Single Obsession:

Obsession Lennard J. Davis, 2009-05-15 We live in an age of obsession Not only are we hopelessly devoted to our work strangely addicted to our favorite television shows and desperately impassioned about our cars we admire obsession in others we demand that lovers be infatuated with one another in films we respond to the passion of single minded musicians we cheer on driven athletes To be obsessive is to be American to be obsessive is to be modern But obsession is not only a phenomenon of modern existence it is a medical category both a pathology and a goal Behind this paradox lies a fascinating history which Lennard J Davis tells in Obsession Beginning with the roots of the disease in demonic possession and its secular successors Davis traces the evolution of obsessive behavior from a social and religious fact of life into a medical and psychiatric problem From obsessive aspects of professional specialization to obsessive compulsive disorder and nymphomania no variety of obsession eludes Davis's graceful analysis **The Men and the Sane** Embaye

Melekin, 2015-10-07 This book is highly enlightening and would be criticized by many I write from the inspiration of God and many of my stories are just my own perceptions as envisioned to me by the Lord Many will ponder critically after reading this book and will learn somethings they had not anticipated The history of the Jews is something all Christians should know about The true Israelites are the white and black races and not necessarily the Jews of today The end time prophecies have been fulfilled now and all the authentic Israelites whites and blacks will be gathered from the four corners of the earth and know their true identities The history of Adolph Hitler is told in full length Other contents of the book also delve into scientific perceptions and some experiences of humanity in different parts of the world with some biblical and historical narrations of different topics Overall the reader will learn a few subjects that have never been delved into before that would trigger the minds of every soul of whatever persuasion and race Extremism Quassim Cassam, 2021-09-01

Extremism is one of the most charged and controversial issues of the twenty first century Despite myriad programs of deradicalization and prevention around the world it remains an intractable and poorly understood problem Yet it is also sometimes regarded as a positive force according to Martin Luther King Jr the question is not whether we will be extremists but what kind of extremists we will be In this much needed and lucid book Quassim Cassam identifies three types of extremism ideological methods and psychological extremism and discusses the following fundamental topics and issues What is extremism What are the methods adopted by extremists Is there an extremist mindset and if so what is it What role do ideas of purity victimhood and humiliation play in understanding extremism How does extremism differ from fanaticism and fundamentalism How does one become an extremist and how should we understand deradicalization Throughout the book Quassim Cassam uses many compelling examples ranging from the Khmer Rouge the IRA Al Qaeda and Timothy McVeigh to Philip Roth's novel American Pastoral and counter extremism programmes including the UK's Prevent strategy Clear headed and engaging Extremism A Philosophical Analysis is essential reading for anyone interested in this important topic not only in Philosophy but related

disciplines such as Politics and International Relations Conflict and Terrorism Studies Law Education and Religion It will also be of great interest to policy makers and those engaged in understanding extremism at any level **A Trauma Artist** Mark

A. Heberle,2001-04 Based on recent conversations with Tim O'Brien previously published interviews and new readings of all his works including *Tomcat in Love* this book is the first study to concentrate on the role and representation of trauma as the central focus of all O'Brien's works Book jacket *Latinization of America* Eliot Tiegel,2007-10-01 *Latinization of America* provides a contemporary overview of the Hispanic population's cultural impact in the United States The author explores the growth of this community in show business at large as well as in the Spanish speaking entertainment industry Focusing on music television film theater and sports while also considering economic and political factors the author tracks developments over the first decade of the 21st century Encompassing the various groups of immigrants who create new vistas of opportunity for both Spanish speaking and mainstream entrepreneurs this volume highlights the crossover and integration of Hispanics into competitive mainstream show business and the rush by Anglo companies to grab their piece of the Latin pie

Tristes Tropiques Claude Levi-Strauss,2012-01-31 A magical masterpiece Robert Ardrey A chronicle of the author's search for a civilization reduced to its most basic expression *The Immortal Comedy* Agnes Heller,2005-10-17 *Immortal Comedy* is the first book to think philosophically about the comic phenomenon in general Although author Agnes Heller had written a book that is both deeply scholarly and meditative on the subject of the comic form in film literature and life her writing is eminently approachable In both its subject and style *Immortal Comedy* is a seminal book In it Heller takes us on a journey through theories of comedy beginning with classical thought She then detours through foundational political thinkers who refer to for instance laughter and power We are also introduced to modern systematic approaches to thinking comedy psychological approaches and existential approaches The discerning combination of Heller's individual taste for the pantheon of comedic work and also what critics may consider less significant work gives this book a character apart from all others It is the detail with which Heller makes her discussion how and where she locates the comic and probably most significantly her discussion of comedy and our own lives that makes *Immortal Comedy* a principal book for the entire range of humanities scholars and enthusiasts **James Ellroy** Steven Powell,2016-01-26 James Ellroy *Demon Dog of Crime Fiction* is a study of all of Ellroy's key works from his debut novel *Brown's Requiem* to the epic *Underworld USA* trilogy This book traces the development of Ellroy's writing style and the importance of his *Demon Dog* persona to carving out his unique place in American crime fiction
