Simple Needs:

Neuroleadership Argang Ghadiri, Andreas Habermacher, Theo Peters, 2013-01-26 This book takes you on a journey through the brain its function and its impact on leadership The young business field of neuroleadership is founded on the belief that understanding the brain can give leaders new and powerful insights into human behaviour and how to effectively tap into that knowledge to generate better returns in business The book approaches the background history and major thinkers in the field but also reassesses the fundamental concept of neuroleadership The authors look into the fundamental basic needs of human beings how they are represented in the neural networks and how this manifests in motivational drives The book also focuses explicitly on how impactful organisational tools can be from the viewpoint of the brain By following this methodology the reader will be able to use the knowledge of neuroscience at the workplace to better address individuals brains and hence tap into the full power of brains in business

Basic Needs and the Urban Poor P. J. Richards, A. M. Thomson, 2017-10-12 Originally published in 1984 The diverse problems suffered by the urban poor in Asia and the means by which their welfare levels can be raised are investigated comprehensively in this study All chapters written by specialists deal with a particular subject but the general theme remains that the factors causing urban poverty and low income levels are interconnected and transmitted from one generation to another It is intended that this study will lead to discussion of the problems involved in providing services for the urban poor and result in the increased responsiveness of urban management This title will be of interest to students of urban and development studies
