Nuclear Deterrence And Global Security In Transition

John Gerard Ruggie

Nuclear Deterrence And Global Security In Transition:

Nuclear Deterrence And Global Security In Transition David Goldfischer, 2019-04-08 This book contains papers presented at a conference held at the University of California's Institute on Global Conflict and Cooperation in 1991. The papers reflect the spectrum of thought in the expert community that is likely to frame the policy debate over the future of nuclear deterrence.

Global Trends and Transitions in Security Expertise James McGann, 2017-11-08 The scope of Security and International Affairs research has expanded tremendously since the end of the Cold War to include topics beyond the realm of war studies or military statecraft. The field once devoted solely to the study of conventional military and nuclear security issues has diversified to include foci often considered nontraditional including peace and conflict, political, economic, environmental, and human security. In this exciting new volume, McGann has undertaken a quantitative and qualitative study of SIA think tanks looking at global and regional trends in their research. He argues that the end of the Cold War marked a fundamental shift within the field of defense and security studies among think tanks and academics. Tracking the evolution of security as understood by researchers and policymakers is vital as the world follows the path of the Four Mores: more issues, more actors, more competition, and more conflict. As we move forward into a world of rapid change and ubiquitous uncertainty, think tanks will only become more prominent and influential. The volume concludes with an assessment of the future of Security and International Affairs studies and raises the possibility of a return to a traditional security focus driven by recent events in Europe and the Middle East. This will be an important resource for students and scholars of security studies, global governance, and think tanks.

Global Trends and Transitions in Security Expertise James G. McGann, 2017-11-13 The scope of Security and International Affairs research has expanded tremendously since the end of the Cold War to include topics beyond the realm of war studies or military statecraft. The DTIC Review, 1995-08 *Terrorism and Homeland Security* Paul Viotti, Michael Opheim, Nicholas Bowen, 2008-06-17 Despite the fact that the Department of

Homeland Security DHS has been active since November of 2002 the American homeland is still not secure from terrorist attack What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources and the marshalling of support from other nations Drawi Conflict, War, and Peace Sara McLaughlin Mitchell, John A. Vasquez, 2013-08-13 Introducing students to the scientific study of peace and war Conflict War and Peace An Introduction to Scientific Research edited by Sara McLaughlin Mitchell and John A Vasquez provides an overview of current scholarship in this dynamic area of study Focusing on the factors that shape relationships between countries and that make war or peace more likely this collection of articles by top scholars explores such key topics as dangerous dyads alliances territorial disputes rivalry arms races democracy peace trade international organizations territorial peace and nuclear weapons Each article is followed by the editors commentary a Major Contributions section highlights the article s theoretical advances and relates each study to the broader literature while a Methodological Notes section carefully walks students through the techniques used in the analysis Methodological topics include research design percentages probabilities odds ratios statistical significance levels of analysis selection bias logic duration models and game theory models **Managing Conflict in the New Europe** F. Carr, Theresa Callan, 2015-12-22 Since the end of the Cold War international institutions have had to rise to challenges of instability and insecurity in Europe Fergus Carr and Theresa Callan examine the changing nature of European security cooperation and conflict A key theme is the development of the new European security architecture and the roles of NATO the Organization for Security and Cooperation in Europe the European Union and the United Nations as security providers in contemporary Europe *Democratic Transition and Security in Pakistan* Shaun Gregory, 2015-10-23 This volume examines the trajectory of Pakistan s democratic transition and the implications of this change for its security In May 2013 for the first time in its 66 year history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government At this important moment in Pakistan s history this collection brings together twelve leading academics and writers with an aim to provide a far reaching analysis of the current situation in Pakistan and emergent trends Drawing on history diverse theoretical perspectives and empirical evidence three themed sections deal respectively with democratic transition including Islam and democracy civil military relations and economics contested borders and contested spaces the Pashtun belt Kashmir and intra Islamic conflict and regionalism bilateral relations from both Pakistani and Indian perspectives US Pakistan relations and nuclear weapons dynamics Together the contributors explore the status of Pakistan s democratic transition contemporary security dynamics and wider regional security and political dynamics and the complex interplay of the three to provide a wide ranging analysis of Pakistan s contemporary national and regional challenges its impact on the region and evidence of some positive trends for Pakistan s future The book will be of much interest to students of South Asian politics Asian security governance and IR in general as well as policy makers diplomats and military professionals **Constructing the World Polity** John Gerard

Ruggie, 2002-09-11 Ruggie is one of the most important and influential International Relations theorists of the last twenty years. Brings together in one volume Ruggie's most influential theoretical ideas. Includes extensive introduction and material covered by essays is contextualised throughout the book. Controversial includes an extended critique of mainstream theorizing.

Historical Dictionary of Arms Control and Disarmament Jeffrey A. Larsen, James M. Smith, 2005-03-25

Historical Dictionary of Arms Control and Disarmament provides a historical review of key themes and issues in international security and arms control focusing on efforts in the 20th century to control the spread and use of armaments and to prevent war. This book summarizes the rich and proud traditions of arms control and disarmament, their critical role in ensuring a non-catastrophic course throughout history, especially the dangerous period of the Cold War, and their continuing relevance and role in the emerging post-Cold War world. It also seeks to reinforce a broad perspective of key terms in order to capture the scope and range of their application yesterday, today, and tomorrow. Given this combined tradition and focus, this Dictionary serves two purposes. As a historical dictionary, it chronicles key terms, personalities, events, and agreements as a ready reference from which to launch a more extensive investigation. But it also seeks to capture the breadth of current and future applications by presenting the vocabulary of traditional and non-traditional approaches. The book includes a large dictionary of more than 1,000 key terms, as well as a comprehensive bibliography divided into multiple categories, an extensive chronology, and a timeline. This book can also serve as a useful desk reference for the policy practitioner. The pace and intensity of the practice of arms control often eliminates the luxury of conventional study of past or related arms control efforts. The dictionary seeks to provide a relevant sampling of treaty and agreement details and of the specific terms of reference of arms control to allow productive progress in a policy work environment. Researchers and students will also find the dictionary to be a useful reference tool. Much of the formal literature in the field, such as treaty texts and policy pronouncements, is written in technical language without elaboration. Also, many references to agreements are posed in shorthand intended only for the policy practitioner.

Immerse yourself in the artistry of words with Crafted by is expressive creation, Discover the Artistry of **Nuclear Deterrence And Global Security In Transition** . This ebook, presented in a PDF format (*), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
