Shattered Shell:

St. Nicholas Mary Mapes Dodge, 1904 **The \$60,000 Dog** Lauren Slater, 2012-11-20 A stunning new book about the role of animals in our lives by a popular and acclaimed writer From the time she is nine years old biking to the farmland outside her suburban home where she discovers a disquieting world of sleeping cows and a Private Way full of the wondrous and creepy creatures of the wild spiders deer moles chipmunks and foxes Lauren Slater finds in animals a refuge from her troubled life As she matures her attraction to animals strengthens and grows more complex and compelling even as her family is falling to pieces around her Slater spends a summer at horse camp where she witnesses the alternating horrific and loving behavior of her instructor toward the animals in her charge and comes to question the bond that so often develops between females and their equines Slater's questions follow her to a foster family her own parents no longer able to care for her A pet raccoon rescued from a hole in the wall teaches her how to feel at home away from home The two Shiba Inu puppies Slater adopts years later against her husband's will grow increasingly important to her as she ages and her family begins to grow Slater's husband is a born skeptic and possesses a sternly scientific view of animals as unconscious primitive creatures one who insists that an animal's worth is roughly equivalent to its edibility As one of her dogs Lila goes blind and the medical bills and monthly expenses begin to pour in he calculates the financial burden of their canine family member and finds that Lila has cost them about 60 000 not to mention the approximately 400 pounds of feces she has deposited in their yard But when Benjamin begins to suffer from chronic pain Lauren is convinced it is Lila's resilience and the dog's quick adaptation to her blindness that draws her husband out of his own misery and motivates him to try to adjust to his situation Ben never becomes a true believer or a die hard animal lover but his story and the stories Lauren tells of her own bond with animals convince her that our connections with the furry the four legged the exoskeletoned or the winged may be just as priceless as our human relationships The 60 000 Dog is Lauren Slater's intimate manifesto on the unique invaluable and often essential contributions animals make to our lives As a psychologist a reporter an amateur naturalist and above all an enormously gifted writer she draws us into the stories of her passion for animals that are so much more than pets She describes her intense love for the animals in her life without apology and argues finally that the works of Darwin and other evolutionary biologists prove that when it comes to worth animals are equal and in some senses even superior to human beings *Martial Supreme with Devouring Arts* Jian Shijiu, 2019-11-11 Lin Feng who had a blood feud obtained the Devouring God Technique and opened up a path of invincibility He barged into the Demon Region and the War Temple fighting off the Hundred Races and Heaven's Pride He massacred countless mighty sects swallowing up all existences and traversing the entire universe *The Experiences of a Care-Giver* John Keshi, 2022-08-25 Experiences of a Caregiver is a true story about mental health patients not from the perspective of a psychiatrist but from a mental health worker who cared and interacted with these patients on a daily basis It is moving and enlightening *Traumatic Ruptures: Abandonment and*

Betrayal in the Analytic Relationship Robin A. Deutsch, 2014-05-09 For much of its history psychoanalysis has been strangely silent about sudden ruptures in the analytic relationship and their immediate and far reaching effects for those involved Such issues of betrayal and abandonment the death of an analyst a patient's suicide an ethical violation disrupt the stability and cohesion of the analytic framework and leave indelible marks on both individuals and institutions alike In *Traumatic Ruptures* an international range of contributors present first person highly personal and sometimes painful accounts of their experiences and the occasionally difficult yet redeeming lessons they have taken from them Presented in four parts the book explores multiple meanings and consequences of the break in the analytic relationship Part One *Ruptured Subjectivity Lost and Found* presents accounts of clinical encounters with death Part Two *Rupture The Clinical Process* addresses the sudden loss of an analyst the trauma of patient suicide and the issue of countertransference when working with patients who have suffered the unexpected loss of their first analyst Part Three *The Long Shadow of Rupture* examines the effects of ethical violations in the short and long term Finally Part Four *Ruptures Impact on Organizations* looks at the wider impact of ethical and sexual boundary violations in the context of an organization and the effect of trauma on a psychoanalytic institute By giving voice to issues that are usually silenced the authors here open the door to understanding the complex nature of traumatic rupture within the analytic field This intimate exploration of psychoanalytic treatments and communities is ideal for psychoanalysts psychologists clinical social workers psychiatrists and family therapists It is an important text for clinicians working with individuals who have experienced traumatic ruptures and for members of organisations dealing with their effects

The Egyptian Campaigns, 1882 to 1885 Charles Royle, 1886 *Captain Lucy's Flying Ace* Aline Havard, 1920 *The Egyptian Campaigns, 1882 to 1885, and the Events that Led to Them - Volume 1* Charles Royle, 2012-04-16 Volume 1 of 2 This is the standard two volume history of one of the classic albeit largely disastrous campaigns of Victorian military history the attempt to impose British rule or influence on Egypt and the trackless wastes of the Sudan which then as now despite much trumpeted victories proved implacably hostile to foreign intervention The climax of the story is the tragic saga of Charles Gordon the charismatic eccentric though fatally flawed British General whose death at Khartoum provoked a belated expedition down the Nile in a futile rescue attempt Royle's history is a model account A barrister and not a military man himself he is unsparing of the political mistakes of successive British administrations Liberal and Conservative to deal with Egypt Vol 1 of the history traces the political background and the Egyptian Col Arabi's revolt against British dominance This in turn provoked a major British intervention designed to protect investment in the newly built and vital Suez Canal Military operations included the siege and partial destruction of Alexandria the battle of Tel el Kebir and the capture of Cairo

Our Tribal Future David R Samson, 2023-09-21 An astounding and inspiring look at the science behind tribalism and how we can learn to harness this

powerful instinct to improve the world around us What do you think of when you hear the word tribalism For many it conjures images of bigotry xenophobia and sectarian violence Others may envision their own tribe family friends and the bonds of loyalty that keep them together Tribalism is one of the most complex and ancient evolutionary forces it gave us the capacity for co operation and competition and allowed us to navigate increasingly complex social landscapes It is so powerful that it is a better predictor of our behaviour than race class gender or religion But in our vast modern world has this blessing become a curse Our Tribal Future explores a central paradox of our species how altruism community kindness and genocide are all driven by the same core adaptation Evolutionary anthropologist David R Samson engages with cutting edge science and philosophy as well as his own field research with small scale societies and wild chimpanzees to explain the science ethics and history of tribalism in compelling and accessible terms This bold and brilliant book reveals provocative truths about our nature Readers will discover that tribalism cannot and should not be eliminated entirely to do so would be to destroy what makes us human But is it possible to channel the best of this instinct to enrich our lives while containing the worst of its dangers
