## **Mafia En La Frontera:**

*Border Bandits* Camilla Fojas,2009-06-03 The southern frontier is one of the most emotionally charged zones in the United States second only to its historical predecessor and partner the western frontier Though they span many genres border films share common themes trace the mood swings of public policy and shape our cultural agenda In this examination Camilla Fojas studies how major Hollywood films exploit the border between Mexico and the United States to tell a story about U S dominance in the American hemisphere She charts the shift from the mythos of the open western frontier to that of the embattled southern frontier by offering in depth analyses of particular border films from post World War II Westerns to drug trafficking films to contemporary Latino a cinema within their historical and political contexts Fojas argues that Hollywood border films do important social work by offering a cinematic space through which viewers can manage traumatic and undesirable histories and ultimately reaffirm core American values At the same time these border narratives delineate opposing values and ideas Latino border films offer a critical vantage onto these topics they challenge the presumptions of U S nationalism and subsequent cultural attitudes about immigrants and immigration and often critically reconstruct their Hollywood kin By analyzing films such as *Duel in the Sun* *The Wild Bunch* *El Norte* *The Border* *Traffic* and *Brokeback Mountain* Fojas demands that we reexamine the powerful mythology of the Hollywood borderlands This detailed scrutiny recognizes that these films are part of a national narrative comprised of many texts and symbols that create the myth of the United States as capital of the Americas     *El Norte* David Maciel,1990     *Mitología del "narcotraficante" en México* Luis Alejandro Astorga Almanza,1995-01-01 Provocative study uses interviews and historical materials to support contention that both legal codification and folk songs serve to mythologize drug trafficking Suggests that legal political sector contributes to the myth by addressing drug trafficking in terms of good and evil while corridos of drug dealers propagate the myth among the people serving as a collective catharsis Handbook of Latin American Studies v 57     Latsploitation, Exploitation Cinemas, and Latin America Victoria Ruetalo,Dolores Tierney,2009     *Tijuana Dreaming* Josh Kun,Fiamma Montezemolo,2012-09-17 *Tijuana Dreaming* is an unprecedented introduction to the arts culture politics and economics of contemporary Tijuana featuring selections by prominent scholars journalists bloggers novelists poets curators and photographers from Tijuana and greater Mexico     Coloniality of the US/Mexico Border Roberto D. Hernández,2018-10-23

National borders are often taken for granted as normal and necessary for a peaceful and orderly global civil society Roberto D Hernández here advances a provocative argument that borders and border violence are geospatial manifestations of long histories of racialized and gendered colonial violence In Coloniality of the U S Mexico Border Hernández offers an exemplary case and lens for understanding what he terms the epistemic and cartographic prison of modernity coloniality He adopts coloniality of power as a central analytical category and framework to consider multiple forms of real and symbolic violence territorial corporeal cultural and epistemic and analyzes the varied responses by diverse actors including local residents

government officials and cultural producers Based on more than twenty years of border activism in San Diego Tijuana and El Paso Ciudad Juárez this book is an interdisciplinary examination that considers the 1984 McDonald's massacre Minutemen vigilantism border urbanism the ongoing murder of women in Ciudad Juárez and anti border music Hernández's approach is at once historical ethnographic and theoretically driven yet it is grounded in analyses and debates that cut across political theory border studies and cultural studies The volume concludes with a theoretical discussion of the future of violence at and because of national territorial borders offering a call for epistemic and cartographic disobedience

**La mafia rusa. Genésis, desarrollo y asentamiento en España** Julián López-Muñoz, 2017-07-10 La mafia rusa es un prodigo criminal que evoca un acervo mitico El sentimiento de pertenencia a ella por parte de sus integrantes trasciende más allá de esa visión romántica del superhombre popular que opone resistencia a la autoridad y a los que detentan el poder para finalmente atraerlos a su causa desde el pedestal de ladrones nobles Los intentos de conseguir riqueza, poder o influencia tanto en sus páginas de procedencia como en España no encuentran freno posible que pueda detenerlos in perpetuum La criminalización de la sociedad para alcanzar bienes de consumo durante la poca soviética favoreció los mercados negros y las organizaciones criminales se fueron consolidando y adaptando a las diversas reformas acaecidas en la URSS La corrupción no fue un fenómeno novedoso ya existía en la Rusia pre comunista La disolución del sistema soviético y la apertura de fronteras con aires de libertad hicieron emergir desde el debilitamiento del Estado grupos criminales con técnicas delictivas hasta entonces desconocidas que colapsaron los sistemas preventivos de Occidente En España se sintieron seguros mediante matrimonios en blanco y otros miticos consiguieron la nacionalidad y su libre albedrío en toda Europa sin sospechar que el Estado a través de guardias civiles policías y fiscales con un arquetipo de lucha contra la mafia rusa que sería un paradigma para otros países acabaría con el paraíso montado por los ladrones de ley en suelo español
