Confucius, E. Bruce Brooks, A. Taeko Brooks, 1998 Bruce and Taeko Brooks have returned this wide ranging text to its full historical and intellectual setting organizing the sayings in their original chronological sequence and permitting the Analects to be read for maximum understanding not as a closed system of thought but as a richly revealing record of the interaction of life and thought as it evolved over almost the entire Warring States period The Chan Interpretations of Wang Wei's Poetry Jingqing Yang, 2007 Wang Wei 698-759 a High Tang poet is widely known as Poet Buddha The book is an attempt to criticize the assumptions about Chan Buddhist implications in Wang's nature poetry While other research investigates how Wang intentionally imparted Chan significance into his poetry this book shows why this is not so and how it lacks evidence
The Shaman and the Heresiarch Gopal Sukhu, 2012-09-01 The first book length study in English of the Chinese classic the Li sao Encountering Sorrow Includes translations of the Li sao and the Nine Songs The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th-3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as China's first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on those texts that of Wang Yi back to the quasi divinatory methods of the highly politicized tradition of Chinese classical hermeneutics in general and the political machinations of a Han dynasty empress dowager in particular It also offers an entirely new interpretation of the Li sao one based not on Qu Yuan hagiography but on what late Warring States period artifacts and texts including recently unearthed texts teach us about the cultural context that produced the poem In that light we see in the Li sao not only a reflection of the era of the great classical Chinese philosophers but also the breakdown of the political religious order of the ancient state of Chu *The Dao of Madness* Alexis McLeod, 2021-09-28 Mental illness complicates views of agency and moral responsibility in ethics Particularly for traditions and theories focused on self cultivation such as Aristotelian virtue ethics and many systems of ethics in early Chinese philosophy mental illness offers powerful challenges Can the mentally ill person cultivate herself and achieve a level of virtue character or thriving similar to the mentally healthy Does mental illness result from failures in self cultivation failure in social institutions or rulership or other features of human activity Can a life complicated by struggles with mental illness be a good one The Dao of Madness investigates the role of mental illness specifically madness kuang in discussions of self cultivation and ideal personhood in early Chinese philosophical and medical thought and the ways in which early Chinese thinkers probed difficult questions surrounding mental health Alexis McLeod explores three central accounts

the early traditional views of those including Confucians taking madness to be the result of character flaw the challenge from Zhuangists celebrating madness as a freedom from standard norms connected to knowledge and the medicalization of madness within the naturalistic shift of Han Dynasty thought Understanding views on madness in the ancient world helps reveal key features of Chinese thinkers conceptions of personhood and agency as well as their accounts of ideal activity Further it exposes the motivations behind the origins of the medical tradition and of the key links between philosophy and medicine in early Chinese thought The early Chinese medical tradition has crucial and understudied connections to early philosophy connections which this volume works to uncover

Exemplary Women of Early China, 2014-01-28 In early China was it correct for a woman to disobey her father contradict her husband or shape the public policy of a son who ruled over a dynasty or state According to the Lien zhuan or Categorized Biographies of Women it was not only appropriate but necessary for women to step in with wise counsel when fathers husbands or rulers strayed from the path of virtue Compiled toward the end of the Former Han dynasty 202 BCE 9 CE by Liu Xiang 79 8 BCE the Lien zhuan is the earliest extant book in the Chinese tradition solely devoted to the education of women Far from providing a unified vision of women s roles the text promotes a diverse and sometimes contradictory range of practices At one extreme are exemplars resorting to suicide and self mutilation as a means to preserve chastity and ritual orthodoxy At the other are bold and outspoken women whose rhetorical mastery helps correct erring rulers sons and husbands The text provides a fascinating overview of the representation of women s roles in early legends formal speeches on statecraft and highly fictionalized historical accounts during this foundational period of Chinese history Over time the biographies of women became a regular feature of dynastic and local histories and a vehicle for expressing and transmitting concerns about women s social political and domestic roles The Lien zhuan is also rich in information about the daily life rituals and domestic concerns of early China Inspired by its accounts artists across the millennia have depicted its stories on screens paintings lacquer ware murals and stone relief sculpture extending its reach to literate and illiterate audiences alike

Confucius Michael Schuman, 2015-03-03 Confucius is perhaps the most important philosopher in history Today his teachings shape the daily lives of more than 1.6 billion people Throughout East Asia Confucius s influence can be seen in everything from business practices and family relationships to educational standards and government policies Even as western ideas from Christianity to Communism have bombarded the region Confucius s doctrine has endured as the foundation of East Asian culture It is impossible to understand East Asia journalist Michael Schuman demonstrates without first engaging with Confucius and his vast legacy Confucius created a worldview that is in many respects distinct from and in conflict with Western culture As Schuman shows the way that East Asian companies are managed how family members

interact with each other and how governments see their role in society all differ from the norm in the West due to Confucius's lasting impact. Confucius has been credited with giving East Asia an advantage in today's world by instilling its people with a devotion to learning and propelling the region's economic progress. Still, the sage has also been highly controversial. For the past 100 years, East Asians have questioned if the region can become truly modern while Confucius remains so entrenched in society. He has been criticized for causing the inequality of women, promoting authoritarian regimes, and suppressing human rights. Despite these debates, East Asians today are turning to Confucius to help them solve the ills of modern life more than they have in a century. As a wealthy and increasingly powerful Asia rises on the world stage, Confucius too will command a more prominent place in global culture. Touching on philosophy, history, and current affairs, Confucius tells the vivid dramatic story of the enigmatic philosopher whose ideas remain at the heart of East Asian civilization. *The Poetry of He Zhu (1052-1125)* Stuart Sargent, 2007-03-31 The Northern Song poet He Zhu is best known for his lyrics, ci, but also produced shi poetry of subtlety, wit, and feeling. This study examines the latter as a response to the options available to a late eleventh-century writer in the pentametrical and heptametrical forms of Ancient Verse, Regulated Verse, and Quatrains. Numerous comparisons are made with Su Shi, Huang Tingjian, Du Fu, and other important writers. In a major advance over previous methodologies, the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions. This innovation and the author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before. From the reader's report, not just an excellent study of an individual poet but also a model of reading the language of classical Chinese poetry, opens up a world of interpretive territory heretofore seldom explored. *The Songs of the South* Qu Yuan, 2011-07-07 The Songs of the South is an anthology first compiled in the second century A.D. Its poems, originating from the state of Chu and rooted in Shamanism, are grouped under seventeen titles and contain all that we know of Chinese poetry's ancient beginnings. The earliest poems were composed in the fourth century B.C. and almost half of them are traditionally ascribed to Qu Yuan. *The Four Books* Daniel K. Gardner, 2007-01-01 This compact volume shows how the Four Books—the Greater Learning, the Analects, the Mencius, and the Doctrine of the Mean—have been read and understood by the Chinese since the twelfth century. Included are selected passages in translation, accompanied by Daniel Gardner's comments and the selected commentary of Zhu Xi (1130–1200), the renowned Neo-Confucian thinker. The book provides an introduction to the later imperial Confucian tradition, introduces the reader to Zhu Xi's commentarial understanding of the Four Books, suggests how Neo-Confucians like Zhu Xi, through commentary, gave coherence and meaning to the Four Books collectively, and illustrates the nature of the standard educational curriculum. *Wife, Don't Run Away* Zhu Xi, 2019-11-16 At the wedding, she was told that the groom was being investigated and imprisoned. Then, in order to save herself, she was sold to that man. From then on, she couldn't fly from his hands, and she couldn't escape from his bed. *Dao Companion to the Philosophy of the Zhuangzi* Kim-chong Chong, 2022-09-21 This

comprehensive collection brings out the rich and deep philosophical resources of the Zhuangzi. It covers textual linguistic hermeneutical ethical social political and philosophical issues with the latter including epistemological metaphysical phenomenological and cross cultural Chinese and Western aspects. The volume starts out with the textual history of the Zhuangzi and then examines how language is used in the text. It explores this unique characteristic of the Zhuangzi in terms of its metaphorical forms its use of humour in deriding and parodying the Confucians and paradoxically making Confucius the spokesman for Zhuangzi's own point of view. The volume discusses questions such as Why does Zhuangzi use language in this way and how does it work? Why does he not use straightforward propositional language? Why is language said to be inadequate to capture the dao and what is the nature of this dao? The volume puts Zhuangzi in the philosophical context of his times and discusses how he relates to other philosophers such as Laozi Xunzi and the Logicians.

Word, Image, and Deed in the Life of Su Shi Ronald Egan, 2020-10-26 Remembered today primarily as a poet calligrapher and critic the protean Su Shi was an outspoken player in the contentious politics and intellectual debates of the Northern Song dynasty. In this comprehensive study Ronald C Egan analyzes Su's literary and artistic work against the background of eleventh century developments within Buddhist and Confucian thought and Su's dogged disagreement with the New Policies of Wang Anshi. Egan explicates Su's views on governance the classics and Buddhism and he describes Su's social welfare initiatives arrest for disloyalty and exiles. Finding a key to the richness of Su's artistic activities in his vacillation on the significance of aesthetic pursuits Egan explores Su's shi and ci poetry and Su's promotion of painting and calligraphy looking specially at the problem of subjectivity. In a concluding chapter he reconsiders Su's role as a founder of the wenren literati and challenges the conventional understanding of both Su and the Northern Song wenren generally.
