Simplicity Muffins Scones Teatime Treats:

100 Recipes America's Test Kitchen, 2015-10-13 A provocative handpicked collection of relevant and surprising essential recipes for today's cook. We have countless recipes at our disposal today, but what are the real keepers—the ones that don't just feed us when we're hungry or impress our friends on Saturday night but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else: **100 Recipes Everyone Should Know How to Make**. Organized into three recipe sections: Absolute Essentials, Surprising Essentials, and Global Essentials, each recipe is preceded by a thought-provoking essay that positions the dish. For example, "Treating Pasta Like Rice Simplifies Everything," "A Covered Pot Is a Surprisingly Good Place to Roast a Chicken," and "Reimagine Pie in a Skillet to Simplify the Process." You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff, genius techniques for producing amazing flavor (try poaching chicken breasts over a garlic and soy-spiked brine), trust us, it's that good, and familiar favorites reinvigorated (the best beef stew comes from Spain and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography shot right in the test kitchen accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, **100 Recipes Everyone Should Know How to Make** provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen.

Teatimes Helen Saberi, 2018-06-15 In **Teatimes**, food historian Helen Saberi takes us on a stimulating journey beyond the fine porcelain doilies, crumpets, and jam into the fascinating and diverse history of tea drinking. From elegant afternoon teas, hearty high teas, and cricket and tennis teas to funeral teas, cream teas, and many more, Saberi investigates the whole panoply of teatime rituals and ephemera, including tea gardens, tea dances, tea gowns, and tearooms. We are invited to spend time in the sophisticated salons of Paris and the cozy tearooms of the United States to enjoy the teatime traditions of Canada, the United Kingdom, Australia, New Zealand, and South Africa, where housewives prided themselves on their well-filled tins to sit in on the tea parties of the Raj, and in Indian cafes to savor teatimes along the Silk Road, where the samovar and chaikhana reign supreme, and to delight in the tasty dim sum of China and the intricate tradition of cha kaiseki in Japan. Steeped in evocative illustrations and recipes from around the world, **Teatimes** shows how tea drinking has become a global obsession, from American iced tea and Taiwanese bubble tea to the now classic English afternoon tea. Pinkies up.

The study of food and food history is a new discipline but one that has developed exponentially in the last twenty years. There are now university departments, international societies, learned journals and a wide ranging literature exploring the meaning of food in the daily lives of people around the world and seeking to introduce food and the process of nourishment into our understanding of almost every compartment of human life, whether politics, high culture, street life, agriculture or life and death issues such as conflict and war. The great quality of this Companion is the way it includes both an exhaustive catalogue of the foods that nourish humankind, whether they be fruit from tropical forests, mosses scraped from adamantine granite in Siberian wastes or body parts such as eyeballs and testicles, and a richly allusive commentary on the culture of food, whether expressed in literature and cookery books or as dishes peculiar to a country or community. The new edition has not sought to dim the brilliance of Davidson's prose. Rather, it has updated to keep ahead of a fast moving area and has taken the opportunity to alert readers to new avenues in food studies.
