Gaisie,2020-10-16 This book seeks to demonstrate the significance of Ancestor Christology in African Christianity for christological developments in World Christianity Ancestor Christology has developed in the process of an African conversion story of appropriating the mystery of Christ Eph 3 4 in the category of ancestors Logos Christology in early Christian history developed as an intricate byproduct in the conversion process of turning Hellenistic ideas towards the direction of Christ A F Walls Hellenistic Christian writers and modern African Christian writers thus share some things in common and when their efforts are examined within the conversion process framework there are discernible modes of engagement The mode of Logos Christology that one finds in Origen for example is an innovative application of the understanding of Jesus Christ as Logos incarnate a new key but not discontinuous with the Johannine suggestive mode or the clarificatory mode of Justin Martyr African Ancestor Christology is at the threshold of an innovative mode and the argument this book makes is that this strand of African Christology should be pursued in the indigenous languages aided by respective translated Bibles a suggested way is a Logos Ancestor Nanas m discourse in Akan Christianity **Madagascar** Philip M. Allen,2019-04-02 The world s fourth largest island with a unique biological and physical endowment Madagascar is home to an extraordinary insular civilization that has struggled for more than a century against external domination In this sensitive introduction to the Indian Ocean s great island Philip Allen shows how family affinities and community loyalties at the foundation of Madagascar s culture have influenced Malagasy

nationalism and forged islandwide traditions These same principles have nonetheless engendered social cleavages and resistance to economic and political change In chapters on modern Madagascar Allen analyzes the inability of a series of regimes to maintain authority among a people deeply bound to rituals of communication with their spiritual environment He demonstrates how the first Malagasy Republic became stigmatized by its lingering identification with French colonialism and how the nationalist revolution in 1972 soon hardened into autocratic radicalism Allen explores the complex challenges facing Madagascar's resurgent democratic forces including a need to conserve the island's irreplaceable biodiversity and to facilitate authentic participation in public affairs without offending ancestral customs and local precedents Finally he discusses efforts to end Madagascar's economic and political dependence and to improve living conditions for its tragically impoverished population

Conservation and Environmental Management in Madagascar Ivan R. Scales, 2014-03-14 Madagascar is one of the most biologically diverse places on the planet the result of 160 million years of isolation from the African mainland More than 80% of its species are not found anywhere else on Earth However this highly diverse flora and fauna is threatened by habitat loss and fragmentation and the island has been classified as one of the world's highest conservation priorities Drawing on insights from geography anthropology sustainable development political science and ecology this book provides a comprehensive assessment of the status of conservation and environmental management in Madagascar It describes how conservation organisations have been experimenting with new forms of protected areas community based resource management ecotourism and payments for ecosystem services But the country must also deal with pressing human needs The problems of poverty development environmental justice natural resource use and biodiversity conservation are shown to be interlinked in complex ways Authors address key questions such as who are the winners and losers in attempts to conserve biodiversity And what are the implications of new forms of conservation for rural livelihoods and environmental justice

The Ancestor's Tale Richard Dawkins, 2004 Renowned biologist and thinker Dawkins presents his most expansive work yet a comprehensive look at evolution ranging from the latest developments to his own provocative views and loosely based on the form of Chaucer's Canterbury Tales

African Identities and World Christianity in the Twentieth Century Klaus Koschorke, Jens Holger Schjørring, 2005 The map of global Christianity continues to undergo dramatic changes and on this map Africa comes to the fore The proceedings of the Third International Conference at Munich Freising on the History of Christianity in the Non Western World seek to respond to the growing importance of Africa in the context of World Christianity Prominent scholars from Africa and Europe deal with the manifold manifestations of African Christianity in the 20th century and the various ways in which African and Christian identities were formulated and interacted with each other The negotiation of the local and the global in the process of forming African churches is discussed as is the question of the impact of internal African debates and developments on global ecumenical discussions From the table of contents 16 contributions O U Kalu A Trail of Ferment in African Christianity Ethiopianism

non native species Detailed species accounts cover description and identification habitat and distribution behaviour and where the best places to see a species might be a detailed distribution map for each species is also included Supporting chapters cover the island s regions and habitats threats to mammals conservation and important mammal watching sites The book is illustrated throughout with exceptional photography including species rarely photographed previously Field Guide to Mammals of Madagascar is an essential addition to the backpack of any wildlife watcher visiting this amazing island

Handbook of Mammals of Madagascar Nick Garbutt,2023-01-05 The most up to date and comprehensive handbook to the region s mammals illustrated with exceptional photography Madagascar is home to one of the most remarkable assemblages of mammals on earth Millions of years of isolation has resulted in the evolution of a suite of species that are exceptional for two major reasons Firstly every native non volant species approximately 210 species is endemic No other island or place on earth boasts such a combination of species richness and endemism And secondly these mammals have evolved an extraordinary diversity of body forms and lifestyles often displaying significant convergence with forms elsewhere but also at times evolving utterly unique features Handbook of the Mammals of Madagascar describes all 217 native species including bats tenrecs mice and lemurs and a small number of introduced non native species Species accounts are subdivided into sections covering description and identification habitat and distribution including distribution maps behaviour and where to see Over the past 15 years major advances in research have been made into the island s mammal fauna and species accounts include all the latest information Supporting chapters cover the island s regions and habitats threats to mammals conservation and important mammal watching sites There is also a section covering the bizarre extinct mammal fauna Throughout the book is illustrated with exceptional high quality photography often featuring species rarely photographed previously **Islands Magazine** ,1989-07 The Sloth Lemur's Song Alison Richard,2024-05-31 A moving account of Madagascar told by a researcher who has spent over fifty years investigating the mysteries of this remarkable island Madagascar is a place of change A biodiversity hotspot and the fourth largest island on the planet it has been home to a spectacular parade of animals from giant flightless birds and giant tortoises on the ground to agile lemurs leaping through the treetops Some species live on many have vanished in the distant or recent past Over vast stretches of time Madagascar s forests have expanded and contracted in response to shifting climates and the hand of people is clear in changes during the last thousand years or so Today Madagascar is a microcosm of global trends What happens there in the decades ahead can perhaps suggest ways to help turn the tide on the environmental crisis now sweeping the world The Sloth Lemur s Song is a far reaching account of Madagascar s past and present led by an expert guide who has immersed herself in research and conservation activities with village communities on the island for nearly fifty years Alison Richard accompanies the reader on a journey through space and time from Madagascar s ancient origins as a landlocked region of Gondwana and its emergence as an island to the modern day developments that make the survival of its array of plants and animals increasingly uncertain

Weaving together scientific evidence with Richard's own experiences and exploring the power of stories to shape our understanding of events this book captures the magic as well as the tensions that swirl around this island nation Sarah Anderson's *Travel Companion* Sarah Anderson, 2004 For those who want to find out more about Africa and the Middle East than can be found in a normal guidebook Sarah Anderson's *Travel Companion* offers a delightfully informed personal selection including travel literature illustrated volumes biographies and memoirs and more Travelers and readers can discover novels set in Kenya cultural studies of Syria or guidebooks best suited to their tastes This is an indispensable companion for every serious reader of travel writing

Introduction to Madagascar Gilad James, PhD, Madagascar is an island country located off the east coast of Africa in the Indian Ocean It is the fourth largest island in the world and has a land area of 587 041 square kilometers The capital and largest city of Madagascar is Antananarivo The country is home to a unique and diverse range of flora and fauna with over 80% of its wildlife being endemic species not found anywhere else in the world The history of Madagascar has been shaped by its geographic isolation and the diverse groups of people who have settled on the island over the years The earliest known settlers were Austronesian peoples who arrived around 350 BC Later Arab and African traders established settlements and introduced Islam to the island In the 16th century Madagascar became a haven for pirates and in the 19th century the island was colonized by the French Today Madagascar is one of the poorest countries in the world with a GDP per capita of about 1 500 However the country's rich cultural heritage and natural resources make it a popular destination for tourists
