

Different Interior Design Styles

1. MODERN

Modern is a broad design term that typically refers to a home with clean, crisp lines, a simple colour palette and the use of materials that can include metal, glass and steel.

Modern design employs a sense of simplicity in every element, including furniture. A word that's commonly used to describe modern style is sleek, and there is not a lot of clutter or accessories involved with a modern style.

2. CONTEMPORARY

Modern and contemporary are two styles frequently used interchangeably. Contemporary is different from modern because it describes design based on the here and now.

The primary difference separating modern and contemporary design style is that modern is a strict interpretation of design that started in the 20th century. Contemporary on the other hand, is more fluid and can represent a sense of currency with less adherence to one particular style. For example, contemporary style may include curving lines, whereas modern design does not.

3. MINIMALIST

The minimalist concept is one of the most popular style in modern era. It takes notions of modern design and simplifies them further.

Colour palettes are neutral and airy; furnishings are simple and streamlined, and nothing is excessive or flamboyant in accessories or décor.

Minimalism is ultimately defined by a sense of functionality and ultra-clean lines.

4. INDUSTRIAL

Industrial style as the name implies, draws inspiration from a warehouse or an urban loft.

There's a sense of unfinished rawness in many of the elements, and it's not uncommon to see exposed brick, ductwork and wood. An iconic home with an industrial design theme would be a renovated loft from a former industrial building.
