The New South, 1945-1980 Numan V. Bartley, 1995 First published in 1955 to wide acclaim T Harry Williams P G T Beauregard is universally regarded as the first authoritative portrait of the Confederacy s always dramatic often perplexing general Chicago Tribune Chivalric arrogant and of exotic Creole Louisiana origin Beauregard participated in every phase of the Civil War from its beginning to its end He rigidly adhered to principles of war derived from his studies of Jomini and Napoleon and yet many of his battle plans were rejected by his superiors who regarded him as excitable unreliable and contentious After the war Beauregard was almost the only prominent Confederate general who adapted successfully to the New South running railroads and later supervising the notorious Louisiana Lottery This paradox of a man who fought gallantly to defend the Old South and then helped industrialize it is the fascinating subject of Williams superb biography

Watts, 2004-08-26 Thirty five years after its initial publication Harold Cruse s The Crisis of the Negro Intellectual remains a foundational work in Afro American Studies and American Cultural Studies Published during a highly contentious moment in Afro American political life The Crisis of the Negro Intellectual was one of the very few texts that treated Afro American intellectuals as intellectually significant The essays contained in Harold Cruse s The Crisis of the Negro Intellectual Reconsidered are collectively a testimony to the continuing significance of this polemical call to arms for black intellectuals Each scholar featured in this book has chosen to discuss specific arguments made by Cruse While some have utilized Cruse s arguments to launch broader discussions of various issues pertaining to Afro American intellectuals and others have contributed discussions on intellectual issues completely ignored by Cruse all hope to pay homage to a thinker worthy of continual reconsideration

Struggle for a Better South G. Michel, 2004-11-26 Struggle for a Better South dispels the notion that all whites in the South stood united against social change in the 1960s Gregg Michel s compelling study of the Southern Student Organizing Committee SSOC the leading progressive organization created by young white activists in the South during that tumultuous decade fills a crucial gap in the literature about New Left activism Michel shows that the SSOC was the only activist group of the era that worked to cultivate white support for the social movement The SSOC s members gave themselves the delicate task of reconciling their love for the South and its history warts and all with their modern day commitment to equality and justice for all people

sectional reconciliation that had seemed achievable after Reconstruction was foundering and the South was increasingly perceived and portrayed as impoverished uneducated and backward In this interdisciplinary study Angie Maxwell examines and connects three key twentieth century moments in which the South was exposed to intense public criticism identifying in white southerners responses a pattern of defensiveness that shaped the region s political and cultural conservatism Maxwell exposes the way the perception of regional inferiority confronted all types of southerners focusing on the 1925 Scopes trial in Dayton Tennessee and the birth of the anti evolution movement the publication of I ll Take My Stand and the turn to New Criticism by the Southern Agrarians and Virginia s campaign of Massive Resistance and Interposition in response to the Brown v Board of Education decision Tracing the effects of media scrutiny and the ridicule that characterized national discourse in each of these cases Maxwell reveals the reactionary responses that linked modern southern whiteness with anti elitism states rights fundamentalism and majoritarianism **Deeper Joy** ,2005 **Desegregating Private Higher**

Education in the South Melissa Kean,2008-10-15 After World War II elite private universities in the South faced growing calls for desegregation Though unlike their peer public institutions no federal court ordered these schools to admit black students and no troops arrived to protect access to the schools to suggest that desegregation at these universities took place voluntarily would be misleading In Desegregating Private Higher Education in the South Melissa Kean explores how leaders at five of the region s most prestigious private universities Duke Emory Rice Tulane and Vanderbilt sought to strengthen their national position and reputation while simultaneously answering the increasing pressure to end segregation To join the upper echelon of U S universities these schools required increased federal and northern philanthropic funding Clearly to receive this funding schools had to eliminate segregation and so a rift appeared within the leadership of the schools University presidents generally favored making careful accommodations in their racial policies for the sake of academic improvement but universities boards of trustees the presidents main opponents served as the final decision makers on university policy Board members usually comprised of professional white male alumni reacted strongly to threats against southern white authority and resisted determinedly any outside attempts to impose desegregation The grassroots civil rights movement created a national crisis of conscience that led many individuals and institutions vital to the universities survival to insist on desegregation The schools felt enormous pressure to end discrimination as northern foundations withheld funding accrediting bodies and professional academic associations denied membership divinity students and professors chose to study and teach elsewhere and alumni withheld contributions The Brown v Board of Education decision in 1954 gave the desegregation debate a sense of urgency and also inflamed tensions which continued to mount into the early 1960s These tensions and the boards resistance to change created an atmosphere of crisis that badly eroded their cherished role as southern leaders When faced with the choice between institutional viability and segregation Kean explains they gracelessly relented refusing to the end to admit they had been pressured by outside forces Shedding new light on a rare unexamined

facet of the civil rights movement Desegregating Private Higher Education in the South fills a gap in the history of the academy Time Longer Than Rope Charles M. Payne, Adam Green, 2003-08 Time Longer than Rope unearths the ordinary roots of extraordinary change demonstrating the depth and breadth of black oppositional spirit and activity that preceded the civil rights movement The diversity of activism covered by this collection extends from tenant farmers labor reform campaign in the 1919 Elaine Arkansas massacre to Harry T Moore s leadership of a movement that registered 100 000 black Floridians years before Montgomery and from women s participation in the Garvey movement to the changing meaning of the Lincoln Memorial Concentrating on activist efforts in the South key themes emerge including the underappreciated importance of historical memory and community building the divisive impact of class and sexism and the shifting interplay between individual initiative and structural constraints Publisher description **Advancing Democracy** Amilcar Shabazz, 2005-11-16 As we approach the fiftieth anniversary of Brown v Board of Education 1954 it is important to consider the historical struggles that led to this groundbreaking decision Four years earlier in Texas the Sweatt v Painter decision allowed blacks access to the University of Texas s law school for the first time Amilcar Shabazz shows that the development of black higher education in Texas which has historically had one of the largest state college and university systems in the South played a pivotal role in the challenge to Jim Crow education Shabazz begins with the creation of the Texas University Movement in the 1880s to lobby for equal access to the full range of graduate and professional education through a first class university for African Americans He traces the philosophical legal and grassroots components of the later campaign to open all Texas colleges and universities to black students showing the complex range of strategies and the diversity of ideology and methodology on the part of black activists and intellectuals working to promote educational equality Shabazz credits the efforts of blacks who fought for change by demanding better resources for segregated black colleges in the years before Brown showing how crucial groundwork for nationwide desegregation was laid in the state of Texas
