Singular Life:

Politics of the One Artemy Magun, 2012-11-08 This volume in the Political Theory and Contemporary Philosophy series examines one of the most important topics in contemporary political theory how to conceptualize the relationship between the one and the many The essays discuss how to reconcile multiple ontologies without subsuming them to a totalitarian unity While one school of thought Deleuze Negri seeks to create a new ontology based on the many instead of the one which politically is close to anarchy another proposes to understand the one as the ultra one of the event Badiou In this groundbreaking work leading thinkers explore these debates and offer alternative concepts Building on Jean Luc Nancy's essay who proposes an ontology of singular plurality contributors aim to synthesize the one and the many and suggest different ways of forming collectives beyond the dominant representative political forms An original and challenging work Politics of the One addresses new possible ways of bringing people together integrating philosophy with theoretical and practical problems of politics

Out of This World Peter Hallward, 2020-05-05 Gilles Deleuze was one of the most influential French philosophers of the last century This book aims to make sense of his fundamental project in the clearest possible terms by engaging with the central idea that informs virtually all of his work the equation of being and creativity It explores the various ways in which in order to affirm an unlimited creative power Deleuze proceeds to dissolve whatever might restrict or mediate its expression including the organisms objects representations identities and relations that this power generates along the way Rather than a theorist of material complexity or relational difference Out of this World argues that Deleuze is better read as a spiritual and extra worldly philosopher His philosophy leaves little room for processes of social or historical transformation and still less for political relations of conflict or solidarity Michel Foucault famously suggested that the 20th century would be known as Deleuzian this sympathetic but uncompromising new critique suggests that our Deleuzian century may soon be coming to a close

Mary Shelley L. Adam Meckler, Lucy Morrison, 2010-01-08 This collection of essays expands critical consideration of Mary Shelley's placement within the age we call Romantic wherein her texts converse with those of her family her circle and her contemporaries Several essays address particularly how her texts interact with those of her husband Percy Bysshe Shelley revealing new depth and breadth to their literary partnership Others investigate interdisciplinary perspectives such as her pieces in The Liberal or the ways in which the figure of Scheherezade haunts her works while several essays also consider Mary Shelley's textual relationships with contemporaries such as Thomas Moore and John Polidori Still others tackle topics such as geopolitical relationships and the growth of opera as an art form considering Mary Shelley's commentary upon such contemporary issues while William Godwin's textual relationship with his daughter is further investigated This collection suggests Mary Shelley's texts merit further investigation not only for what they reveal about their author and her oeuvre but for the ways in which they illuminate our understanding of the contexts in which they were composed

of five notable New Zealand women this uncommon examination portrays the lives of Merimeri Penfold Margaret Mahy Anne Salmond Gaylene Preston and Jacqueline Fahey Having each carved out their own distinguished reputations as artists writers teachers filmmakers and thinkers this investigation demonstrates how each of them has balanced a professional life with a personal one In five in depth interviews this record explores their families education the impact intimate relationships have on their creativity and how each juggles life s demands Reflecting on immense changes in society throughout their lifetimes this biographical account illustrates the second half of the 20th century capturing how it directly affected the women s professional and personal lives Touching on major events and challenges this study also depicts the Land March in 1975 the rise of feminism and the genesis of Indigenous rights movements With five stunning new photographic portraits by renowned photographer Marti Friedlander this is a striking example of how those who grappled with sexism glass ceilings and domestic expectation still found the balance to lead fruitful public lives in the arts and academia

Fictionalizing Anthropology

Stuart J. McLean, 2017-11-22 What might become of anthropology if it were to suspend its sometime claims to be a social science What if it were to turn instead to exploring its affinities with art and literature as a mode of engaged creative practice carried forward in a world heterogeneously composed of humans and other than humans Stuart McLean claims that anthropology stands to learn most from art and literature not as evidence to support explanations based on an appeal to social context or history but as modes of engagement with the materiality of expressive media including language that always retain the capacity to disrupt or exceed the human projects enacted through them At once comparative in scope and ethnographically informed Fictionalizing Anthropology draws on an eclectic range of sources including ancient Mesopotamian myth Norse saga literature Hesiod Lucretius Joyce Artaud and Lispector as well as film multimedia and performance art along with the concept of fabulation the making of fictions capable of intervening in and transforming reality developed in the writings of Bergson and Deleuze Sharing with proponents of anthropology s recent ontological turn McLean insists that experiments with language and form are a performative means of exploring alternative possibilities of collective existence new ways of being human and other than human and that such experiments must therefore be indispensable to anthropology s engagement with the contemporary world

landmark in Ondaatje scholarship makes a distinctive contribution to debates about postcolonial literature and the poetics of postmodernism The Chautauquan ,1903 *Deleuze's Literary Clinic* Aidan Tynan,2012-05-15 The first book length study of Deleuze s critical and clinical project and the conceptualisations of health and illness he developed over the course of his career *Deleuzian Concepts* Paul Patton,2010-05-19 Patton s book is an important and innovative contribution to Deleuze studies and to contemporary debates in philosophy and the humanities His arguments are convincing and stimulating they open the way for a new and sober reading of Deleuze and bring him into dialogue with the tradition of political liberalism and pragmatism His use of the concept of the event to understand the history of colonization gives the reader a compelling example of what the political function of philosophy is or could be Paola Marrati The Johns Hopkins University Book Jacket
