Kidder, 2003 In our world today many single and celibate people find themselves isolated on all sides In the secular culture with its glorification of sexual behavior celibacy is seen as restrictive a denial of one's deepest nature In religious circles for anyone but Roman Catholic priests being single is often seen as a temporary and unfortunate stage in life something to be stoically endured until marriage But in fact millions of people in the pews of Protestant Episcopal and Catholic churches every week are living a single life and many are happy to stay that way Whether widowed never married or divorced many believers understand their single lives not as a passing moment but as a celebratory way of life rich in its own benefits and rewards In this book Annemarie Kidder offers the theological basis for what so many Christians experience in their own lives By examining the Hebrew and Christian scriptures early church writings from the East and West and later commentators she develops a theology of the single life applicable to both women and men Protestant Episcopal and Catholic
