Polaris Y Otros Relatos:

Polaris H.P. Lovecraft, 2016-05-13 H P Lovecraft 1890 1937 es el autor de los saberes prohibidos y de los libros malditos su lenguaje barroco y obsesivo es una sugerencia de la fascinación por el terror Considerado como uno de los grandes innovadores dentro del género de terror creando una mitología propia apartándose de las temáticas tradicionales hasta el momento introduciendo elementos de la ciencia ficción En este volumen de cuentos podrá encontrar los siguientes relatos del maestro del terror Polaris La nave blanca La madición que cayó sobre Sarnath El rol Los gatos de Ulthar Celephas La b squeda de Iranon Los Otros Dioses La m sica de Erich Zann Hypnos

Polaris Howard Phillips Lovecraft, 1996 *La tumba de sus antepasados y otros relatos* Rudyard Kipling, 2019-05-26 La Noche llega cuando Ning n Hombre puede Trabajar Estas palabras figuraban en la biblioteca de Rudyard Kipling su lugar de trabajo cuando vivía en Vermont con su esposa americana hacia 1892 El volumen que entregó entonces a la imprenta llevaba el título de El trabajo de cada día y contenía una serie de historias diversas que ejemplifican la lucha esforzada e intensa de los hombres y las máquinas en definitiva los elementos de la civilización contra el caos de la naturaleza salvaje Así ocurre en La tumba de sus antepasados que cuenta la historia de un soldado cuya familia ha servido en la India desde el principio del Imperio y a quien los indígenas toman por un dios El soldado ha de convencer a la población indígena de la necesidad de una vacuna contra un mal que les amenaza con la extinción En El diablo y la mar profunda asistimos a los esfuerzos de la tripulación de un barco de no muy buena reputación legal que ha de poner en juego toda su capacidad y energía para salir de una situación límite En El barco que se encuentra a sí mismo los personajes son las distintas piezas de un vapor recién botado que han de enfrentarse a una furiosa tormenta atlántica Gato Maltés es considerado como el mejor relato sobre el deporte del polo que se ha escrito nunca y narra una final de copa desde el punto de vista y las conversaciones de los caballos de humilde pedigrí de un modesto equipo indígena frente a los poderosos adversarios británicos

Listas bibliográficas, 1998 **Polaris** Jack McDevitt, 2012-10-10 Hace sesenta años la nave espacial Polaris fue hallada totalmente vacía y el destino de sus pasajeros quedó envuelto en misterio Ahora para conmemorar el aniversario de su desaparición se va a celebrar una subasta de todos los objetos que quedaron abandonados en la nave Valiéndose de sus contactos Alex Benedict uno de los marchantes de antigüedades más prominentes de la galaxia se ha asegurado de que algunos de esos artefactos caigan en sus manos Pero una explosión destruye casi toda la colección esto convence a Alex de que alguien ha acabado con esos objetos para ocultar lo que sucedió a bordo de la nave Y eso es precisamente lo que tiene que descubrir aunque implique que tenga que arriesgar la vida

El soñador de Providence Carlos G. Gurpegui, 2023-05-05 Para muchos la figura de H P Lovecraft 1890 1937 supone la definitiva fusión entre los últimos coletazos del terror gótico derivados de Edgar Allan Poe con la literatura weird y la ciencia ficción que ayuda a asentar el género Sus creaciones seres extraños a la Tierra de inmenso poder y ocultas intenciones se han filtrado profundamente en la sociedad a lo largo de los años gracias a su poderoso impacto entre los aficionados del género El arrebatamiento de la

importancia del ser humano en el cosmos el temor a la existencia de criaturas más antiguas que la Tierra y el descubrimiento de la ausencia de Dioses y protectores se ocultan detrás de creaciones como Cthulhu Nyarlathotep o el Necronomicón. Pensamientos estéticos filosóficos y narrativos que salen a la luz a través de los sueños y la reflexión alrededor de su obra. El Soñador de Providence es un minucioso estudio de las últimas teorías y trabajos sobre Lovecraft un viaje a través de sus maestros compañeros de pluma y sus obras que pretende servir como puente para construir una nueva imaginación sobre el autor en nuestro idioma. El libro analiza también la influencia que sus creaciones han tenido en el lenguaje y las mecánicas empleadas en los videojuegos así como en otros ámbitos como los juegos de mesa o de rol. El lector encontrará también en este libro diferentes reflexiones sobre algunos de los videojuegos más importantes basados en la obra del autor y sobre otros títulos que beben profundamente de su filosofía y visión estética. *Puro cuento*, 1990. *Relatos del confín del mundo (y del universo)* Juan Diego Soler Pulido, 2021-11-01. En busca de la Antártida el último lugar de la tierra. Una ventana al cosmos. En el extremo sur de nuestro planeta se esconde un territorio que fue desconocido para los humanos durante la mayor parte de su historia. Antártida. Durante siglos los más audaces exploradores cruzaron los océanos y protagonizaron extraordinarias hazañas en la búsqueda de sus costas. Cuando sus barcos lograron sortear el embate del frío lacerante el embrujo de sus días sin noche y la amenaza de los enormes témpanos el que ha sido llamado el último lugar de la Tierra se convirtió en una obsesión. Como los astronautas en los tiempos modernos los humanos atravesaron una nueva frontera y se internaron como hormigas en este inconmensurable desierto de hielo para coronar con sus banderas el punto más austral del mundo. Esta es su historia. Hoy poco más de un siglo después de que los humanos llegaran al Polo Sur Antártida se ha convertido en un centro de investigaciones a donde llegan cada año expertos de todo el mundo para desarrollar estudios científicos que permiten entender nuestro planeta y el universo. El astrofísico colombiano Juan Diego Soler fue uno de ellos. En 2010 aterrizó por primera vez en esas gelidas planicies para con el apoyo de la NASA y la Fundación Nacional de Ciencias de los Estados Unidos lanzar a la estratosfera un telescopio robótico impulsado por un globo de helio y ver la luz más allá de las estrellas. Esta también es su historia. *Relatos del confín del mundo y del universo* es un viaje a través de palabras mapas e imágenes a uno de los lugares más misteriosos de la Tierra el hogar de millones de pingüinos y miles de ballenas y focas. Es una travesía a un terreno inhóspito e inhumanamente frío en compañía de quienes arriesgaron su vida en nombre de la exploración y de quienes hoy regresan allí en nombre de la ciencia. *Breves e intensos: artículos sobre relatos cortos de autores británicos contemporáneos* José Francisco Fernández Sánchez, 2001. Con frecuencia el relato corto ha sido un género que la crítica literaria no ha tenido suficientemente en cuenta. En el rea de la Literatura Inglesa esta relativa falta de interés ha sido evidente a pesar de que en la segunda mitad del siglo XX excelentes escritores se dedicaron a esta forma narrativa tan singular. La presente colección de artículos quiere servir de introducción a los relatos cortos de algunos de los principales autores británicos contemporáneos que han destacado en este campo. En algunos casos se trata de autores consagrados cuyas

novelas han eclipsado unos relatos que merecen ser considerados por separado En otros casos tenemos a maestros de distintos subgéneros a los que no se les ha prestado la necesaria atención crítica y por último están los autores jóvenes que bien complementan su trayectoria literaria con historias cortas de gran calidad o bien deciden dedicarse de lleno a esta forma narrativa En los trabajos de este volumen se invita al lector a iniciarse en la lectura de los relatos de los autores seleccionados así como a profundizar en el estudio de los rasgos más destacados de su producción La diversidad de enfoques que aquí se ofrece da testimonio de la enorme riqueza del relato corto contemporáneo en las letras inglesas Polaris Rocío G.
