**The Future of Foreign Language Education in the United States** Terry A. Osborn, 2002-01-30 At the dawning of the 21st century foreign language education in the United States is experiencing a period marked by exciting possibilities. Theorists and practitioners embrace a move from a perceived position of teaching only the elite to a nationally initiated cross disciplinary and cross cultural orientation embodied in the latest standards. Given the presence of non English languages in all parts of the United States a growing number of scholars are beginning to examine the sociological context in which this educational endeavor is carried out noting that the figure of professional practice is inextricably linked to issues of cultural and academic context. Theory informed practice in the coming years therefore will include the challenge of examining a broad range of topics related to curricular and instructional principles and procedures. The text is intended to provide a collection of perspectives related to issues of pluralism and reform as they will influence theory informed practice of foreign language education in the coming century. Drawing from a variety of contributors from both inside and outside of foreign second language education this text brings the voices of scholars together focused on issues of contemporary consequence. The chapters center around a focusing theme in the form of the following question: How does the changing social and academic context of language education in the United States impact the future of our discipline? **Future** Helen S. Lepke, 1989 *Resources in Education*, 2000 **Critical Issues in Foreign Language Instruction** Ellen S. Silber, 2013-09-13 First Published in 1991 This is Volume 22 of the Source Books on Education series. Politically speaking the study of foreign languages and cultures helps maintain a strong competitive position in an increasingly global marketplace. It was hard to imagine in 1957 that the launching of a Soviet rocket would push the United States into its greatest investment ever in foreign language education. As American policy makers attempted to play catch up with our brothers and sisters behind the iron curtain, this country infused federal dollars into extensive foreign language teacher training and the creation of new foreign language educational programs. As suddenly as federal support was given, however

so was it taken away and its withdrawal was responsible for one of the darkest periods in the history of foreign language education in America Drawing on the expertise of a number of the nation's most experienced and creative foreign language educators this volume edited by Ellen S Silber addresses some of the crucial problems we face in foreign language education today *Georgetown University Round Table on Languages and Linguistics (GURT) 1989: Language Teaching, Testing, and Technology* James E. Alatis, 1989-10-01 The 2000 Georgetown University Round Table on Languages and Linguistics brought together distinguished linguists from around the globe to discuss applications of linguistics to important and intriguing real world issues within the professions With topics as wide ranging as coherence in operating room communication involvement strategies in news analysis roundtable discussions and jury understanding of witness deception this resulting volume of selected papers provides both experts and novices with myriad insights into the excitement of cross disciplinary language analysis Readers will find in the words of one contributor that in such cross pollination of ideas there's tremendous hope there's tremendous power and the power to transform

address the parallels among them In response Foreign Language Education in America is an edited book with contributions that represent the diversity in foreign language education today including perspectives from elementary middle schools high schools university level courses summer programs federal government and international learning This is a practical guide to the state of the field that fills a much needed gap for scholars researchers administrators and practitioners who are looking for a resource that describes effective practices across the field      **The ACTFL Foreign Language Education Series** ,1990      *Proceedings of the 5th International Conference on English Language Teaching (ICON-ELT 2024)* M. Faruq Ubaidillah,Durotun Nasihah,Dzulfikri Dzulfikri,Febti Ismiatun,Mochamad Imron Azami,2024-12-25 This is an open access book This conference explores the challenges and opportunities of teaching English in the digital era In addition the sub themes carry issues related to ELT curriculum teacher professional development technology enhanced language learning and applied linguistics The conference provides forums for discussions and collaboration among researchers lecturers teachers and graduate students in Indonesia and beyond and allows them to share best practices experiences research and innovations in teaching English      *Lasting Change in Foreign Language Education* John L. Watzke,2003 Lasting Change in Foreign Language Education presents a historical account of foreign language in general education The author examines the struggle of this subject discipline to align with the changing mission of secondary education as it emerged as the predominant institution enrolling students in the study of second languages This 100 year history suggests trends persistent across major periods of reform to explain current problems in the expansion of learning opportunities in foreign language Included is a complete database of education statistics on foreign language education and national and state education law from 1899 to the present Analysis of this data is presented in multiple formats to describe the historical capacity of the education system to achieve reform A review of contemporary standards based education initiatives in states and school districts similarly serves to reflect how historical trends continue to restrict change Concise policy implications are suggested as a means to address historical precedence and the greater mission of general education in the development of education policy and its transformation into practice Policy development must include a greater understanding of the historical development of foreign language in general education This vital link has been lacking in the past century as foreign language has struggled to realign itself with the changing mission of general education For example there are distinct curricular differences between a general education for all students and one for leadership and higher education Only the latter makes room for solid foreign language education In addition the study of foreign language has remained primarily a beginning level endeavor for the majority of students over the past century This trend results in significant pressure on the beginning level curriculum particularly during periods of reform to provide multiple academic outcomes in education      *AI in Language Teaching, Learning, and Assessment* Pan, Fang,2024-02-12 The introduction of Artificial Intelligence AI has ignited a fervent academic discourse AI s role is as both a powerful ally and a potential adversary in education For instance
