The United States and Private Military Companies* Deborah C. Kidwell, 2011-03-25 The United States has long utilized private military contractors to augment regular military forces in support of its national foreign policy and security needs Commonly referred to as Private Military Companies PMCs contractors employ and manage civilian personnel from the private sector in areas of active military operations Frequently regular troops become dependent on the services contractors provide a situation that may negatively impact military effectiveness Since 1991 contractor support on and off the battlefield has become increasingly more visible varied and commonplace Given the current manpower and resource limitations of the national military the US will likely continue its extensive use of PMCs in support of military operations This work addresses historical precedents and trends in American logistics the current scope of contractor involvement in support of regular military forces and the challenges posed as traditional military institutions integrate increasing numbers of civilian workers and privately owned assets into the battlespace These problems increase the risk to US personnel and can induce budget overruns rather than savings disrupt civil military relations and have detrimental consequences for the American economy and society The work concludes by proposing a useful rubric to evaluate this new American way of war This work considers PMCs and their interdependence with regular and reserve military units in a broad sense It derives from unclassified material widely available understandably these sources limit the analysis Lessons learned from the Operation IRAQI FREEDOM OIF and Operation ENDURING FREEDOM OEF theaters may alter findings However this study endeavors to frame the continuing dialog concerning the appropriate use of PMCs to support regular troops Abstract from DTIC web site **The Logistics of Waging War** Air Force Logistics Management Center, 1996 *Army History*, 2016 Velocity Management in Logistics and Distribution Joseph L Walden, 2005-07-11 Conducting business as usual is out of step with today's rapid fire global economy Velocity Management in Logistics and Distribution Lessons from the Military to Secure the Speed of Business alerts commerce to the new reality that it must be more flexible and responsive in managing the unpredictability of its environment particularly when it **Publications of the U.S. Army Center of Military History** Center of Military History, 1984
