**Utopianism for a Dying Planet** Gregory Claeys,2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone

won't save our planet. A more radical approach is required, one that involves profound changes in individual and collective behavior. *Utopianism for a Dying Planet* examines the ways the expansive history of utopian thought, from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers, can offer moral and imaginative guidance in the face of catastrophe. The utopian tradition, which has been critical of conspicuous consumption and luxurious indulgence, might light a path to a society that emphasizes equality, sociability, and sustainability. Gregory Claeys unfolds his argument through a wide-ranging consideration of utopian literature, social theory, and intentional communities. He defends a realist definition of utopia, focusing on ideas of sociability and belonging as central to utopian narratives. He surveys the development of these themes during the eighteenth and nineteenth centuries, before examining twentieth and twenty-first century debates about alternatives to consumerism. Claeys contends that the current global warming limit of 1.5°C (2.7°F) will result in cataclysm if there is no further reduction in the cap. In response, he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities. An urgent and comprehensive search for antidotes to our planet's destruction. *Utopianism for a Dying Planet* asks for a revival of utopian ideas, not as an escape from reality, but as a powerful means of changing it. **Creating Harmony** Hildur Jackson, 1999. 28 contributors each offer a chapter giving their experiences and techniques for resolving conflict in communities across the globe. **The Gayndah Communes** William James Metcalf, 1998. Chapter three, *Gayndah and the Land of the Gayndah Communes*, contains some information of the Aboriginal people of the area. Mostly a history of European settlement. *Communities Directory* Fellowship for Intentional Community, 2000. An international community is made up of a group of people who live or work together in pursuit of a common ideal or vision. This guide includes more than 700 listings of communities around the world, maps of those located in North America, 33 illustrated articles about community living, a resources section with indices, and more. [The Communal Idea in the 21st Century](#), 2012-09-28. The idea of a better society, as associated with the communal idea, is investigated from both theoretical perspectives and through contemporary experiences around the world. This idea leaves nobody indifferent. Whatever the hardship that its concretization implies, however, once it does materialize, it cannot, as such, avoid new challenges, tensions, and unexpected claims. This means, at varying degrees, negations of and removals from the utopian inspiration. Humans are able to create unprecedented conditions of life under most ambitious inspirations, but are unable to safeguard their achievements from change, alterations, and contradictions. In this, however, another aspect of the utopian realizations is that they ultimately leave room for new utopist thinking and enrolment. As far as indeed the utopian inspiration draws its vitality from potent civilizational codes, its renewal from ashes is as unavoidable as its self-betrayal through materialization.
