Singular Dedications Founders And Innovators Of Private Cults In Classical Greece:

Singular Dedications Andrea Purvis, 2004-06-01 Often ignored in studies of Classical Greek religion private cults were widespread in the Hellenistic world Although worshippers in Classical Greece were normally involved in group and civic worship there is evidence that they could also act outside of these constraints expressing their piety through the financing and administration of cults they established on their own Singular Dedications is the first comprehensive study of this phenomenon examining three case studies that represent the diversity and complexity that characterize ancient Greek religion in the Classical period

Public and Private in Ancient Mediterranean Law and Religion Clifford Ando, Jörg Rüpke, 2015-03-10 The public private distinction is fundamental to modern theories of the family religion and religious freedom and state power yet it has had different salience and been understood differently from place to place and time to time The volume brings together essays from an international array of experts in law and religion in order to examine the public private distinction in comparative perspective The essays focus on the cultures and religions of the ancient Mediterranean in the formative periods of Greece and Rome and the religions of Judaism Christianity and Islam Particular attention is given to the private exercise of religion the relation between public norms and private life and the division between public and private space and the place of religion therein

The Oxford Handbook of Ancient Greek Religion Esther Eidinow, Julia Kindt, 2015 This handbook offers both students and teachers of ancient Greek religion a comprehensive overview of the current state of scholarship in the subject from the Archaic to the Hellenistic periods It not only presents key information but also explores the ways in which such information is gathered and the different approaches that have shaped the area In doing so the volume provides a crucial research and orientation tool for students of the ancient world and also makes a vital contribution to the key debates surrounding the conceptualization of ancient Greek religion The handbook's initial chapters lay out the key dimensions of ancient Greek religion approaches to evidence and the representations of myths The following chapters discuss the continuities and differences between religious practices in different cultures including Egypt the Near East the Black Sea and Bactria and India The range of contributions emphasizes the diversity of relationships between mortals and the supernatural in all their manifestations across between and beyond ancient Greek cultures and draws attention to religious activities as dynamic highlighting how they changed over time place and context

Space, Place, and Landscape in Ancient Greek Literature and Culture Kate Gilhuly, Nancy Worman, 2014-09-22 This book brings together a collection of original essays that engage with cultural geography and landscape studies to produce new ways of understanding place space and landscape in Greek literature from the fifth and fourth centuries BCE The authors draw on an eclectic collection of contemporary approaches to bring the study of ancient Greek literature into dialogue with the burgeoning discussion of

spatial theory in the humanities The essays in this volume treat a variety of textual spaces from the intimate to the expansive the bedroom ritual space the law courts theatrical space the poetics of the city and the landscape of war And yet all of the contributions are united by an interest in recuperating some of the many ways in which the ancient Greeks in the archaic and classical periods invested places with meaning and in how the representation of place links texts to social practices

Pilgrimage and Economy in the Ancient Mediterranean Anna Collar, Troels Myrup Kristensen, 2020-07-13 In Pilgrimage and Economy in the Ancient Mediterranean Anna Collar and Troels Myrup Kristensen bring together diverse scholarship to explore the socioeconomic dynamics of ancient Mediterranean pilgrimage from archaic Greece to Late Antiquity the Greek mainland to Egypt and the Near East This broad chronological and geographical canvas demonstrates how our modern concepts of religion and economy were entangled in the ancient world By taking material culture as a starting point the volume examines the ways that landscapes architecture and objects shaped the pilgrim's experiences and the manifold ways in which economy belief and ritual behaviour intertwined specifically through the processes and practices that were part of ancient Mediterranean pilgrimage over the course of more than 1 500 years

Comedy and Religion in Classical Athens Francisco Barrenechea, 2018-08-02 This book opens up a new perspective on Aristophanic drama and its relationship to Greek religion It focuses on the comedy *Wealth* whose fantasy of universal enrichment is structured upon a rich and largely unexplored framework of traditional stories of Greek religious experiences such as oracles miracle cures and the introduction of new gods The book examines the form and function of these stories and explores how the playwright adapts them for his own comic purposes grounding his comic fantasy on stories of philanthropic divinities who dependably respond to the needs of their worshippers The collaboration of these deities who act in tandem with their worshippers achieves the comic fantasy Francisco Barrenechea also addresses the larger question of how comedy participated in the religion of its time by imagining and dramatizing beliefs and reveals the salutary bond that can exist between humor and religion in general

A Companion to Greek Religion Daniel Ogden, 2008-04-15 This major addition to Blackwell's Companions to the Ancient World series covers all aspects of religion in the ancient Greek world from the archaic through the classical and into the Hellenistic period Written by a panel of international experts Focuses on religious life as it was experienced by Greek men and women at different times and in different places Features major sections on local religious systems sacred spaces and ritual and the divine
