Indigenous Knowledge Production Marcus Woolombi Waters, 2018-05-16 Despite many scholars noting the interdisciplinary approach of Aboriginal knowledge production as a methodology within a broad range of subjects including quantum mathematics biodiversity sociology and the humanities the academic study of Indigenous knowledge and people is struggling to become interdisciplinary in its approach and move beyond its current label of Indigenous Studies Indigenous Knowledge Production specifically demonstrates the use of autobiographical ethnicity as a methodological approach where the writer draws on lived experience and ethnic background towards creative and academic writing Indeed in this insightful volume Marcus Woolombi Waters investigates the historical connection and continuity that have led to the present state of hostility witnessed in race relations around the world seeking to further one's understanding of the motives and methods that have led to a rise in white supremacy associated with ultra conservatism Above all Indigenous Knowledge Production aims to deconstruct the cultural lens applied within the West which denies the true reflection of Aboriginal and Black consciousness and leads to the open hostility witnessed across the world This monograph will appeal to undergraduate and postgraduate students as well as postdoctoral researchers interested in fields such as Sociology of Knowledge Anthropology Cultural Studies Ethnography and Methodology

Hays, 2011 Death is one of the major themes of First Isaiah although it has not generally been recognized as such Images of death are repeatedly used by the prophet and his earliest tradents The book begins by concisely summarizing what is known about death in the Ancient Near East during the Iron Age II covering beliefs and practices in Mesopotamia Egypt Syria Palestine and Judah Israel Incorporating both textual and archeological data Christopher B Hays surveys and analyzes existing scholarly literature on these topics from multiple fields Focusing on the text s meaning for its producers and its initial audiences he describes the ways in which the rhetoric of death functioned in its historical context and offers fresh interpretations of more than a dozen passages in Isa 5 38 He shows how they employ the imagery of death that was part of their cultural contexts and also identifies ways in which they break new creative ground This holistic approach to questions that have attracted much scholarly attention in recent decades produces new insights not only for the interpretation of specific biblical passages but also for the formation of the book of Isaiah and for the history of ancient Near Eastern religions *Minnesota Library Books for High Schools* Minnesota.
