Soviets with aggressive surveillance and military exercises The Soviets did the same For 40 years Pacific Islanders have had cause to resent the use of their ocean as a nuclear playground of the five nuclear powers three the USA USSR and China launched missiles into the Pacific for test purposes two the USA and Britain exploded nuclear devices there but had stopped and one France continued to test nuclear bombs in one of its colonies Pacific Islanders now have cause to fear that the ocean is becoming a nuclear battleground Originally published in 1987 this book tells the story of the nuclear men in the Pacific and of those people they displaced and irradiated It is also about what these people and their governments had begun to do in response The nuclear issue had transformed the political landscape of Micronesia and the South Pacific in the 1980s loosening the US grip and making the French increasingly unpopular The people of these remote communities largely forgotten or considered dispensable had a nuclear past made for them Now they want to make their own future

Jacobs, 2022-03-29 The Cold War reconsidered as a limited nuclear war

Inexorable clarity and care for his fellow humans mark Robert Jacobs's guide to the Cold War as a limited nuclear war whose harms disfigure any possible future Norma Field author of *In the Realm of a Dying Emperor* Japan at Century's End In the fall of 1961 President Kennedy somberly warned Americans about deadly radioactive fallout clouds extending hundreds of miles from H bomb detonations yet he approved ninety six US nuclear weapon tests for 1962 Cold War nuclear testing production and disasters like Chernobyl and Fukushima have exposed millions to dangerous radioactive particles these millions are the global hibakusha Many communities continue to be plagued with dire legacies and ongoing risks sickness and early mortality forced displacement uncertainty and anxiety dislocation from ancestors and traditional lifestyles and contamination of food sources and ecosystems Robert A Jacobs re envisions the history of the Cold War as a slow nuclear war fought on remote battlegrounds against populations powerless to prevent the contamination of their lands and bodies His comprehensive account necessitates a profound rethinking of the meaning costs and legacies of our embrace of nuclear weapons and technologies
