

The Full Range Leadership Model: Essentials and Practicum

The Multifactor Leadership Questionnaire generates a psychological inventory from propositions that aim to assess leadership styles and leadership outcomes: it is a multi-rater (or 360-degree) instrument, which means that its output—the MLQ 360 Leader's Report—interprets and compares a leader's self-assessment with ratings contributed across the same items by associates. This précis reflects on a Multifactor Leadership Questionnaire exercise conducted in May 2020.
