Situation Aesthetics Kirsi Peltomaki, 2014-02-14 The first book length study of this influential artist's work focusing on the participatory role of the human subject rather than the art object Michael Asher doesn't make typical installations Instead he extracts his art from the institutions in which it is shown culling it from collections histories or museums own walls Since the late 1960s Asher has been creating situations that have not only taught us about the conditions and contexts of contemporary art but have worked to define it In Situation Aesthetics Kirsi Peltomaki examines Asher's practice by analyzing the social situations that the artist constructs in his work for viewers participants and institutional representatives including gallery directors curators and other museum staff members Drawing on art criticism the reports of viewers and participants in Asher's projects and the artist's own archives Peltomaki offers a comprehensive account of Asher's work over the past four decades Because of the intensely site specific nature of this work as well as the artist's refusal to reconstruct past works or mount retrospectives many of the projects Peltomaki discusses are described here for the first time By emphasizing the social and psychological sites of art rather than the production of autonomous art objects Peltomaki argues Asher constructs experientially complex situations that profoundly affect those who encounter them bringing about both personal and institutional transformation
