Sharing The Blame Subhash Chandra Bose And The Japanese Occupation Of The Andamans 1942-1945:

The Vulnerable Andaman and Nicobar Islands Punam Tripathi, 2018-03-14 This first full length book addresses disasters in the context of vulnerability of the Andaman and Nicobar Islands that comprise 572 islands in the Bay of Bengal. It looks at the disasters that the islands have experienced in the last 200 years and analyzes major disasters since colonization by the British. Raising some critical questions, this book attempts to understand the overall profile of disasters, the facts, causes, damage, response and recovery in the Andaman and Nicobar Islands. It discusses earthquakes, cyclones, tsunamis and epidemics as well as impacts of World War II, the penal colony and the post-Independence resettlement on the tribal population. The work will serve as a rich resource with its detailed tables, figures, maps and diagrams, appendices and database ranging from travelogues, Census of India reports and fieldwork to Right to Information (RTI) petitions that collect hitherto unknown facts. The book will be useful to students of geography, disasters and disasters management, climate and environmental studies, history, sociology, island and ocean studies and South Asian studies. **Sharing the Blame** Tilak Raj Sareen, 2002 The Japanese Occupation Of South East Asia During The World War II has been closely studied by many scholars. But there has been no critical study of the Japanese Occupation Of The Andaman And Nicobar Islands. This study is based on archival sources available in India and abroad and critically examines the nature of the Japanese rule in the Andamans, its relations with the members of the Provisional Government Of Azad Hind who participated in the civil administration, the torturing of the so-called spies, the devastation caused to life and property of the people by the Allied air raids on the islands. The author presents objectively the circumstances leading to the atrocities committed by the Japanese and the Indian police officials on the innocent people. This study will be an essential and compulsive reading for students of the Second World War both in India and Japan. *Facing Our Darkness: Manifestations of Fear, Horror and Terror* Laura Colmenero-Chilberg, Ferenc Mújdricza, 2019-07-22 This volume was first published by Interdisciplinary Press in 2015. Fear, horror, terror. The very words cause us to tingle with both anticipation and unease. Sitting in the movie theatre waiting for the murderer to jump out and kill the clueless teenager, we are both repulsed and excited about the impending death. We yell 'He's behind the tree' knowing our reminders are pointless but unable to restrain ourselves when caught up in the panic of the moment. Humans have a fascination with fear, horror and terror. Why? Whatever the reason, it both fascinates and often disgusts us. All of these emotional phenomena—fear, horror, terror—are infected by our fear of death. In the end, all three phenomena test our courage. Yet this courage is not only heroic; each and every optimistic, trusting, self-confident and faithful person permanently has it in spite of all the fears, horrors and terrors with which the state of human existence threatens us since the dawn of self-awareness. This book is about some of these threats. **India at War** Yasmin Khan, 2015 A narrative account of India's role in World War II, revealing the cost and scope of participation and the profound effects it had on independence and the country today. *Wartime Japanese Anthropology in Asia and the Pacific* Akitoshi

Shimizu, Jan van Bremen, Kokuritsu Minzokugaku Hakubutsukan, 2003 **Mapping Place Names of India** Anu Kapur, 2019-03-01 This book is the first of its kind to chart the terrain of contemporary India's many place names. It explores different place connections, investigates how places are named and renamed, and looks at the forces that are remaking the future place name map of India. Lucid and accessible, this book explores the bonds between names, places, and people through a unique amalgamation of toponymy, history, mythology, and political studies within a geographical expression. This volume addresses questions on the status and value of place names, their interpretation and classification. It brings to the fore the connections between place names and the cultural, geographical, and historical significations they are associated with. This will be an essential read for scholars and researchers of geography, law, politics, history, and sociology, and will also be of interest to policy makers, administrators, and the common reader interested in India. **Senri Ethnological Studies**, 2003
 日本とインドの戦時関係と日本人の戦時生活 PRAVAT ROY, **Indian Books in Print**, 2003 日本軍人捕虜物語 , 2002 *Japanese Prisoners of War in India, 1942-46* Tilak Raj Sareen, 2006 This is the first in-depth study to examine the history, treatment, and conditions of more than 2500 Japanese prisoners of war who were captured by British forces on the Burma front and kept in India during the period 1942-46. Drawing on original sources including the National Archive of India, the International Committee of the Red Cross, as well as limited government records in the UK, USA, and Japan, together with some former Japanese POWs' first-hand accounts, the author has been able to provide a detailed picture of the way of life of these prisoners, the organization of camp life, as well as the policies that governed their incarceration. In so doing, the author fills a significant gap both in Pacific War studies and prisoner-of-war history. The manner of the capture and surrender of the Japanese was unique in that they were captured for the most part when they were either seriously wounded or sick or had become unconscious due to hunger or disease while fighting on the Arakan, Imphal, and Kohima-Burma fronts. A few in good health gave themselves up, but there was no mass surrender even by a single regiment or unit ever took place, thus giving rise to the myth that no Japanese soldier ever became a prisoner of war. This account sets the history straight and will be widely welcomed by the generalist and specialist alike, particularly those studying the history of this period, including POW history, as well as students of international law and the work of international agencies such as the Red Cross.
