Polar Bears From Normandy To The Relief Of Holland With The 49th Division:

The Polar Bears Patrick Delaforce, 2018-06-02 Originally a Territorial unit with its roots in the West Riding of Yorkshire the 49th Infantry Division saw action in the ill fated Norwegian campaign in 1940 before it was appointed to garrison Iceland where it stayed for two years In August 1944 under the command of the Canadian Army the Polar Bears acted as Monty's left flank after the invasion of France Following the battle for Normandy the Polar Bears played a key role in the capture of Le Havre campaigned vigorously in Belgium and garrisoned the island between Arnhem and Nijmegen during the winter of 1944 They helped to take Arnhem and then liberated Utrecht and Hilversum and the Recce regiment were the first to arrive with their armoured cars in Amsterdam In the final weeks of the war the Polar Bears played a humanitarian role by bringing desperately needed food supplies to the starving population of Holland During the campaign in North West Europe the Polar Bears were a completely British division with units drawn from Yorkshire Durham Royal Scots Fusiliers Tyneside Scottish Lincolnshire Leicestershire Kent Yeomanry and Suffolk Hussars In August 1944 they were joined by the South Wales Borderers the Gloucesters and the Essex regiments The Polar Bears suffered 11 000 casualties and earned a Victoria Cross Following the successful formula adopted for his other divisional histories Patrick Delaforce draws on contributions from the soldiers who fought with the Polar Bears privates NCOs and officers alike In their own words they tell just what it was like as they fought through from Normandy to the relief of Holland

The Polar Bears Patrick Delaforce, 1995 This is the 5th title in the series of British Army divisional histories Illustrated with many photos it records the achievements of the 49th Infantry Division Included are first hand accounts from men who were there

Monty's Functional Doctrine Charles Forrester, 2015-08-19 Using a combination of new perspectives and new evidence this book presents a reinterpretation of how 21st Army Group produced a successful combined arms doctrine by late 1944 and implemented this in early 1945 Historians professional military personnel and those interested in military history should read this book which contributes to the radical reappraisal of Great Britain's fighting forces in the last years of the Second World War with an exploration of the reasons why 21st Army Group was able in 1944-45 to integrate the operations of its armor and infantry The key to understanding how the outcome developed lies in understanding the ways in which the two processes of fighting and the creation of doctrine interrelated This requires both a conventional focus on command and a cross level study of Montgomery and a significant group of commanders The issue of whether or not this integration of combat arms a guide to operational fighting capability had any basis in a common doctrine is an important one Alongside this stands the new light this work throws on how such doctrine was created A third interrelated contribution is in answering how Montgomery commanded and whether and to what extent doctrine was imposed or generated Further it investigates how a group of effervescent commanders interrelated and what the impact of those interrelationships was in the formulation of a workable doctrine The book makes an original contribution to the debate on Montgomery's command style in Northwest Europe and its

consequences and integrates this with tracking down and disentangling the roots of his ideas and his role in the creation of doctrine for the British Army's final push against the Germans. In particular, the author is able to do something that has defeated previous authors to explain how doctrine was evolved and especially who was responsible for providing the crucial first drafts and the role Montgomery played in revising, codifying and disseminating it. **British Armour in the**

Normandy Campaign John Buckley, 2004-07-22 The popular perception of the performance of British armour in the Normandy campaign of 1944 is one of failure and frustration. Despite overwhelming superiority in numbers, Montgomery's repeated efforts to employ his armour in an offensive manner ended in a disappointing stalemate. Fighting the People's War Jonathan Fennell, 2019-01-24 Fighting the People's War is an unprecedented panoramic history of the citizen armies of the United Kingdom, Australia, Canada, India, New Zealand and South Africa, the core of the British and Commonwealth armies in the Second World War. Drawing on new sources to reveal the true wartime experience of the ordinary rank and file, Jonathan Fennell fundamentally challenges our understanding of the War and of the relationship between conflict and socio-political change. He uncovers how fractures on the home front had profound implications for the performance of the British and Commonwealth armies, and he traces how soldiers' political beliefs, many of which emerged as a consequence of their combat experience, proved instrumental to the socio-political changes of the postwar era. Fighting the People's War transforms our understanding of how the great battles were won and lost, as well as how the postwar societies were forged.

Discover a soldier's view of life in the British Army from recruitment and training to the brutal realities of combat. Using first-hand sources, James Goulty reconstructs the experiences of the men and women who made up the citizen's army. Find out about the weapons and equipment they used, the uniforms they wore, how they adjusted to army discipline and faced the challenges of active service overseas. or as nurses What were their wartime lives like And when the war had finally ended how did newly demobilised soldiers and servicewomen cope with returning home The British Army that emerged victorious in 1945 was vastly different from the poorly funded force of 865 000 men who heard Neville Chamberlain declare war in 1939 With an influx of civilian volunteers and conscripts the army became a citizens force and its character and size were transformed By D Day Britain had a well equipped disciplined army of over three million men and women and during the war they served in a diverse range of places across the world This book uncovers some of their stories and gives a fascinating insight into the realities of army life in wartime

Rhineland Anthony Tucker-Jones,2025-10-09 A dramatic retelling of the desperate battle of the Rhineland during World War II from the German perspective The Rhineland was where Adolf Hitler sowed the seeds for the Second World War when he remilitarized it in breach of the Treaty of Versailles in 1936 and by late 1944 the Rhine provided the last major obstacle to the advancing Allied armies that were threatening the Fatherland itself In this new history of this vital campaign respected military historian Anthony Tucker Jones describes the race against time as the Germans fought to stave off the inevitable It was essential that the Germans held the west bank in order to protect the Rhine crossings at Cologne Bonn Koblenz and Remagen but Hitler was intent on counter attacking in the Ardennes in the winter of 1944 and this meant there was little left to bolster the defences of the Rhine Rhineland relates the course of this desperate defence describing the build up of forces and operational plans before going on to tell the story of the campaign from the point of view of the forces involved from the ordinary German soldier through to the high command
