Reform in Law Enforcement Scott W. Phillips, Dilip K. Das, 2016-10-26 This book provides broad exposure to a variety of policing reforms that have not received adequate attention. It includes information and examples from different countries regarding efforts to change aspects of policing that are problematic or involve changes in the way crimes are committed.

Some of the efforts to improve the police are relatively recent, i.e., using social media and some areas of policing that seem to require frequent attention, i.e., working with the public. History of Criminal Justice Mark Jones, Peter Johnstone, 2010-04-08

Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction to the historical problems of crime, law enforcement, and penology set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French, and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text now concludes with a chapter that addresses terrorism and homeland security. Each chapter is enhanced with supplemental boxes, timeline, time capsule, and featured outlaw. Chapters also contain discussion questions, notes, and problems. **Introduction to Criminal Justice** Kenneth J. Peak, Tamara D.

Madensen, 2017-11-29 A practical and applied introduction to criminal justice. *Introduction to Criminal Justice: Practice and Process* shows you how to think practically about the criminal justice system by offering you a proven problem-based approach to learning. Bestselling authors Kenneth J. Peak and Tamara D. Madensen draw on their many years of combined practitioner and academic experience to explain the importance of criminal justice and show how key trends, emerging issues, historical background, and practical lessons can be applied in the field. New to the Third Edition: An emphasis on constitutional policing, legitimacy, and procedural justice stresses the importance for police to develop a guardian mindset over a soldier mindset. New discussions of contemporary criminological theories such as social structure theories, social process theories, social conflict theories, feminist theories, and environmental criminology theories provide you with a concise explanation on why people commit crimes and how to prevent them in the modern world. An in-depth view of three particularly challenging problems and policy issues: terrorism, the mentally ill population, and illegal immigration demonstrate how today's society and the criminal justice system are affected by these issues and what can be done to address the problems. New examples and case studies of ethical dilemmas illustrate today's climate of distrust, dissension, and dysfunction to encourage you to think critically about what is considered ethical. New video interviews with criminal justice professionals offer you career advice, provide you with insights into a variety of career paths, and discuss challenges and misconceptions of each profession. **Criminal Justice in America** Carla Lewandowski, Jeff Bumgarner, 2020-11-17 This authoritative set
