Shaping Prose:

Shaping Prose, 1982 Before and After Donald Lewis Emblen, Arnold Solkov, 1986-01-01 **The Shaping of Text** John Porter Houston, 1993 *The Shaping of Text* pays homage to the work of the late John Porter Houston who wrote extensively on style rhetoric and narrative and poetic techniques in Western European literature It is appropriate that the essays in this volume focus on the form of the literary work and the ways in which form determines meaning William Calin's essay on the saint's life analyzes the use of antithesis as a poetic and structural device that illustrates the saint's fundamental understanding of the relationship between the ephemeral reality of his physical existence and the absolute timeless reality to which he aspires Raymond LaCharite's study of Rabelais focuses on the author's self-conscious awareness of this relationship and of Renaissance preoccupation with reading as both an act of creation and interpretation George Joseph's study of three Renaissance poets focuses on the use of paradox as both a figure of speech and as a genre that serves both as a structure and as a basis for the interaction in the poetry David Rubin's essay on *La Fontaine* emphasizes the ways in which the register of style in the Fables is used to set the tone and control the meaning of the language In the chapters devoted to nineteenth and twentieth century literature one can see the continuing closer relationship between the book as a work of art and the reality in which it interacts Suzanne Nash analyzes the strategy Mme de Staël uses in writing *De l'Allemagne* a book written less to present an accurate portrayal of Germany than to promote her own republican ideals for France Ross Chambers's essay probes the question of the theme of melancholy in Romantic writing and its relationship to the social and political structures of the period Edward Kaplan shows how a growing ethical social concern can be seen in Baudelaire's revised *Les Fleurs du Mal* Rima Reck and Edward Kaplan reflect the growing use of literature as a vehicle for influencing public opinion Stirling Haig analyzes Flaubert's careful use of style and his awareness that reality is ultimately shaped by the beholder's perspective Finally Virginia La Charite's chapter on Proust returns to the idea of a structure within a structure in this case the architecture of the cathedral as a metaphor of synthesis an aesthetic device that gives an intelligible structure to Proust's enormous but intricately complex mass of details If John Porter Houston focused on form and style it is because he understood the semiotic nature of all things that a writer's style is a subtle form of refined communication or as Houston wrote style is an absolute manner of seeing things for Proust a question of vision and so constitutes the ultimate reality of literature **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved

Irena Yamboliev,2025-07-07 All real art wrote William Morris is ornamental If Morris is right then ornament is not as some would have it a triviality a sign of want or a crime Instead Ornament the Novel and the Victorian Real argues for the many and varied ways in which the novel is indebted to ornament Victorians and Victorianist scholars have compared the novel to fine arts such as Dutch genre painting or to photography emphasizing these visual forms investment in gritty particularity and exhaustive detailing of appearance But this story loses sight of a key fact that this book recovers ornament represents a distinct describable Victorian method of realism a method for boiling down essentials and making palpable the invisible fundamental laws that govern form in nature This book grounds itself historically in Victorian theories and practices of decoration developed in the middle of the nineteenth century a moment when Victorian designers overhauled the reigning principles of decorative art and shows the rise of the newly developed theory of ornament to have explanatory power for contemporary novelistic practice too The compositional principles in ornament far from trivial extraneous or deceptive furnish a new theory of form a new concept of the real and a new method for reading novelistic prose Ornament is at work churning away at the heart of the Victorian novel Wallpaper patterns hinge work stained glass these visual forms articulate principles of form such contrast symmetry flatness and stylization And novelists turn these design principles into literary principles importing them into their narratives as syntax word by word and phrase by phrase This book proceeds by way of very close readings that focus on the scale of the sentence and analyzes the rhythm meter and repetition of prose This method allows an appreciation of how in the hands of George Eliot Thomas Hardy A C Swinburne Oscar Wilde and D H Lawrence ornamental prose opens up representational possibilities not otherwise available Ornament allows novelists to render the patterning of human minds the dynamics of relationship and the intense realities of the more than human world
