Go Find Susan Purvis, 2018-10-02

Somewhere between hunting for gold in Latin America as a geologist and getting married to a new husband thirty three year old Susan Purvis loses her way Susan comes to believe that a puppy and working on ski patrol at the last great ski town in Colorado will improve her life When she learns about avalanches that bury people without warning she challenges herself What if I teach a dog to save lives This quest propels her to train the best possible search dog vowing to never leave anyone behind With no clue how to care for a houseplant let alone a dog she chooses a five week old Labrador retriever Tasha With the face of a baby bear and the temperament of an NFL linebacker Tasha constantly tests Susan s determination to transform her into a rescue dog Susan and Tasha jockey for alpha position as they pursue certification in avalanche water and wilderness recovery Susan eventually learns to truly communicate with Tasha by seeing the world through her dog s nose As the first female team in a male dominated search and rescue community they face resistance at every turn They won t get paid even a bag of kibble for their efforts yet they launch dozens of missions to rescue the missing or recover the remains of victims of nature and crime Training with Tasha in the field to find recover and rescue the lost became Susan s passion But it was also her circumstance she was in many ways as lost as anyone she ever pulled out of an avalanche or found huddled in

the woods. Lostness doesn't only apply to losing the trail. People can get lost in a relationship, a business, or a life. Susan was convinced that only happened to other people until Tasha and a life in the mountains taught her otherwise.

Integrated Risk Management for Leisure Services Robert B. Kauffman, Merry Lynn Moiseichik, 2013-01-30

Integrated Risk Management for Leisure Services provides both students and professionals with a systematic approach to safety. By integrating risk management, accident prevention, and emergency response with information on legal liability, Integrated Risk Management for Leisure Services enables leisure service providers to implement strategies to reduce or eliminate bodily injury, property damage, and financial loss. Integrated Risk Management for Leisure Services uses a four-phase integrated risk management model. The first three phases focus on negligence, the accident process, and risk management plans to reduce or eliminate injury, damage, or loss. The fourth phase focuses on what to do after an incident occurs to reduce the impact of injury, damage, or loss. Integrated Risk Management for Leisure features several unique aspects for students and professionals in the recreation and park field. It covers safety prevention and accident processes in the recreation and parks field. Then it addresses how to manage the post-incident situation to reduce impacts. Last, the text integrates these two new areas with the traditional areas of legal liability and risk management planning in an effort to provide safer recreation and park programs.
