Womack, Daniel Heath Justice, Christopher B. Teuton, 2008 A paradigm shift in American Indian literary criticism **The Challenges of Native American Studies** Barbara Saunders, 2004 The essays gathered in this volume celebrate the founding of the American Indian Workshop AIW twenty five years ago as a European forum for Native American studies We present this collection of ongoing debates on the interlaced and interlocking arena of Native American studies and its complicated relation with Native Americans themselves These debates tie in with such questions as Can Native American studies shake off its past and deal with the complexity of political and academic issues in the present Why by whom and for whom is research conducted within this domain and who decides what the next step should be This volume is a modest response to these questions to the validation and substantiation of the cat s cradle of practices of the many disciplines that comprise Native American studies and an attempt to ask the right questions to get past the imperial categories and to thoughtfully mediate and reorientate perspectives Yuchi Ceremonial Life , 2005-01-01 The Yuchis are one of the least known yet most distinctive of the Native

groups in the American southeast Located in late prehistoric times in eastern Tennessee they played an important historical role at various times during the last five centuries and in many ways served as a bridge between their southeastern neighbors and Native communities in the northeast First noted by the de Soto expedition in the sixteenth century the Yuchis moved several times and made many alliances over the next few centuries The famous naturalist William Bartram visited a Yuchi town in 1775 at a time when the Yuchis had moved near and become allied with Creek communities in Georgia This alliance had long lasting repercussions when the United States government forced most southeastern groups to move to Oklahoma in the early nineteenth century the Yuchis were classified as Creeks and placed under the jurisdiction of the Creek Nation Today despite the existence of a separate language and their distinct history culture and religious traditions the Yuchis are not recognized as a sovereign people by the Creek Nation or the United States Jason Baird Jackson examines the significance of community ceremonies for the Yuchis today For many Yuchis traditional rituals remain important to their identity and they feel an obligation to perform and renew them each year at one of three ceremonial grounds called Big Houses The Big House acts as a periodic gathering place for the Yuchis their Creator and their ancestors Drawing on a decade of collaborative study with tribal elders and using insights gained from ethnopoetics Jackson captures in vivid detail the performance impact and motivations behind such rituals as the Stomp Dance the Green Corn Ceremony and the Soup Dance and discusses their continuing importance to the community

Activism and the American Novel Channette Romero,2012 Since the 1980s many activists and writers have turned from identity politics toward ethnic religious traditions to rediscover and reinvigorate their historic role in resistance to colonialism and oppression In her examination of contemporary fiction by women of color including Toni Morrison Ana Castillo Toni Cade Bambara Louise Erdrich and Leslie Marmon Silko Channette Romero considers the way these novels newly engage with Vodun Santer a Candombl and American Indian traditions Critical of a widespread disengagement from civic participation and of the contemporary novel s disconnection from politics this fiction attempts to transform the novel and the practice of reading into a means of political engagement and an inspiration for social change Why Indigenous Literatures Matter Daniel Heath Justice,2018-03-08 Part survey of the field of Indigenous literary studies part cultural history and part literary polemic Why Indigenous Literatures Matter asserts the vital significance of literary expression to the political creative and intellectual efforts of Indigenous peoples today In considering the connections between literature and lived experience this book contemplates four key questions at the heart of Indigenous kinship traditions How do we learn to be human How do we become good relatives How do we become good ancestors How do we learn to live together Blending personal narrative and broader historical and cultural analysis with close readings of key creative and critical texts Justice argues that Indigenous writers engage with these questions in part to challenge settler colonial policies and practices that have targeted Indigenous connections to land history family and self More importantly Indigenous writers imaginatively engage the many ways that communities and individuals have sought to nurture these relationships and project them into the future This provocative volume challenges readers to critically consider and rethink their assumptions about Indigenous literature history and politics while never forgetting the emotional connections of our shared humanity and the power of story to effect personal and social change Written with a generalist reader firmly in mind but addressing issues of interest to specialists in the field this book welcomes new audiences to Indigenous literary studies while offering more seasoned readers a renewed appreciation for these transformative literary traditions

the key historical and contemporary figures in American Indian literature and their defining works From the fiery sermons of Methodist minister William Apress to the Pulitzer Prize winning novel *House Made of Dawn* by N Scott Momaday to the critically acclaimed and commercially successful novels of Louise Erdrich this book illustrates the indelible and influential imprint American Indians have on the landscape of American letters Readers are also introduced to the key themes and context of American Indian literature exploring how it is inextricable from American literary history the American literary canon and the narrative of American history not on the fringes of the American experience but central to it

Indians Playing Indian Monika Siebert, 2015-02-27 In *Indians Playing Indian* Monika Siebert explores the appropriation or misappropriation of Native American cultural heritage for political and commercial ends and the innovative ways in which indigenous artists in a range of media have responded to these developments Contemporary indigenous people in North America confront a unique predicament As legal and diplomatic practice in the early twenty first century returns to the recognition of their status as citizens of historic sovereign nations popular culture continues to depict them as cultural minorities on the par with other ethnic Americans This popular misperception of indigeneity as culture rather than as a historically developed political status sustains the myth of America as a refuge to the world's immigrants and a home to successful multicultural democracies But it fundamentally misrepresents indigenous people who have experienced a history of colonization rather than a tradition of immigration on the continent Contemporary indigenous cultural production is caught up in this phenomenon of multicultural misrecognition as well The current flowering of indigenous literature cinema and visual arts is typically taken as evidence that Canada and the United States have successfully broken with their colonial pasts to become thriving nations of many cultures where Native Americans along other minorities enjoy full freedom to represent their cultural difference
