Shape Of Art In The Short Stories Of Donald Barthelme:

The Shape of Art in the Short Stories of Donald Barthelme Wayne B. Stengel, 1985-01-01 **The woman of the crowd** Daniela Daniele, 2021-12-28 This book traces the origins of the Postmodern eclectic grammar of linguistic collision back in the Surrealist poetics of ruins Keeping in mind the images of lost direction in the big city as a central figure in the discussion of both the Modern and Postmodern aesthetics of displacement Daniele starts comparing the epiphanic encounters of the Baudelairian fl neur in metropolitan Paris in constant search for the traces of a lost symbolic order with Breton s enigmatic pursuit of Nadja the elusive sphinx in the crowd who moves in a mental territory of puzzling condensations and of ineffable objets trouv In his visual and written work Marcel Duchamp was probably the first artist to envision the space of the crowd as a trans urban multiple dimension a cool arena of disjunctive encounters contributing to transform the Surrealist erotic space of desire in a cooler open field of performance Deeply influenced by Duchamp s hybrid aesthetics American Postmodern writers such as Donald Barthelme and Thomas Pynchon and the performance artist Laurie Anderson represent metropolis as a geographical incest as a plural entropic semiosphere which transcends the notion of urban community to become the tolerant receptacle of an ethnic and discursive multiplicity an electronic area of linguistic collisions translatable in new fragmented and unfinished narratives Evoking the assemblages of Abstract Expressionists the debris of Simon Rodia junk art and the hybrid language of Postmodern architecture this neo Surrealist narrative discourse transforms the epiphanic traces envisioned by the Baudelairian and Bretonian heroes in partial parodies in enigmatic fragments whose ultimate source transcends the narrator s knowledge The conceptual strategy which is constitutive of these texts implicitly asks the puzzled reader to disentangle the entropic plots immersing him in the midst of a linguistic wilderness where all opposites fact and fiction man and machine man and female enigmatically and humorously coexist **A Reader's Companion to the Short Story in English** Erin Fallon, R.C. Feddersen, James Kurtzleben, Maurice A. Lee, Susan Rochette-Crawley, 2013-10-31 Although the short story has existed in various forms for centuries it has particularly flourished during the last hundred years Reader s Companion to the Short Story in English includes alphabetically arranged entries for 50 English language short story writers from around the world Most of these writers have been active since 1960 and they reflect a wide range of experiences and perspectives in their works Each entry is written by an expert contributor and includes biography a review of existing criticism a lengthier analysis of specific works and a selected bibliography of primary and secondary sources The volume begins with a detailed introduction to the short story genre and concludes with an annotated bibliography of major works on short story theory Donald Barthelme Jerome Klinkowitz, 1991-05-22 Donald Barthelme 1931 1989 is regarded as one of the most imitated and influential American fiction writers since the early 1960s In Donald Barthelme An Exhibition Jerome Klinkowitz presents both an appreciation and a comprehensive examination of the life work of this pathbreaking contemporary writer A blend of close reading biography and theory this retrospective informed by Klinkowitz s expert

Keeping Literary Company Jerome Klinkowitz, 1999-06-10 Starting in the 1960s a group of radically new fiction writers began having success at reinventing the novel and short story for postmodern times Chief among them were Kurt Vonnegut Jerzy Kosinski Donald Barthelme Ronald Sukenick Raymond Federman Clarence Major and Gilbert Sorrentino Although their work proved puzzling to reviewers and did not fit the conventions familiar to academic critics these writers found an ally in a young reader named Jerome Klinkowitz Hired to teach Hawthorne and other nineteenth century figures Klinkowitz found his deepest sympathies and most lifelike affinities to be with Vonnegut and company instead Beginning in 1969 he published the first scholarly essays on Vonnegut Kosinski Barthelme and the others in turn By 1975 he was ready to write *Literary Disruptions* a literary

history of what he called this post contemporary period Since then he has written more than thirty books on contemporary fiction and its allied developments in cultural history art music politics and philosophy Keeping Literary Company details Klinkowitz s work with these writers not just researching their fiction and other publications but introducing them to one another and taking part in the business world activities that spread news of their innovations He shows how what they wrote was so much a part of those turbulent times that a new literary generation found itself defined in such works as Slaughterhouse Five Being There and Snow White Here is a fascinating first person account of what these important figures wrote how they wrote it and what it means in the development of American fiction

Liminality and the Short Story Jochen Achilles,Ina Bergmann,2014-12-05 This book is a study of the short story one of the widest taught genres in English literature from an innovative methodological perspective Both liminality and the short story are well researched phenomena but the combination of both is not frequent This book discusses the relevance of the concept of liminality for the short story genre and for short story cycles emphasizing theoretical perspectives methodological relevance and applicability Liminality as a concept of demarcation and mediation between different processual stages spatial complexes and inner states is of obvious importance in an age of global mobility digital networking and interethnic transnationality Over the last decade many symposia exhibitions art and publications have been produced which thematize liminality covering a wide range of disciplines including literary geographical psychological and ethnicity studies Liminal structuring is an essential aspect of the aesthetic

composition of short stories and the cultural messages they convey On account of its very brevity and episodic structure the generic liminality of the short story privileges the depiction of transitional situations and fleeting moments of crisis or decision It also addresses the moral transgressions heterotopic orders and forms of ambivalent self reflection negotiated within the short story's confines This innovative collection focuses on both the liminality of the short story and on liminality in the short story

Fiction in the Quantum Universe Susan Strehle, 2000-11-09 In this outstanding book Susan Strehle argues that a new fiction has developed from the influence of modern physics She calls this new fiction actualism and within that framework she offers a critical analysis of major novels by Thomas Pynchon Robert Coover William Gaddis John Barth Margaret Atwood and Donald Barthelme According to Strehle the actualists balance attention to questions of art with an engaged meditation on the external actual world While these actualist novels diverge markedly from realistic practice Strehle claims that they do so in order to reflect more acutely what we now understand as real Reality is no longer realistic in the new physical or quantum universe reality is discontinuous energetic relative statistical subjectively seen and uncertainly known all terms taken from new physics Actualist fiction is characterized by incompletions indeterminacy and open endings unsatisfying to the readerly wish for fulfilled promises and completed patterns Gravity's Rainbow for example ends not with a period but with a dash Strehle argues that such innovations in narrative reflect on twentieth century history politics science and discourse
