**The Microeconomic Structure of the Australian Economy** Peter J. Brain,1986      *Australia's Economy in Its International Context, Volume 2: 1956-2012* Kym Anderson,2012 This two volume collection brings together the first 56 Joseph Fisher Lectures in economics and commerce presented at the Adelaide University every other year since 1904 Funds for the Lectures together with a medal for the top accounting student each year were kindly provided by a 1 000 endowment to the University by the prominent Adelaide businessman Joseph Fisher in 1903 The Lectures address a wide range of Australian economic issues in addition to some international economic issues of national significance They have stood the test of time extremely well while also providing a reminder of the events and concerns that were prominent at different times during the past century      *The Deterioration in Economic Performance* W. E. Norton,1982 Comparison of declining economic growth trends in the 1970s in developed countries and Australia examines global and national level economic conditions from 1960 including foreign exchange reserves inflation money supply petroleum price increases Terms of Trade gross domestic product profitability balance of payments public finance labour disputes employment unemployment wages etc outlines economic policy implications Bibliography graphs and references      *Macroeconomic Analysis and Stabilization Policy* Stephen J. Turnovsky,1977-08-04 The main focus of this book is the construction and analysis of an integrated macroeconomic model      **Australia in the Global Economy** Barrie Dyster,David Meredith,2012-09-13 Explores the evolution of Australia s position in the global economy from the start of the twentieth century through to today      *The British National Bibliography* Arthur James Wells,1968      **Studies in Australian Political Rhetoric** John Uhr,Ryan Walter,2014-09-01 This edited collection includes eleven major case studies and one general review of rhetorical contest in Australian politics The volume showcases the variety of methods available for studying political speech including historical theoretical institutional and linguistic analyses and demonstrates the centrality of language use to democratic politics The chapters reveal errors in rhetorical strategy the multiple and unstable standards for public speech in Australia and the links between rhetoric and action The length of Australian political speech is traversed from pre Federation to the Gillard minority government 2010 13 and the topics similarly range from Alfred Deakin s nation building to Kevin Rudd s Apology to the

Stolen Generations This fresh collection is intended to stimulate and advance the study of political rhetoric in Australia **A History of Australian Economic Thought (Routledge Revivals)** Peter Groenewegen, Bruce McFarlane, 2014-06-03 First published in 1990 this book presents an original and comprehensive overview of Australian economic thought The authors stress by way of introduction the many important innovative contributions Australian economists have made to thought worldwide As the argument develops the work of major figures is discussed in detail in addition to the role of different journals and economic societies Macroeconomics and the Phillips Curve Myth James Forder, 2014 This book reconsiders the role of the Phillips curve in macroeconomic analysis in the first twenty years following the famous work by A W H Phillips after whom it is named It argues that the story conventionally told is entirely misleading In that story Phillips made a great breakthrough but his work led to a view that inflationary policy could be used systematically to maintain low unemployment and that it was only after the work of Milton Friedman and Edmund Phelps about a decade after Phillips that this view was rejected On the contrary a detailed analysis of the literature of the times shows that the idea of a negative relation between wage change and unemployment supposedly Phillips discovery was commonplace in the 1950s as were the arguments attributed to Friedman and Phelps by the conventional story And perhaps most importantly there is scarcely any sign of the idea of the inflation unemployment tradeoff promoting inflationary policy either in the theoretical literature or in actual policymaking The book demonstrates and identifies a number of main strands of the actual thinking of the 1950s 1960s and 1970s on the question of the determination of inflation and its relation to other variables The result is not only a rejection of the Phillips curve story as it has been told and a reassessment of the understanding of the economists of those years of macroeconomics but also the construction of an alternative and historically more authentic account of the economic theory of those times A notable outcome is that the economic theory of the time was not nearly so naive as it has been portrayed 50 Years a Keynesian and Other Essays G. Harcourt, 2001-02-05 The author reviews retrospectively his developing ideas on theory and policy since he first encountered Keynes s writings in 1950 Topics covered include Keynes now specifically the coming back into favour of his most fundamental ideas intellectual biographies and shorter tributes to economists and a survey of Post Keynesian thought **Australia in the Global Economy** David Meredith, Barrie Dyster, 2000-01-17 This up to date volume considers Australian economic development in light of worldwide political and social developments arguing that the Australian economy is an integral part of the world economy and subject to the same trends across the globe The book also focuses on domestic factors that have shaped the growth of the Australian economy such as the growth of exports the role of foreign capital and the positive contribution of migrants The authors also consider the Gulf Wars the East Asian financial crisis and globalization
