## **Macrocosmic Conflict:**

**International Journal of Strategic Organization and Behavioural Science: Vol.1, No.2 , Qumran and the Origins of Johannine Language and Symbolism** Elizabeth W. Mburu,2010-06-18 This work sets out to demonstrate that the sectarian Qumran document The Rule of the Community provides linguistic clues which illuminate our understanding of how the author of the Fourth Gospel used truth terminology and expected it to be understood It establishes that there are significant linguistic similarities shared by these two corpora While these may be attributed to a development of the common tradition shared by both as well as the influence ideology the semantic continuity with the Rule of the Community makes it likely that the author of the Fourth Gospel was familiar with the mode of thought represented in the linguistic matrix of the Qumran literature and that he followed this in articulating his ideas in certain parts of his Gospel **Jesus, Gospel Tradition and Paul in the Context of Jewish and Greco-Roman Antiquity** David Edward Aune,2013 Collection of texts published previously **Lutheran Theology** Paul R. Hinlicky,2020-05-06 In this book Lutheran theologian Paul Hinlicky makes the deeply conflicted origins of Lutheran theology fruitful for the future Exploring this intellectual and spiritual tradition of thought through its major historical chapters Hinlicky rejects essentialist projects exposing the debilitating binaries such programs engender and perpetuate to establish an authentic Luther theology or Lutheran theology Hinlicky excavates the ways that throughout a five hundred year tradition the legacy of Luther texts has been appropriated retooled subverted or developed Readers of this introduction will thus be critically equipped to make intellectually honest appropriations of the Luther legacy in the plurality of contemporary contexts in which this iteration of Christian theology will continue **AfroSymbiocity as a Psychology of Conflict and Conflict Resolution in Africa** Ilongo Fritz Ngale,2018-11-07 This book highlights original and traditional African strategies for conflict resolution based on four Basotho cultural concepts namely Botho or unity of being Pula or universalism Khotso or communalism and Nala or humanism In doing so it provides the missing psychological and African cultural pieces in the puzzle of conflict and conflict resolution This paradigm AfroSymbiocity is Sub Saharan African in scope but will have universal relevance The book transcends theory by demonstrating the application of traditional African peace and conflict resolution strategies through considering a historical personage King Moshoeshoe who effectively used authentic African conflict resolution strategies to forge harmony in Southern Africa in the late nineteenth and early twentieth centuries The book represents a major contribution to research and literature in peace and conflict studies and will be vital for students researchers and professionals in peace studies national and international decision makers and bodies which strive for world peace **The Macrocosmic Conflict** David Bischoff,1986 Laura Shemzak and her crew of interstellar outlaws continue their solo crusade for justice against both sides of an intergalactic war **Neotestamentica Et Philonica** Peder Johan Borgen,David Edward Aune,Torrey Seland,Jarl Henning Ulrichsen,2003 Neotestamentica et Philonica is a collection of eighteen essays by an international group of scholars in honor

Marotta,2021-12-30 *Critical Pedagogy Race and Media* investigates how popular media offers the potential to radicalise what and how we teach for inclusivity Bringing together established scholars in the areas of race and pedagogy this collection offers a unique approach to critical pedagogy by analysing current and historical iterations of race onscreen The book forms theoretical and methodological bridges between the disciplinary fields of pedagogy equality studies and screen studies to explore how we might engage in and critique screen culture for teaching about race It employs Critical Race Theory and paradigmatic frameworks to address some of the social crises in Higher Education classrooms forging new understandings of how notions of race are buttressed by popular media The chapters draw on popular media as a tool to explore the social economic and cultural dimensions of racial injustice and are grouped by Black studies migration studies Indigenous studies Latinx studies and Asian studies Each chapter addresses diversity and the necessity for teaching to include visual media which is reflective of a myriad of students experiences Offering opportunities for using popular media to teach for inclusion in Higher Education this critical and timely book will be highly relevant for academics scholars and students across interdisciplinary fields such as pedagogy human geography sociology cultural studies media studies and equality studies      *Religious Polemics and Encounters in Late Antiquity* ,2021-10-18 *Religious Polemics and Encounters in Late Antiquity* Boundaries Conversions and Persuasion explores the intricate identity formation and negotiations of early encounters of the Abrahamic religions Judaism Christianity and Islam It explores the ever pressing challenges arising from polemical inter religious encounters by analyzing the dynamics of apologetic debate the negotiation and formation of boundaries of belonging and the argumentative thrust for persuasion and conversion as well as the outcomes of these various encounters including the articulation of novel ideas The Late Antique authors studied in the present volume represent a variety of voices from North Africa passing through Rome to

*Presocratic Reflexivity: The Construction of Philosophical Discourse C. 600-450 B.C.* Barry Sandywell, 2002-11 In this third volume of Logological Investigations Sandywell continues his sociological reconstruction of reflexive thought with reference to pre Socratic philosophy and science and their socio political context

*Correlations Between the Physical and Social Sciences* Valentine J. Belfiglio, 2011-11-23 This monograph presents four case studies that make correlations between the physical and social sciences The traditional empirical and postmodernist approaches to the study of the social sciences have left many scholars dissatisfied with the results of these methods The empiricists were on the right track but they did not go far enough It is important to anchor statistical data to mathematical formulae or the laws of physics in order to minimize the conscious or unconscious bias of some scholars who might otherwise manipulate data in support of preconceived notions Mathematical formulae and the laws of physics can take scholars further in deriving conclusions from sets of assumptions than can inferential statistics The use of inferential statistics in the social sciences is sufficiently regular that correlations from some mathematical formulae and physical laws prove valid

**Transgenerational Colonialism** Karel James Bouse, 2021-04-14 In Transgenerational Colonialism Karel James Bouse offers an alternative and holistic model for the analysis of colonialism and its effects on humanity Using the current anti colonialist struggle in Northern Ireland as a representative case study Bouse illustrates her theoretical model by tracing the onset of trauma to the eventual overcoming period evidenced by a cultural renaissance a reconstruction of collective positive identity and political self determination This book is recommended for students and scholars of psychology history political

science and cultural studies as well as those interested in the cyclical nature of colonial experience **Discerning Spirits**

Nancy Mandeville Caciola, 2015-09-25 Trance states prophesying convulsions fasting and other physical manifestations were often regarded as signs that a person was seized by spirits In a book that sets out the prehistory of the early modern European witch craze Nancy Caciola shows how medieval people decided whom to venerate as a saint infused with the spirit of God and whom to avoid as a demoniac possessed of an unclean spirit This process of discrimination known as the discernment of spirits was central to the religious culture of Western Europe between 1200 and 1500 Since the outward manifestations of benign and malign possession were indistinguishable a highly ambiguous set of bodily features and behaviors were carefully scrutinized by observers Attempts to make decisions about individuals who exhibited supernatural powers were complicated by the fact that the most intense exemplars of lay spirituality were women and the fragile sex was deemed especially vulnerable to the snares of the devil Assessments of women's spirit possessions often oscillated between divine and demonic interpretations Ultimately although a few late medieval women visionaries achieved the prestige of canonization many more were accused of possession by demons Caciola analyzes a broad array of sources from saints' lives to medical treatises exorcists' manuals to miracle accounts to find that observers came to rely on the discernment of bodies rather than seeking to distinguish between divine and demonic possession in purely spiritual terms **Popular Culture**

Marcel Danesi, 2012-08-17 Popular Culture Introductory Perspectives seeks to define pop culture by exploring the ways that it fulfills our human desire for meaning The second edition investigates current contexts for popular culture including the rise of the digital global village through new technology and offers up to date examples that connect with today's students

**Witches, Whores, and Sorcerers** S. K. Mendoza Forrest, 2011-12-01 Early Iranians believed evil had to have a source outside of God which led to the concept of an entity as powerful and utterly evil as God is potent and good These two forces good and evil which have always vied for superiority needed helpers in this struggle According to the Zoroastrians every entity had to take sides from the cosmic level to the microcosmic self One of the results of this battle was that certain humans were thought to side with evil Who were these allies of that great Evil Spirit Women were inordinately singled out Male healers were forbidden to deal with female health disorders because of the fear of the polluting power of feminine blood Female healers midwives and shamans were among those who were accused of collaborating with the Evil Spirit because they healed women Men who worked to prepare the dead were also suspected of secret evil Evil even showed up as animals such as frogs snakes and bugs of all sorts which scuttled to the command of their wicked masters This first comprehensive study of the concept of evil in early Iran uncovers details of the Iranian struggle against witchcraft sorcery and other evils beginning with their earliest texts **Messiah of the New Technique** Jonathan L. Chambers, 2006 *Macro-Mind Power*

Rebecca Clark, 2023-12-07 Is there one fantastic Primal Power in the universe whose force can be harnessed and utilized to guide you to ultimate freedom and all the joys of triumphant living The answer is an unqualified Yes And it's called Macro

Mind power Ancient philosophers always thought of man as a counterpart of the universe and expressed the idea of man's relationship to the universe by the use of two related words microcosm and macrocosm The former meant little universe and the latter large universe Upon studying this viewpoint we can understand the Macrocosm to represent the entire warp and woof of creation The Macrocosm is the known and the unknown the visible and the invisible stretching eternally and encompassing within its framework the entire schema of universes galaxies stars sun systems planets and monadic worlds Perhaps even worlds within worlds There are two manifestations of Macrocosmic Mind controlling all elements of the Universe 1 There is the Universal Consciousness or God Mind involving certain laws which were established in the beginning of creation and are unwritten but immutable laws of the Universe These laws are fixed in the Universal Consciousness and whenever there is no interference or no special application of the Universal Consciousness these laws are fulfilled by every element that we find existing in the universe 2 There is the creative power of man's mind which is a part of the Universal Creative Power and this mind power can affect the elements of the Universe by applying other Universal Laws and making the elements obey This remarkable book gives you the ancient and one time secret techniques for releasing the Macrocosmic Power of your mind Know this truth EVERY GOOD THING YOU ARE SEEKING IS ALREADY SEEKING YOU      **Rites of Privacy and the Privacy Trade** Elizabeth Neill, 2001-01-11 In Rites of Privacy and the Privacy Trade Neill constructs an original theory of natural rights and human dignity to ground our right to privacy arguing that privacy and autonomy are innate natural properties metaphorically represented on the moral level and socially bestowed She develops her position by drawing on works in history sociology metaphor law and the moral psychology of Lawrence Kohlberg The resulting theory provides surprising answers to controversial and pressing questions regarding for instance our right to privacy for medical records in various contexts and in relation to various authority structures including government Neill demonstrates that while we have some entitlement to protection of privacy entitlement does not have the moral scope suggested by currently entrenched legal and social norms She cautions against some of the privacy privileges we currently enjoy referring specifically to claims such as those against insurance companies to prevent access to medical records and suggests that if they are to be continued respect for privacy is not the reason
