**Social Structure, Space and Possession in Tongan Culture and Language** Svenja Völkel, 2010 This interdisciplinary study investigates the relationship between culture language and cognition based on the aspects of social structure space and possession in Tonga Polynesia Grounded on extensive field research Volkel explores the subject from an anthropological as well as from a linguistic perspective The book provides new insights into the language of respect an honorific system which is deeply anchored in the societal hierarchy spatial descriptions that are determined by socio cultural and geocentric parameters kinship terminology and possessive categories that perfectly express the system of social status inequalities among relatives These examples impressively show that language is deeply anchored in its cultural context Moreover the linguistic structures reflect the underlying cognitive frame of its speakers Just as several cultural practices sitting order access to land and gift exchange processes the linguistic means are not only expressions of stratified social networks but also tools to maintain or negotiate the underlying socio cultural system

**A World Atlas of Translation** Yves Gambier, Ubaldo Stecconi, 2019-02-15 What do people think of translation in the different historical cultural and linguistic traditions of the world How many uses has translation been put to How distant from one another are the concepts of translation found in the different traditions These are some of the questions A World Atlas of Translation addresses Its twenty one reports give us pictures taken from the inside both from traditions that are well represented in the literature and from the many that for now are not But the Atlas is not content with documenting no map is this innocent In fact the wealth of information collected and made accessible by its reporters can be useful to gauge the dispersion of translation concepts across traditions As you read its reports the Atlas will keep asking How far apart do these concepts look to you Finally and more ambitiously the reports can help us test the hypothesis that a cross cultural notion of translation exists In this respect the Atlas is mostly a proof of concept It hopes to encourage further fact based research in quest of a robust and compelling unifying notion of translation

**Tonga** Martin Daly, 2009-02-04 Praise for the first edition Tonga is unique among bibliographies in its perception and understanding and in its affection for Tonga and its people Daly's work stands on exceptionally sound foundations His summaries are excellent indeed but Daly writes always with the authority of first hand knowledge with a keen eye for the essential and the ability to interpret and clarify obscurities A trustworthy introduction to Tonga in all its diversity a splendid point de d part for all layman or scholar needing a reliable guide to the essential literature about this remarkable Polynesian kingdom Bulletin of the School of Oriental and African Studies The book is so arranged that it is easy to locate any of the items listed I found myself spending pleasant hours perusing Daly's comments on the different publications I hope the rumor of a second revised edition of this bibliography is

true Journal of the Polynesian Society Tonga is a fascinating and subtle combination of a traditional Polynesian kingdom the only one to survive the impact of colonization in the nineteenth century and remain independent and a thoroughly Christian country This comprehensive bibliography is a selective guide to the most significant and accessible English language books papers and articles on every aspect of the kingdom s history culture arts politics environment and economy It is a much updated and expanded edition of the original version that was published in 1999 as part of the World Bibliographical Series with the addition of more than 200 new entries Each of the approximately 600 described and annotated items is organized under broad subject headings and indexed by author title and subject In addition and new to this edition all known Ph D theses although not annotated are shown within their appropriate subject categories and indexed Also new is a section on the most important Tonga related websites A general introduction describes the Tongan kingdom its history and society and its current situation Tonga A New Bibliography will be an invaluable resource for anyone with a serious interest in Tonga and an indispensable volume for academic libraries reference collections and policy makers focused on the Pacific islands
