Police And Crime Control In Jamaica Problems Of Reforming Excolonial Constabularies:

Police and Crime Control in Jamaica Anthony Harriott, 2000 *Police and Crime Control in Jamaica* is a valuable addition to the sparse literature on policing in developing states and is the first study of its kind dedicated to the state of a police force in a Caribbean territory. The work examines the extent and sources of police ineffectiveness in controlling crime. It assesses the quality of justice and declining public confidence in the criminal justice system. Police reform efforts as well as sources of cynicism among members of the force are analysed. This study of policing and citizen state relations is especially relevant to the tourism dependent countries of the Caribbean amid growing recognition of the negative impact of high rates of violent crime on these economies. This book will be much valued by students of criminology and criminal justice especially those with an interest in the Caribbean as well as the general reader who is concerned with issues of crime and policing.

Tourism, Security and Safety Yoel Mansfeld, Abraham Pizam, 2006 In recent years the tourism industry has focused on the issues of safety and security and sought to develop crisis management solutions. This text draws on the work of leading academics and practitioners to create a multi dimensional analysis of the subject.

Criminal Justice Theory Edward Maguire, David Duffee, 2015-02-11 *Criminal Justice Theory* Second Edition is the first and only text edited by U S criminal justice educators on the theoretical foundations of criminal justice not criminological theory. This new edition includes entirely new chapters as well as revisions to all others with an eye to accessibility and coherence for upper division

undergraduate and beginning graduate students in the field. **Understanding Crime in Jamaica** Anthony Harriott, 2003 Examines the growing crime problem in Jamaica and explores the relationship between crime politics and the economy and analyses the impact of crime on tourism. The articles collected here provide a comprehensive analysis of the causes consequences and control of crime and they point the way to solving Jamaica's escalating criminal activity.

Race, Ethnicity, Crime and Criminal Justice in the Americas A. Kalunta-Crumpton, 2012-01-25 This book examines race ethnicity crime and criminal justice in the Americas and moves beyond the traditional focus on North America to incorporate societies in Central America South America and the Caribbean.

Crime, Violence and Security in the Caribbean M. Raymond Izarali, 2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations. Public safety is threatened by high rates of crime especially violent crime in much of the region the plague of the illicit drug trade transnational organized crime gangs the current global proliferation of crimes of terrorism and related violent extremism and radicalization. The situation diminishes morale among the youth their education and their future and operates as a major push factor. Yet surprisingly there has been a scarcity of scholarly work that addresses these conditions. This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime violence and security that is so pervasive in the region and the ways in which underdevelopment re creates environments for insecurity. The book is organized in three parts. Part one encompasses conceptualizations of

crime violence and punishment Part two takes up country cases on crime and security Part three addresses issues of regional security both public and private This timely volume will be valuable reading for scholars students practitioners and policy makers who share a critical interest in the scope impact and inter relationality of crime violence and in security in the region

Crime, Delinquency and Justice Ramesh Deosaran, 2007 This reader presents fresh insights on the rapidly expanding and changing crime related problems in the Caribbean as well as provides information on new dimensions of crime and criminology that are occurring with increasing regularity A path breaking and comprehensive work *Crime Delinquency and Justice A Caribbean Reader* has come at a time when all societies in the Caribbean region are grappling with crime in all its forms and when the structure of the justice system on which all these societies are founded is being challenged to adjust to changes in society locally and internationally The work addresses both theoretical and practical issues indicated by the broad range of areas covered including Theorizing a Caribbean Criminology Juvenile Delinquency and Public Policy Domestic Violence and the Criminal Justice System Community Policing Police Styles and Use of Force Corrections Crime Statistics the Jury System Drug Trafficking Terrorism Social Upheaval and Political Violence and Human Trafficking Much of the contributions are research and data driven and overall have policy development as their focus This makes the volume suitable for courses in criminology and criminal justice at both the undergraduate and graduate levels as well as for specialist courses in various aspects of policing and law enforcement

Violence and Resilience in Latin American Cities Kees Koonings, Dirk Kruijt, 2015-11-15 Why are Latin American cities amongst the most violent in the world Over the past decades Latin America has not only become the most urbanised of the regions of the so called global South it has also been the scene of the urbanisation of poverty and exclusion Overall regional homicides rates are the highest in the world a fact closely related to the spread and use of firearms by male youths who are frequently involved in local and translocal forms of organised crime In response governments and law enforcements agencies have been facing mounting pressure to address violence through repressive strategies which in turn has led to a number of consequences law enforcement is often based on excessive violence and the victimisation of entire marginal populations Thus the dynamics of violence have generated a widespread perception of insecurity and fear Featuring much original fieldwork across a broad array of case studies this cutting edge volume focuses on questions not only of crime insecurity and violence but also of Latin American cities ability to respond to these problems in creative and productive ways

Gangs in the Caribbean Randy Seepersad, 2013-09-17 The present volume represents the first published book on gangs in the Caribbean The study of criminal gangs is both timely and of the utmost importance to policy and security in the region In many countries across the Caribbean criminal gangs are increasing in number and prominence and official crime data indicate that they are responsible for an increasing proportion of violent crimes The Caribbean region experienced a dramatic increase in murder rates from 14 3 murders per 100 000 inhabitants in 2000 to 28 1 murders per 100 000 inhabitants in 2010 In some of the countries with

comparatively high murder rates such as Jamaica and Trinidad and Tobago the proportion of gang related murders has reached alarming levels In the case of Trinidad and Tobago for example for the period 2001 to 2012 29.5% of all murders which occurred were classified as gang related with fully 38% being so classified in 2012 The Caribbean represents a diverse region with very different cultures and security issues Foreign experiences and research on gangs may not generalize to the region nor may foreign policy be entirely relevant The present volume represents an attempt to come to terms with the phenomenon of gangs in the Caribbean and presents a wealth of empirical data as well as an analysis of the varying issues from a number of disciplinary perspectives Much of what is currently known about gangs in the Caribbean is brought together in this volume with the primary aims of understanding the varying issues and examining relevant strategies for dealing with the proliferation of criminal gangs
