policies for bossism went far beyond Confucian patronage patterns making work units tightly dependent on Party monitors so rational individuals either pandered to local bosses or when they could deposed them Third the institutionalized violence of political campaigns both mobilized activists and scared others into compliance These organizational measures were often effective in the short run before 1966 but accumulated social costs that China paid later The book ends with comparisons to past cases of mass urban ostracism in other countries and it suggests how such tragedies may be forecast or prevented in the future Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Edgar Snow John Maxwell Hamilton, 2003-09-25 Edgar Snow 1905 1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were

widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world

A Protestant Church in Communist China John Craig William Keating, 2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People's Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government This study investigates the history of one such official church Moore Memorial Church in Shanghai This church was founded by American Methodist missionaries By the time of the 1949 revolution it was the largest Protestant church in East Asia running seven day a week programs As a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the backdrop of the turbulent politics of the Mao and Deng eras It asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave Were people forced to sign the

so called Christian manifesto Once the church doors were closed in 1966 did worshipers go underground Why was this particular church especially chosen to be the first re opened in Shanghai in 1979 What explanations are there for its phenomenal growth since then A considerable proportion of the data for this study is drawn from Chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers The main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations The Mao era in particular remains one of the least understood and seldom written about periods in the history of Christianity in China This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern China

The Cultural Revolution at the Margins Yiching Wu, 2014-06-09 The Cultural Revolution began from above yet it was students and workers at the grassroots who advanced the movement s radical possibilities by acting and thinking for themselves Resolving to suppress the resulting crisis Mao set events in motion in 1968 that left out in the cold those rebels who had taken it most seriously Yiching Wu shows
