Madness at Home Akihito Suzuki, 2006-03-13 Publisher description *Institutionalizing the Insane in Nineteenth-Century England* Anna Shepherd, 2015-10-06 The nineteenth century brought an increased awareness of mental disorder epitomized in the Asylum Acts of 1808 and 1845 Shepherd looks at two very different institutions to provide a nuanced account of the nineteenth century mental health system **Prisons, Asylums, and the Public** Janet Miron, 2011-03-05 The prisons and asylums of Canada and the United States were a popular destination for institutional tourists in the nineteenth century Thousands of visitors entered their walls recording and describing the interiors inmates and therapeutic and reformatory practices they encountered in letters diaries and articles Surprisingly the vast majority of these visitors were not members of the medical or legal elite but were ordinary people **Prisons Asylums and the Public** argues that rather than existing in isolation these institutions were closely connected to the communities beyond their walls Challenging traditional interpretations of public visiting Janet Miron examines the implications and imperatives of visiting from the perspectives of officials the public and the institutionalized Finding that institutions could be important centres of civic activity self edification and scientific study **Prisons Asylums and the Public** sheds new light on popular nineteenth century attitudes towards the insane and the criminal **Coercion in Community Mental Health Care** Andrew Molodynski, Jorun Rugkåsa, Tom Burns, 2016-07-21 The use of coercion is one of the defining issues of mental health care Since the earliest attempts to contain and treat the mentally ill power imbalances have been evident and a cause of controversy There has always been a delicate balance between respecting autonomy and ensuring that those who most need treatment and support are provided with it **Coercion in Community Mental Health Care International Perspectives** is an essential guide to the current coercive practices worldwide both those founded in law and those informal processes whose coerciveness remains contested It does so from a variety of perspectives drawing on diverse disciplines such as history law sociology anthropology and medicine to provide a comprehensive summary of the current debates in the field Edited by leading researchers in the field **Coercion in Community Mental Health Care International Perspectives** provides a unique discussion of this prominent issue in mental health Divided into five sections covering origins and extent evidence experiences context and international perspectives this is ideal for mental health practitioners social scientists ethicists and legal professionals wishing to expand their knowledge of the subject area *Huhtikuun teksti* Kirsi Tuohela, 2008 Summary April texts three women writers encountering melancholia 1870 1900 **Madness at Home** Akihito Suzuki, 2006-03-13 The history of psychiatric institutions and the psychiatric profession is by now familiar asylums multiplied in nineteenth century England and psychiatry established itself as a medical specialty around the same time We are however largely ignorant about madness at home in this key period what were the family's attitudes toward its insane member what were patient's lives like when they remained at home Until now most accounts have suggested that the family and community gradually abdicated

responsibility for taking care of mentally ill members to the doctors who ran the asylums. However, this provocatively argued study painting a fascinating picture of how families viewed and managed madness suggests that the family actually played a critical role in caring for the insane and in the development of psychiatry itself. Akihito Suzuki's richly detailed social history includes several fascinating case histories, looks closely at little studied source material including press reports of formal legal declarations of insanity or Commissions of Lunacy, and also provides an illuminating historical perspective on our own day and age when the mentally ill are mainly treated in home and community.
