Singapore Changes Guard:

Managing Political Change in Singapore Lam Peng Er, Kevin Tan, 2013-09-13 The Singapore parliament's creation of an elected presidency in 1991 was the biggest constitutional and political change in Singapore's modern era. This multi-disciplinary study gathers papers from leading scholars in law, history, political science, and economics to examine how political change is managed in Singapore. It is an authoritative addition to debates surrounding the management of political change in developing countries more generally.

Singapore's Foreign Policy Amitav Acharya, 2008 The conventional understanding of Singapore's foreign policy can be summarized in three main propositions: first, it is dictated by the imperatives of being a small state; second, its primary purpose is to ensure Singapore's survival given its small size; and third, this logic of survival dictates a realpolitik approach to foreign policy and national security. This book argues that an exclusively realist view of Singapore's foreign policy is inadequate. Singapore's foreign policy is also shaped by the positive effects of economic interdependence and regional institution building. OCo instruments that realists tend to dismiss but which Singapore has self-consciously tried to promote as instruments of regional order. The book first looks at the evolution of Singapore's foreign policy before analyzing Singapore's international relations and national security in the context of economic growth and terrorism. It concludes with an interesting chapter on the impact of the rise of China and India on the regional landscape.

A collection of valuable previously published essays analyzing the major social dynamics shaping the increasingly complex society, economy, and polity of contemporary Singapore. Politics in Southeast Asia William Case, 2013-09-13 This volume provides an introduction to the politics of the five key Southeast Asian states: Malaysia, Singapore, Indonesia, Thailand, and the Philippines, and is intended as a textbook for undergraduate and graduate students taking courses on this subject. Using a comparative politics and political economy perspective, the author focuses in particular on the degree of democracy in the five countries, arguing that in all the countries considered, democracy is to varying degrees imperfect. The book synthesises a wide range of scholarship and presents the material in a concise and accessible way.

Explaining the Economic Success of Singapore Johnny Sung, 2006-01-01

serious useful and interesting volume It is readable original creative and well researched In analyzing Singapore s experience the author provides a superb case study Moreover in providing it by venturing beyond the narrow confines of his case study Sung also makes points that are pertinent to the efficacy of development processes generally including in newer lower income and or transitional economies this reviewer recommends the book enthusiastically and without reservation

Robert L Curry Jr Journal of Asian Business A Mandarin and the Making of Public Policy Tong Dow Ngiam,2006

Singapore s success story has increasingly been recognised but few have told it from the perspective of an insider As a senior civil servant and mandarin from 1959 to 1999 Ngiam Tong Dow served with the founding generation of political leaders and contributed to the country s economic growth In this book he reflects on these experiences sharing personal anecdotes and perceptive insights of Singapore s early decades He also boldly questions some of the policies of government and emerging trends in the country to suggest how Singapore must change to survive and thrive in the future *The Struggle over*

Realism and Interdependence in Singapore's Foreign Policy Narayanan Ganesan,2005-10-18 Singapore s existence and success derive in part from its achievements in the domestic political arena and in part from the skilful management of a well defined foreign policy with clearly identifiable goals and issues A visible core of realist self reliance is layered with the demands of a competitive trading state that requires a liberal international trading regime Hence both competitive and cooperative philosophies support Singapore s foreign policy This text charts the philosophical underpinning of Singapore s foreign policy output and the institutions responsible for it and examines the importance of economic and defence diplomacy that are central to Singapore s foreign policy output It gives particular attention to the two most important regional bilateral relationships with Indonesia and Malaysia and how relations with its adjacent neighbours have influenced Singapore s foreign policy Combining first hand research with excellent analysis this volume provides a much needed report on the survival of a small state in the globalizing world **Governing Global-City Singapore** Kenneth Paul Tan,2016-12-19 This

book provides a detailed analysis of how governance in Singapore has evolved since independence to become what it is today and what its prospects might be in a post Lee Kuan Yew future Firstly it discusses the question of political leadership electoral dominance and legislative monopoly in Singapore s one party dominant system and the system s durability Secondly it tracks developments in Singapore s public administration critically analysing the formation and transformation of meritocracy and pragmatism two key components of the state ideology Thirdly it discusses developments within civil society focusing in particular on issues related to patriarchy and feminism hetero normativity and gay activism immigration and migrant worker exploitation and the contest over history and national narratives in academia the media and the arts Fourthly it discusses the PAP government s efforts to connect with the public including its national public engagement exercises that can be interpreted as a subtler approach to social and political control In increasingly complex conditions the state struggles

to maintain its hegemony while securing a pre eminent position in the global economic order Tan demonstrates how trends in these four areas converge in ways that signal plausible futures for a post LKY Singapore Parliaments in Asia Zheng Yongnian, Lye Liang Fook, Wilhelm Hofmeister, 2013-10-23 Much writing on politics in Asia revolves around the themes of democracy and democratisation with a particular focus on political systems and political parties This book on the other hand examines the role that parliaments a key institution of democracy play in East Southeast and South Asia including Taiwan and Hong Kong Parliaments in these locations function in a variety of historical political and socio economic circumstances with different implications for institution building and political development This book examines questions like how accessible representative transparent accountable and effective are parliaments To what extent are parliaments able to hold other political actors to account or how far are they constrained by the political environment in which they operate Going further this book considers how new media such as the Internet and other social platforms through providing avenues for individuals to articulate their views separate from official channels are influencing the ways parliaments work To stay relevant parliamentarians need to reach out and engage these individuals in formulating deciding and fine tuning policies In the information age being a parliamentarian has become more challenging and how a parliamentarian copes with this change will shape the nature and pace of political development
