Rodríguez-Lorenzo, 2019 This book is the first monograph about clarinet and wind music in Spain studying the professionalisation of the Spanish clarinetists from the early 19th century The social academic and professional environment of wind musicians are addressed here through the case study of clarinetist teacher composer and deputy bandmaster of the Municipal Wind Band of Madrid Miguel Yuste Moreno 1870 1947 An analysis and study of the national and international influences on the Spanish clarinet repertoire is offered here especially the premiere of Brahms's chamber music for clarinet **Mozart: Clarinet Concerto** Colin Lawson, 1996-05-02 An analysis of Mozart's Clarinet Concerto of supreme importance as the composer's last instrumental work *The Early Clarinet* Colin Lawson, 2000-03-28 This practical guide is intended for all clarinetists with a desire to investigate music of earlier periods It contains practical help on both the acquisition and playing of historical clarinets while players of modern instruments will find much advice on style approach and techniques which combine to make up a well grounded period interpretation The book presents and interprets evidence from

primary sources and offers suggestions for further reading and investigation. Most importantly, a series of case studies which include the music of Handel, Mozart, and Brahms helps recreate performances which will be as close as possible to the composer's original intention. As the early clarinet becomes increasingly popular worldwide, this guide, written by one of the foremost interpreters of early clarinet music, will ensure that players at all levels, professional students or amateurs, are fully aware of historical considerations in their performance.
