

A wide-angle photograph of a large, crowded poker tournament room. Numerous people are seated at circular tables, engaged in play. The room has a high ceiling with exposed metal trusses and lighting rigs. The floor is covered in a patterned carpet with large, overlapping, organic shapes in shades of brown and tan. The text "MASTERING POKER TOURNAMENT STRATEGIES" is overlaid in large, white, sans-serif capital letters across the upper half of the image.

Poker Tournament Strategies Sylvester Suzuki, 1998 Poker tournaments are very different from conventional poker games for many reasons. The most important ones are: The chips change value because most tournaments are percentage payback. Rebuys are available early on. And many players over adjust their playing strategy because they are aware that after the rebuy period you cannot purchase more chips. Consequently you should make many strategy changes. Sometimes you should be trying to accumulate chips sometimes you should be on the attack and sometimes you should just survive. Even though Sylvester Suzuki is a pseudonym he is a real person who understands the underlying theories that govern tournament play. This text should prove helpful to anyone who is new to this form of poker. **Tournament Tips from the Poker Pros** Shane Smith, This book will show you how to beat low stakes poker tournaments.
