Janet Greenlees, Linda Bryder

Single Mothers And Their Children Disposal Punishment And Survival In Australia:

Single Mothers and Their Children Shurlee Swain, Renate Howe, 1995-12-11 This 1996 book is a comprehensive history of single motherhood in Australia. Shurlee Swain and Renate Howe tell the powerful if painful and often moving story of these women and their children and the lives they constructed. Starting in the 1850s when abandonment and infanticide were not uncommon, the book's main focus ends in 1975 when the legal status of illegitimacy was abolished. The book covers issues of baby farming, infanticide, abortion, sex education, birth control, adoption, and marriage, in effect becoming a history of sexual practice in Australia. While tracing profound changes from a time when single mothers were locked in gaol for discarding their babies to the establishment of state benefits, the authors find a good deal of continuity over the period. This book makes an important contribution to social welfare and women's history in Australia.

Western Maternity and Medicine, 1880-1990 Janet Greenlees, Linda Bryder, 2015-10-06 The contributors to this collection look into the experiences of women in the Western world going through pregnancy and birth over the last hundred years.

Working with Vulnerable Families Fiona Arney, Dorothy Scott, 2013-09-09 Poverty, domestic violence, marginalisation, drug and alcohol dependence are just some of the issues faced by many Australian families. Now in its second edition, Working with Vulnerable Families provides a comprehensive and evidence-based introduction to family-centred practice in Australia. It explores the ways in which health, education, and social welfare professionals can support and protect children and their families. Fully revised and updated with eight new chapters, the book examines recent research and programs on relationship-based family support, harnessing resilience, and working with Aboriginal and Torres Strait Islander families. It encourages readers to think child, think family, think community in order to promote the development, wellbeing, and safety of young children and future generations. Each chapter features learning goals, local case studies, and reflective questions to help reinforce and extend the reader's understanding. Written by a diverse team of experts, this is an indispensable resource for students and practitioners alike.

The Market In Babies Marian Quartly, Shurlee Swain, Denise Cuthbert, 2013-11-01 The Market in Babies tells the history of adoption in Australia from its beginnings in the nineteenth century to its decline at the beginning of the twenty-first. The authors find that a market in babies has long existed. In the early years, supply outstripped demand; needy babies were hard to place. Mid-twentieth-century supply and demand grew together with adoption presented as the perfect solution to two social problems: infertility and illegitimacy. Supply declined in the 1970s and demand turned to new global markets. Now these markets are closing, but technology provides new opportunities and Australians are acquiring babies through the surrogacy markets of India and the United States. As the rate of adoptions in Australia falls to an historic low and parliaments across the country are apologising to parents and adoptees for the pain caused by past practices, this book identifies an historical continuum between the past and the present and challenges the view that the best interests of the child can ever be protected in an environment where the market in babies is allowed to flourish. The authors

of The Market in Babies are long established scholars expert in the history of the family welfare history and the making of public policy in Australia Diversity in Family Life Elisabetta Ruspini,2014-12-03 As the variety and number of nontraditional families grow so does the need for new models of family and parenthood Diversity in Family Life discusses the relationship between shifting gender identities and the processes of family formation examining non traditional family structures including asexual couples child free couples living apart together couples single parents and homosexual and transsexual parents Calling for bold reformulations it argues that it is possible to live love and form a family in an astounding variety of ways *Feminism and the Making of a Child Rights Revolution* Isobelle Barrett Meyering,2022-02-01 When Australian women s liberationists challenged prevailing expectations of female domesticity they were accused of being anti mother and anti child Feminism and the Making of a Child Rights Revolution provides a much needed reassessment of this stereotype Drawing on extensive archival research and personal accounts it places feminists at the forefront of a new wave of children s rights activism that went beyond calls for basic protections for children instead demanding their liberation Historian Isobelle Barrett Meyering revisits this revolutionary approach and charts the debates it sparked within the women s movement Her examination of feminists ground breaking campaigns on major social issues of the 1970s from childcare to sex education to family violence also reveals women s concerted efforts to apply this ideal in their personal lives and to support children s own activism Feminism and the Making of a Child Rights Revolution sheds light on the movement s expansive vision for social change and its lasting impact on the way we view the rights of women and children **Feminist Perspectives on Young Mothers and Young Mothering** Joanne Minaker,2019-08-01 To be a young mother is almost by definition to be considered an unfit mother Thus it is not surprising that young Canadian U S and Australian mothers are often scorned stigmatized and monitored This is a book about being young being a mother and grappling with what it means to inhabit these two complex social positions This book critiques the dominant negative construction of young motherhood Contributors reject the notion that the ideal mother is a 30ish white middle class able bodied married heterosexual woman situated in a nuclear family This collection privileges the insights and stories of a diverse array of young mothers such as a young mother coerced into giving her child up for a adoption a young queer mother who has been parenting a child borne by her trans partner and who is now pregnant herself and many more The tales analyzed and recounted in the collection record experiences of pain and joy frustration and success struggle and resistance oppression and empowerment We invite readers to hear the all too often silenced stories of young mothers to learn what prevents and what allows these mothers to lead lives of grit determination authenticity and agency as they strive to lovingly care for themselves their children and in many cases other young mothers *Children's Voices from the Past* Kristine Moruzi,Nell Musgrove,Carla Pascoe Leahy,2019-04-23 This book explores a central methodological issue at the heart of studies of the histories of children and childhood It questions how we understand the perspectives of children in the past and not just those of the adults who often defined and

constrained the parameters of youthful lives Drawing on a range of different sources including institutional records interviews artwork diaries letters memoirs and objects this interdisciplinary volume uncovers the voices of historical children and discusses the challenges of situating these voices and interpreting juvenile agency and desire Divided into four sections the book considers children s voices in different types of historical records examining children s letters and correspondence as well as multimedia texts such as film advertising and art along with oral histories and institutional archives

Progressive New World Marilyn Lake, 2019-01-07 In a bold argument Marilyn Lake shows that race and reform were mutually supportive as Progressivism became the political logic of settler colonialism at the turn of the 20th century She points to exchanges between American and Australasian reformers who shared racial sensibilities along with a commitment to forging an ideal social order After the Orphanage Suellen Murray, 2009 While there is much literature on the experience of growing up in an orphanage very few books examine life after institutional care After the Orphanage is the first book to address how care leavers adjust to life in the outside world
