***Shark Attacks of the Twentieth Century*** Ralph S. Collier, 2003 This is the single most historically valuable book ever written on the subject of Pacific Coast shark attacks. Through bone-chilling accounts in victims' own words, never before published photographs and detailed maps and charts of attack locations, this book accurately chronicles every known unprovoked shark attack that occurred along the Pacific Coast of North America during the entire Twentieth Century. The author's examination of wound characteristics, recurring locations, and the curious phenomenon of attacks on inanimate objects afford astonishing insights into why sharks attack. These insights form the foundation for his safety recommendations to specific ocean user groups. Based on 40 years of research, this book will be of inestimable value to scientists, researchers, and educators, as well as anyone that might venture into the waters off the Pacific Coast. The understanding gained from this book will temper fears with knowledge and provide the reader with clear and specific information that may easily make the difference between life and death.

***Twelve Days of Terror*** Richard G. Fernicola, 2016-05-02 Upon the 100th anniversary of the most terrifying stretch of shark attacks in American history, a wave said to have been the inspiration for *Jaws* comes a reissue of the classic Lyons Press account and investigation. In July 1916, a time when World War I loomed over America and New York City was in the midst of a deadly polio epidemic, the tri-state area sought relief at the Jersey shore. The Atlantic's refreshing waters proved to be utterly inhospitable, however. In just twelve days, four swimmers were violently and fatally mauled in separate shark attacks, and a fifth swimmer escaped an attack within inches of his life. In this thoroughly researched account, Dr. Richard Fernicola, the leading expert on the attacks, presents a riveting portrait, investigation, and scientific analysis of the terrifying days against the colorful backdrop of America in 1916.

***Shark Attack!*** Marc Shulman, 2006

***North Carolina Shark Attacks*** John Hairr, 2023 Swim at your own risk. Millions of tourists visit North Carolina beaches each year, but advertisements promoting fun in the sun along idyllic shores forget to mention the dangers lurking under the waves. The Old North State is home to some very large and lethal sharks: bull sharks, tiger sharks, oceanic whitetips, and great whites. Large sharks used to be prolific along the coast, especially in the waters of Carteret County, where some brutal, fatal attacks have happened. Offshore, mariners dreaded the infamous Graveyard of the Atlantic, knowing their chances of meeting a gruesome end were high in those shark-haunted waters. As shark populations rebound in waters where humans congregate, local author John Hairr tells forgotten tales of historic clashes between these two apex
