Schaeffer, John Piersol McCaskey, Thomas Edward Finegan, James Herbert Kelley, 1878 **On the Antiquity of Intellectual Man, from a Practical and Astronomical Point of View** Charles Piazzi Smyth, 1868 *The Treasures for Ascension from the God of All Knowing* Khamson Limsavanh, 2018-03-17 All humans have their purposes If they serve their purposes their souls are subject to recall and are reincarnated in new vessels with new purposes But after thousands of years of reincarnating some are ready for departing this plane of existence and being reborn in a different world or a different existence the god existence *The Treasures for Ascension from the God of All Knowing* describes this path to ascension and it can guide individuals on a virtuous path of enlightenment Because it takes three steps to be with God author Khamson Limsavanh has translated his vision into three unique chapters The first shares a narrative of a young man and his journey into his mind and soul where he encounters two supreme beings who later reveal to him the meaning of life The second chapter uncovers more details of this young man's dark past and how he attains enlightenment And the third chapter concludes by providing evidence for divine intervention in our lives as the divine assist us and help us understand our destinies If you are ready for awakening you must become ready for ascension The gods in you will make you immortal when you ascend if you subdue the dark forces in you This has been the goal from the beginning If you are not ready for ascension you must accept the path of enlightenment Maybe the next reincarnation is the one for you Good luck *The Giza Power Plant* Christopher Dunn, 1998-08-01 Did a highly advanced civilization exist in prehistory Is the Giza Pyramid a remnant of their technology Then what was the power source that fueled such a civilization The technology of harmonic resonance claims renowned master craftsman and engineer Christopher Dunn

In a brilliant piece of reverse engineering based on twenty years of research Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device By its size and dimensions this crystal edifice created a harmonic resonance with the Earth and converted Earth s vibrational energies to microwave radiation The author shows how the pyramid s numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs **Van Nostrand's Engineering Magazine** ,1884 *Van Nostrand's Eclectic Engineering Magazine* ,1884
