retained an undeniably romantic aura From their perspective Spain was a far away land to which they were forbidden to travel the stuff of camp fire singalongs and fantasies of adventure This book dissects the relationship between state sponsored history the lobbying of veterans cultural interpretations of war and the memory traces left behind by marginalised or politically oppositional groups and individuals It is a cultural history of memory under state socialism a social history of veteran groups and their relationship with the state and a political history of communist culture Above all it is the story of how post war Europeans came to terms with the heavy burden of their pre war past Metametaphysics and the Sciences Frode Kjosavik, Camilla Serck-Hanssen, 2019-10-17 This collection addresses metaphysical issues at the intersection between philosophy and science A unique feature is the way in which it is guided both by history of philosophy by interaction between philosophy and science and by methodological awareness In asking how metaphysics is possible in an age of science the contributors draw on philosophical tools provided by three great thinkers who were fully conversant with and actively engaged with the sciences of their day Kant Husserl and Frege Part I sets out frameworks for scientifically informed metaphysics in accordance with the meta metaphysics outlined by these three self reflective philosophers Part II explores the domain for co existent metaphysics and science Constraints on ambitious critical metaphysics are laid down in close consideration of logic meta theory and specific conditions for science Part III exemplifies the role of language and science in contemporary metaphysics Quine s pursuit of truth is analysed Cantor s absolute infinitude is reconstrued in modal terms and sense is made of Weyl s take on the relationship between mathematics and empirical aspects of physics With chapters by leading scholars Metametaphysics and the Sciences is an in depth resource for researchers and advanced students working within metaphysics philosophy of science and the history of philosophy **Operetta** Robert Ignatius Letellier, 2015-10-05 Operetta developed in the second half of the 19th century from the French op ra comique and the more lighthearted German Singspiel As the century progressed the serious concerns of mainstream opera were sustained and intensified leaving a gap between op ra comique and vaudeville that necessitated a new type of stage work Jacques Offenbach son of a Cologne synagogue cantor established himself in Paris with his series of op ras bouffes The popular success of this individual new form of entertainment light humorous satirical and also sentimental led to the emergence of operetta as a separate genre an art form with its own special flavour and concerns and no longer simply a little opera Attempts to emulate Offenbach s success in France and abroad generated other national schools of operetta and helped to establish the genre internationally in Spain in England and especially in Austria Hungary Here it inspired works by Franz von Supp and Johann Strauss II the Golden Age and later Franz Leh r and Emmerich K lm n the Silver Age Viennese operetta flourished conterminously with the Habsburg Empire and the mystique of Vienna but after the First World War an artistically vibrant Berlin assumed this leading position with Paul Lincke Leon Jessel and Edouard K nnecke As popular musical tastes diverged more and more during the interwar years with the advent of new influences like those of cabaret the revue jazz modern dance music and the

cinema as well as changing social mores the operetta genre took on new guises This was especially manifested in the musical comedy of London s West End and New York s Broadway with their imitators generating a success that opened a new golden age for the reinvented genre especially after the Second World War This source book presents an overview of the operetta genre in all its forms The first volume provides an introduction a representative chronology of the genre from 1840 to 2013 and a survey of the national schools of France and Austria Hungary The principal composers are considered in chronological sequence with biographical material and a list of stage works selected synopses and some commentary *Best iPhone Apps* Josh Clark,2009-06-30 Presents a guide to the apps that are available for the iPhone and iPod Touch **Kim Philby** Tim Milne,2014-02-27 Kim Philby the so called Third Man in the Cambridge spy ring was the Cold War s most infamous traitor a Soviet spy at the heart of British intelligence Philby joined Britain s secret service MI6 during the war and went on to head the section tasked with rooting out Russian spies before becoming the service s chief liaison officer with the CIA He betrayed hundreds of British and US agents to the Russians and compromised numerous operations inside the Soviet Union Tim Milne was Philby s closest and oldest friend They studied at Westminster School together and when Philby joined MI6 he immediately recruited Milne as his deputy Philby s treachery was a huge blow to Milne and after he retired he wrote a highly revealing description of Philby s time in the secret service Publication of the memoirs was banned by MI6 but after Milne s death in 2010 his family were determined that this insider s account of the Philby affair be published Edited to include newly released top secret documents showing how the KGB s master spy managed to fool MI6 even after he defected to Moscow this is the final word on one of the world s most notorious spies by the MI6 colleague who knew him best the insider account of the Philby affair that Britain s spy chiefs did not want you to read THE PUBLISHERS' WEEKLY A JOURNAL SPECIALLY REVOTED TO THE INTERESTS OF THE BOOK AND STATIONERY TRADE ,1876 *A Preliminary Catalogue of Sarapis Monuments* G. work because it served a clear function as an image bank of forms motifs and subjects for Thorvaldsen's own endeavours. Furthermore the dual fact that the collection is so well preserved and was established over a relatively brief period of time makes it a valuable example illuminating the trade and distribution of plaster casts during the first half of the nineteenth century. These areas of study form the central focal point of Volume I of this publication. Volume II contains a catalogue of the individual objects in the cast collection while Volume III collects the overviews inventories concordances and primary sources referred to in the first two volumes. Arising out of many years of study of Thorvaldsen's cast collection conducted by their author the classical archaeologist Jan Zahle these books contain comprehensive source material from the period much of it previously unknown.

Steering the Metropolis Inter American Development Bank, United Nations Human Settlements Programme, Development Bank of Latin America, 2017-10-24 A distinctive feature of urbanization in the last 50 years is the expansion of urban populations and built development well beyond what was earlier conceived as the city limit resulting in metropolitan areas. This is challenging the relevance of traditional municipal boundaries and by extension traditional governing structures and institutions. Steering the Metropolis Metropolitan Governance for Sustainable Urban Development encompasses the reflections of thought and practice leaders on the underlying premises for governing metropolitan space sectoral adaptations of those premises and dynamic applications in a wide variety of contexts. Those reflections are structured into three sections. Section 1 discusses the conceptual underpinnings of metropolitan governance analyzing why political technical and administrative arrangements at this level of government are needed. Section 2 deepens the discussion by addressing specific sectoral themes of mobility land use planning environmental management and economic production as well as crosscutting topics of metropolitan governance finance and monitoring and evaluation. Section 3 tests the concepts and their sectoral adaptations against the practice with cases from Africa America Asia and Europe.
