Shanghai on the Métro Michael Barry Miller, 1994-01-01 Secret agents gun runners White Russians adventurers and con men they all play a part in Michael Miller's strikingly original study of interwar France Based on extensive research in security files and a mass of printed sources this book shows how a distinctive milieu of spies and spy literature emerged between the two world wars reflecting the atmosphere and concerns of these years Miller argues that French fascination with intrigue between the wars reveals a far more assured and playful national mood than historians have hitherto discerned in the final decades of the Third Republic But the larger history set in motion by World War I and the subsequent reading of French history into global history are the true subjects of this work Reconstituting through his own narratives the histories of interwar travel and adventure and the willful turning of contemporary affairs into a source of romance Miller recovers the ambiance and special qualities of the age that produced its intrigues and its tales of spies Secret agents gun runners White Russians adventurers and con men they all play a part in Michael Miller's strikingly original study of interwar France Based on extensive research in security files and a mass of printed sources this book shows how a distinctive milieu of spies and spy literature emerged between the two world wars reflecting the atmosphere and concerns of these years Miller argues that French fascination with intrigue between the wars reveals a far more assured and playful national mood than historians have hitherto discerned in the final decades of the Third Republic But the larger history set in motion by World War I and the subsequent reading of French history into global history are the true subjects of this work Reconstituting through his own narratives the histories of interwar travel and adventure and the willful turning of contemporary affairs into a source of romance Miller recovers the ambiance and special qualities of the age that produced its intrigues and its tales of spies

R.B. Singh, 2014-10-16 In this book an interdisciplinary research group of faculty members researchers professionals and planners contributed to an understanding of the dynamics and dimensions of emerging challenges and risks in megacities in the rapidly changing urban environments in Asia and examined emerging resilience themes from the point of view of sustainability and public policy The world's urban population in 2009 was approximately 3.4 billion and Asia's urban population was about 1.72 billion Between 2010 and 2020 411 million people will be added to Asian cities 60 % of the growth in the world's urban population By 2020 of the world's urban population of 4.2 billion approximately 2.2 billion will be in Asia China and India will contribute 31.3 % of the total world urban population by 2025 Developing Asia's projected global share of CO2 emissions for energy consumption will increase from 30 % in 2006 to 43 % by 2030 City regions serve as magnets for people enterprise and culture but with urbanisation the worst form of visible poverty becomes prominent The Asian region with a slum population of an estimated 505.5 million people remains host to over half of the world's slum population The book provides information on a comprehensive range of environmental threats faced by the inhabitants of megacities It also offers a wide and multidisciplinary group of case studies from rapidly growing megacities with populations of more than 5 million from developed and developing countries of Asia **Geotechnical Aspects of Underground Construction in Soft Ground** Giulia Viggiani, 2012-09-05 Geotechnical Aspects of Underground Construction in Soft Ground comprises a collection of 118 papers four reports on symposium themes and four invited lectures presented at the seventh International Symposium on Geotechnical Aspects of Underground Construction in Soft Ground held in Rome Italy 16-18 May 2011 The symposium was organized by the **Vietnam: Asia's Rising Star** Brook Taylor, Sam Korsmoe, 2023-10-15 The drivers behind the world's most exciting growth story For more than 25 years Vietnam has been one of the most dynamic countries in the world in terms of GDP growth trade investment and other business metrics The key question is whether or not the country can continue this growth for another 25 years If it can Vietnam will become a high income country like South Korea and Taiwan the original Tiger Economies of Asia Engaging in conversations about Vietnam's future is challenging Locals are often too focused on the present while foreigners are caught up in legacy and political issues of the past Many observers also focus on the short term a specific economic metric or inevitably Vietnam's political system without considering the big picture or recognizing long term trends The authors researched and analyzed a broad range of drivers to assess a possible future for Vietnam and Vietnam Asia's Rising Star is the result of these efforts What Others Are Saying Vietnam Asia's Rising Star should be read by anyone with an interest in Vietnam and anyone else with an interest in the future of Asia Carlyle A Thayer professor emeritus University of New South Wales Canberra *Expanding Underground - Knowledge and Passion to Make a Positive Impact on the World* Georgios Anagnostou, Andreas Benardos, Vassilis P.
