Point From Which Creation Begins:

BAG: "Point from which Creation Begins" Benjamin Looker, 2004 BAG Benjamin Looker, 2004 From 1968 to 1972 St Louis was home to the Black Artists Group BAG a seminal arts collective that nurtured African American experimentalists involved with theater visual arts dance poetry and jazz Inspired by the reinvigorated black cultural nationalism of the 1960s artistic collectives had sprung up around the country in a diffuse outgrowth known as the Black Arts Movement These impulses resonated with BAG's founders who sought to raise black consciousness and explore the far reaches of interdisciplinary performance all while struggling to carve out a place within the context of St Louis history and culture A generation of innovative artists Julius Hemphill Oliver Lake and Emilio Cruz to name but a few created a moment of intense and vibrant cultural life in an abandoned industrial building on Washington Avenue surrounded by the evisceration that typified that decade's urban crisis The 1960s upsurge in political art blurred the lines between political involvement and artistic production and debates over civil rights black nationalism and the role of the arts in political and cultural struggles all found form in BAG This book narrates the group's development against the backdrop of St Louis spaces and institutions examines the work of its major artists and follows its musicians to Paris and on to New York where they played a dominant role in Lower Manhattan's 1970s loft jazz scene By fusing social concern and artistic innovation the group significantly reshaped the St Louis and by extension the American arts landscape *Neighborhood Rebels* P. Joseph, 2010-01-04 This book examines the evolution of Black Power activism at the local level Comprised of essays that examine Black Power's impact at the grassroots level in cities in the North South Mid West and West this anthology expands on the profusion of new scholarship that is taking a second look at Black Power Left in the Midwest Amanda L. Izzo, Benjamin Looker, 2022-12-30 Despite St Louis's mid twentieth century reputation as a conservative and sleepy midwestern metropolis the city and its surrounding region have long played host to dynamic forms of social movement organizing This was especially the case during the 1960s and 1970s when a new generation of local activists lent their energies to the ongoing struggles for Black freedom lesbian and gay liberation feminist social transformations environmental protection an end to the Vietnam War and more This volume the first of its kind offers fifteen scholarly contributions that together bring into focus the exceptional range of progressive activist projects that took shape in a single midwestern city during these tumultuous decades In contrast to scholarship that seeks to interpret the era's social movement initiatives in a primarily national context the works presented in this expansive collection emphasize the importance of locality neighborhood community institutions and rooted social networks Documenting wrenching forces of metropolitan change as well as grassroots resilience *Left in the Midwest* shows us how place powerfully shaped agendas worldviews and opportunities for the disparate groups that dedicated themselves to progressive visions for their city By revising our sense of the region's past this volume also expands our sense of the possibilities that the future may hold for activist movements seeking change in St Louis and beyond *Message to*
