**Erin Harrington**

## **Mad Science:**

**Theo Gray's Mad Science** Theodore W. Gray, 2009 Author of the best selling book *The Elements* Theodore Gray demonstrates essential scientific principles through thrilling daredevil experiments What a magnificent book It's gorgeous playful and draws you in Adam Savage cohost of *Mythbusters* Theodore Gray has attained a level of near superhuman geekery that the rest of us can only mutely admire Cecil Adams *The Straight Dope* Gray's encyclopedic knowledge and contagious enthusiasm transport us to deep intellectual realms while never sacrificing a sense of wonder and above all fun Oliver Sacks author of *Awakenings* *Musicophilia* and *Uncle Tungsten* *Memories of a Chemical Boyhood* In *Mad Science* Theodore Gray launches a toy rocket using the energy released from an Oreo cookie ignites a phosphorus sun by suspending half a gram of white phosphorus in a globe filled with pure oxygen and creates a homemade hot tub by adding 500 pounds of quicklime to water These are just a few of the 54 experiments included in this astonishing book that demonstrates essential scientific principles in ways you were likely never exposed to in school Every experiment in *Mad Science* is accompanied by full color photographs that provide a front row seat to rarely seen chemical reactions and glorious subatomic activity To further enhance the hands on experience Gray includes step by step instructions for nearly every experiment Following all of the safety guidelines readers can even re create some of the experiments in the book *Mad Science* is the perfect book for anyone fascinated by all things chemical electrical or explosive and who loves a vicarious thrill [Supervillains and Philosophy](#) Ben Dyer, 2011-09-30 The devil gets his due in the latest entry in the Pop Culture and Philosophy series *Supervillains and Philosophy* features an international cabal of philosophers and comics industry professionals conspiring to reveal the dark details and deeper meanings lurking behind today's most popular comic book monsters Whether it's their moral justification for world domination or the wavering boundaries they share with the modern anti hero everyone's favorite villains generate as much attention as their heroic counterparts The 20 essays in this accessible book explore the nature of supervillainy examine the boundaries of good and evil offer helpful advice to prospective supervillains and untangle diabolical puzzles of identity and consciousness All the legends are here from Dr Doom and the Spectre to the Joker and the Watchmen reconsidered through the lens of classic and modern philosophy [Spectacular Experiments and Mad Science Kids Love](#) Steve Heuer, 2010 *Spectacular Experiments and Mad Science Kids Love* is a project 15 years in the making As a science enrichment teacher I have had the good fortune to witness the joy expressed on my student's faces through the magic of science This project of love is inspired by and dedicated to the thousands of children who have experienced the very best hands on interactive science experiments and have given amazing feedback made visible by their sparkling enthusiasm Kid tested and parent approved these easy to follow yet awe inspiring experiments also serve as a great introduction to the amazing world of science **Uncovering Stranger Things** Kevin J. Wetmore, Jr., 2018-04-12 The Duffer Brothers award winning *Stranger Things* exploded onto the pop culture scene in 2016 The Netflix original series revels in a nostalgic view of

1980s America while darkly portraying the cynical aspects of the period This collection of 23 new essays explores how the show reduces reuses and recycles 80s pop culture from the films of Spielberg Carpenter and Hughes to punk and synthwave music to Dungeons the politics psychology and educational policies of the day and how the ultimate upper class teen idol of the Reagan era became Stranger Things middle aged blue collar heroine **Better Living Through Bad Movies** Scott Clevenger, Sheri Zollinger, 2006 We've all heard that you learn more from failure than you do from success Which means that all those hours spent watching crappy movies wasn't a waste of your precious and ever dwindling life span it was an education And Better Living Through Bad Movies can show you how to extract the profound life affirming lessons from films like Battlefield Earth Coyote Ugly and Indecent Proposal In over 50 hilarious reviews the authors show how you can use the worst movies ever made to improve your sex life it involves cardboard cutouts and clog dancing Apocalypse proof your home using the following materials John Travolta Kevin Costner Sylvester Stallone and more Kevin Costner and win omnipotence and a Happy Meal by solving Satan's Junior Jumble You will also discover how to forge a love that will last a lifetime by dating the moribund use films like Batman and Robin and Star Wars The Phantom Menace as grief counseling and conquer the world using common fruit bats and dry cleaning fluid And most important of all you'll learn Hollywood's Ultimate Secret Why Beaches and Armageddon are actually the exact same movie **The Sam Harris Delusion** Mike Hockney, 2015-03-31 There are two kinds of intellectual Philosophers and Sophists The former seek the absolute truth while the latter seek the practical truth that brings them worldly prestige and success The weak minded are far more influenced by Sophists than Philosophers to the severe detriment of the intellectual progress of humanity Philosophers have a position based on rationalism idealism metaphysics and mathematics while Sophists hold a position reflecting empiricism materialism physics and science One of the most prominent Sophists in today's world is Sam Harris an American controversialist who supports scientism atheism and the claim that free will is illusory All of his positions are closely connected and the purpose of this book is to expose the fallacies that lie at the heart of the Sophists worldview and Harris's in particular Ultimately the difference between Philosophy and Sophistry reduces to the difference between mathematics and science and how each relates to ultimate reality **Lemonade Code** Jarod Pratt, Crank!, 2021-01-20 Robbie Reynolds isn't just a genius he's a super SUPER genius But he doesn't have the cash to fund his ultimate and top secret project That's why he's opening a lemonade stand Not just any lemonade stand this one is state of the art and his automatista can make you any flavor of lemonade your heart desires Bacon salsa potato salad dirty diaper anything you want Unfortunately Robbie isn't the only one in the lemonade hustle Daphne Du Ri his new across the street neighbor has her own setup going and something about her lemonade is resonating with people in ways Robbie's can't Before the week is over Robbie and Daphne are in a full on lemonade war one that Robbie is quickly losing Desperate he tries to discover Daphne's secret recipe Her lemonade is just lemonade isn't it There can't be some secret ingredient that compels people to buy it can there It wouldn't cause the end of

the world if her lemonade fell into the wrong hands Would it

**The Scientist in Popular Culture** Rebecca Janicker,2022-04-14 In this collection contributors analyze the depiction of scientists in a wide range of films and television programs that span across genres including horror science fiction crime drama comedy and children s media Scientists in popular culture they argue often embody the hopes and fears associated with real life science which continue to be prevalent in both fictional and non fiction media By becoming the human face of scientific insight and innovation the scientist in popular culture plays a key role in encouraging public engagement with scientific ideas Scholars of media studies popular culture and health communication will find this book particularly useful

**It Came From the 1950s!** Darryl Jones,Elizabeth McCarthy,Bernice M. Murphy,2011-10-04 An eclectic and insightful collection of essays predicated on the hypothesis that popular cultural documents provide unique insights into the concerns anxieties and desires of their times 1950s popular culture is analysed by leading scholars and critics such as Christopher Frayling Mark Jancovich Kim Newman and David J Skal

*Narratives Crossing Boundaries* Joachim Friedmann,2023-10-02 As the dominant narrative forms in the age of media convergence films and games call for a transmedial perspective in narratology Games allow a participatory reception of the story bringing the transgression of the ontological boundary between the narrated world and the world of the recipient into focus These diverse transgressions medial and ontological are the subject of this transdisciplinary compendium which covers the subject in an interdisciplinary way from various perspectives game studies and media studies but also sociology and psychology to take into account the great influence of storytelling on social discourses and human behavior

**Women, Monstrosity and Horror Film** Erin Harrington,2017-08-10 Women occupy a privileged place in horror film Horror is a space of entertainment and excitement of terror and dread and one that relishes the complexities that arise when boundaries of taste of bodies of reason are blurred and dismantled It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the reproductive the maternal and the sexual to expose the underpinnings of the social political and philosophical othering of women This book offers an in depth analysis of women in horror films through an exploration of gynaehorror films concerned with all aspects of female reproductive horror from reproductive and sexual organs to virginity pregnancy birth motherhood and finally to menopause Some of the themes explored include the intersection of horror monstrosity and sexual difference the relationships between normative female hetero sexuality and the twin figures of the chaste virgin and the voracious vagina dentata embodiment and subjectivity in horror films about pregnancy and abortion reproductive technologies monstrosity and mad science the discursive construction and interrogation of monstrous motherhood and the relationships between menopause menstruation hagsploitation and abject barren bodies in horror The book not only offers a feminist interrogation of gynaehorror but also a counter reading of the gynaehorrific that both accounts for and opens up new spaces of productive radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic It therefore

makes a unique contribution to the study of women in horror film specifically while also providing new insights in the broader area of popular culture gender and film philosophy

**Humanism and Technology** Anthony B. Pinn, 2016-11-23  
 This book interrogates the ways in which new technological advances impact the thought and practices of humanism Chapters investigate the social political and cultural implications of the creation and use of advanced forms of technology examining both defining benefits and potential dangers Contributors also discuss technology's relationship to and impact on the shifting definitions we hold for humankind International and multi disciplinary in nature and scope the volume presents an exploration of humanism and technology that is both racially diverse and gender sensitive With great depth and self awareness contributors offer suggestions for how humanists and humanist organizations might think about and relate to technology in a rapidly changing world More broadly the book offers a critical humanistic interrogation of the concept of progress especially as it relates to technological advancement

*Teaching Your Child Where the Schools Leave Off Shifting Your Education Paradigm* Annette Kritzberger, 2013-12-20  
 Parents you are your child's most significant educator and advocate not the schools not the culture not the media not their peers and not the government This change of world view this paradigm shift is at the heart of *Teaching Your Children Where the Schools Leave Off* It transforms your mindset from passively receiving the education your school system is providing to actively providing the education your child is capable of receiving

**Advertising and Media Research** Justice Hamilton, 2018-11-16  
 Advertising research is a systematic process of marketing research conducted to improve the efficiency of advertising Advertising and media research explains the complexities of planning in a fast moving non complex style As we enter the new century of transformed advertising techniques and marketing challenges Research is to find out something new and advertising research is to find out how advertising works effectively and guide in making effective advertising decisions There are various kinds of advertising research and these include pre testing post testing campaign research and measuring advertising effectiveness Advertising follows logically after listening to consumer requirements introducing productive conditions distributing the goods However the actual sequence and emphasis deriving from the diverse sub cultures can be quite differentiated The effects of the different mass media on social psychological and physical aspects Research survey that segments the people based on what television programs they watch radio they listen and magazines they read Media research makes use of scientific methods of research It aims at providing an objective unbiased evaluation of data First the research problem is identified and then a prescribed set of procedures of research is followed to investigate the problem Only thereafter comes report of the findings This book is more catered to readers who have no background on the media It is more informational than instructional It's great if you are looking into learning about how the media works per se but not if you are concerned about effectively positioning your products in the market

Transnational Horror Across Visual Media Dana Och, Kirsten Strayer, 2013-10-15  
 This volume investigates the horror genre across national boundaries including locations such as Africa Turkey and post

Soviet Russia and different media forms illustrating the ways that horror can be theorized through the circulation reception and production of transnational media texts Perhaps more than any other genre horror is characterized by its ability to be simultaneously aware of the local while able to permeate national boundaries to function on both regional and international registers The essays here explore political models and allegories questions of cult or subcultural media and their distribution practices the relationship between regional or cultural networks and the legibility of international horror iconography across distinct media The book underscores how a discussion of contemporary international horror is not only about genre but about how genre can inform theories of visual cultures and the increasing permeability of their borders

**Horror Literature through History** Matt Cardin, 2017-09-21 This two volume set offers comprehensive coverage of horror literature that spans its deep history dominant themes significant works and major authors such as Stephen King Edgar Allan Poe and Anne Rice as well as lesser known horror writers Many of today's horror story fans who appreciate horror through movies television video games graphic novels and other forms probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest People have always been mesmerized by stories that speak to their deepest fears Horror Literature through History shows 21st century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right Through profiles of major authors critical analyses of important works and overview essays focused on horror during particular periods as well as on related issues such as religion apocalypticism social criticism and gender readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema This unique two volume reference set provides wide coverage that is current and compelling to modern readers who are of course also eager consumers of entertainment In the first section overview essays on horror during different historical periods situate works of horror literature within the social cultural historical and intellectual currents of their respective eras creating a seamless narrative of the genre's evolution from ancient times to the present The second section demonstrates how otherwise unrelated works of horror have influenced each other how horror subgenres have evolved and how a broad range of topics within horror such as ghosts vampires religion and gender roles have been handled across time The set also provides alphabetically arranged reference entries on authors works and specialized topics that enable readers to zero in on information and concepts presented in the other sections

**Knowledges in Publics** Lorraine Locke, Simon Locke, 2013-10-30 This book presents a series of cutting edge research studies in the field of public understanding of science with particular focus on aspects of informal science education In addition to providing up to date overviews of current thinking about how best to conceptualise the field it offers a range of primary research studies examining informal public venues of science and mediations of scientific knowledge and representation With contributions from some leading international researchers the book provides discussions and case studies addressing the USA UK and Europe Africa and India offering insight and assessment of key issues on a global footing

Challenging extant notions of science public relations in terms of deficiency engagement and knowledge transfer the book taken as a whole argues for approaches that take seriously the multiplicity of publics and that recognise the centrality of social relations and social contexts to forms of knowledge and ways of knowing **Handbook of Popular Culture and Biomedicine** Arno Görgen, German Alfonso Nunez, Heiner Fangerau, 2018-09-10 This handbook explores the ways biomedicine and pop culture interact while simultaneously introducing the reader with the tools and ideas behind this new field of enquiry From comic books to health professionals from the arts to genetics from sci fi to medical education from TV series to ethics it offers different entry points to an exciting and central aspect of contemporary culture how and what we learn about and from scientific knowledge and its representation in pop culture Divided into three sections the handbook surveys the basics the micro and the macroaspects of this interaction between specialized knowledge and cultural production After the introduction of basic concepts of and approaches to the topic from a variety of disciplines the respective theories and methods are applied in specific case studies The final section is concerned with larger social and historical trends of the use of biomedical knowledge in popular culture Presenting over twenty five original articles from international scholars with different disciplinary backgrounds this handbook introduces the topic of pop culture and biomedicine to both new and mature researchers alike The articles all complete with a rich source of further references are aimed at being a sincere entry point to researchers and academic educators interested in this somewhat unexplored field of culture and biomedicine
