Seattle Monorail Project, 2004 *The Country Houses of John F. Staub* Stephen Fox, 2007 This ambitious study of Staub's work by architectural historian Stephen Fox goes beyond a description of Staub's houses. Fox analyzes the roles of space, structure, and decoration in creating, defining, and maintaining social class structures and expectations, and shows how Staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients. In the process, he contributes greatly to a fuller understanding of Houston's emergence as a premier American city. **BOOK JACKET**

Diversity and Design Beth Tauke, Korydon Smith, Charles Davis, 2015-08-27 *Diversity and Design* explores how design, whether of products, buildings, landscapes, cities, media, or systems, affects diverse members of society. Fifteen case studies in television, marketing, product design, architecture, film, video games, and more illustrate the profound, though often hidden, consequences design decisions and processes have on the total human experience. The book not only investigates how gender, race, class, age, disability, and other factors influence the ways designers think, but also emphasizes the importance of understanding increasingly diverse cultures and thus averting design that leads to discrimination, isolation, and segregation. With over 140 full-color illustrations, chapter summaries, discussion questions, and exercises, *Diversity and Design* is a valuable tool to help you understand the importance of designing for all. *Monumental Seattle* Robert Spalding, 2021-06-22

Beginning with the 1899 installation of a stolen Tlingit totem pole at Pioneer Square and stretching to artist Lou Cella's Ken Griffey Jr. sculpture erected at Safeco Field in 2017, *Seattle* offers an impressive abundance of public monuments, statues, busts, and plaques. Whether they evoke curiosity and deeper interaction or elicit only a fleeting glance, the stories behind them are worth preserving. Private donors and civic groups commissioned prominent national sculptors as well as local artists like James A. Wehn, who sculpted multiple renderings of Chief Seattle, and Alonzo Victor Lewis, who produced a number of bas-reliefs and statues, including one of the city's most controversial: a World War I soldier known as The Doughboy. The resulting creations represent diverse perspectives and celebrate a wide array of cultural heroes: dozens of firsts, the Alaska-Yukon-Pacific Exposition, aviation, and military and maritime service. Author Robert Spalding provides the history surrounding these works. Beyond the words chiseled into granite or emblazoned in bronze, he considers the deeper meaning of the heritage markers, exploring how and why people chose to commemorate the past, the selection of sites and artists, and the context of the time period. He also discusses how changing societal values affect public memorials, noting works that are missing or relocated and how they have been maintained or neglected. An appendix lists the type, year, location, and artist for sixty monuments and statues, and whether each still exists. Another useful appendix offers maritime plaque inscriptions. *New Urban Configurations* R. Cavallo, S. Komossa, N. Marzot, 2014-04-25 Urban areas have been caught up in a turbulent process of transformation over the past 50 years, and changes have been rapid, with issues such as mobility, nature, water management, energy use, and public space featuring prominently.
