Federal Register, 2005-05-31 **Chinese Art and Dynastic Time** Wu Hung, 2022-05-03 A sweeping look at Chinese art across the millennia that upends traditional perspectives and offers new pathways for art history Throughout Chinese history dynastic time the organization of history through the lens of successive dynasties has been the dominant mode of narrating the story of Chinese art even though there has been little examination of this concept in discourse and practice until now Chinese Art and Dynastic Time uncovers how the development of Chinese art was described in its original cultural sociopolitical and artistic contexts and how these narratives were interwoven with contemporaneous artistic creation In doing so leading art historian Wu Hung opens up new pathways for the consideration of not only Chinese art but also the whole of art history Wu Hung brings together ten case studies ranging from the third millennium BCE to the early twentieth century CE and spanning ritual and religious art painting sculpture the built environment and popular art in order to examine the deep rooted patterns in the historical conceptualization of Chinese art Elucidating the changing notions of dynastic time in various contexts he also challenges the preoccupation with this concept as the default mode in art historical writing This critical investigation of dynastic time thus constitutes an essential foundation to pursue new narrative and interpretative frameworks in thinking about art history Remarkable for the sweep and scope of its arguments and lucid style Chinese Art and Dynastic Time probes the roots of the collective imagination in Chinese art and frees us from long held perspectives on how this art should be understood Published in association with the Center for Advanced Study in the Visual Arts National Gallery of Art Washington DC A Trip Around the World Barbara Schaff, 1993-06 *The Lunisolar Calendar: A Sociology of Japanese Time* Jessica Kennett Cork, 2011-06-25 This study shall explore the social and political significance of the so called kyureki the Japanese lunisolar calendar that was abolished by the Meiji government in 1872 This calendar was the principal method of timekeeping in Japan from 604 to 1872 but has received little attention from English speaking scholars This study argues that the study of the lunisolar calendar is essential to gaining a comprehensive understanding of pre Meiji society and political history Chapter 1 uses a detailed analysis of an actual lunisolar calendar coupled with passages from pre Meiji historical and literary texts to show that the lunisolar calendar reflects the value pre Meiji society placed on minute seasonal changes the phases of the moon and divination controlled by various directional deities It shall also demonstrate how an understanding of the lunisolar calendar is vital to fully comprehend classical Japanese texts Chapter 2 explores how calendar reform has been enacted throughout Japanese history to promote the values of new political regimes Chapter 3 discusses the state of the lunisolar calendar in modern Japan first analyzing how the calendar survived the Meiji government's attempt to obliterate it and the effect the Meiji calendar reform had on how the lunisolar calendar is understood today It then discusses how the current revival of interest in the lunisolar calendar reflects the value modern society places on nostalgia for the past which has arisen as part of the modernization process **Certain Passenger**
