Disasters, Hazards and Law Mathieu Deflem, 2012-11-14. Deals with important social science issues of law and legal control pertaining to disasters and hazards in a variety of contexts. This title includes legal controls pertaining to disaster prevention response and mitigation regulations and policies concerning hazardous conditions and crime and the control thereof in post disaster situations.

International Handbook of Disaster Research Amita Singh, 2023-09-30. This handbook is a comprehensive source of information analysis and directions in disaster studies. It goes beyond the oft explored issues of management and science related to the topic and explores policies governance law and decision making combined with the processes of implementation and enforcement all the while integrating the latest science and technology updates related to the topic such as artificial intelligence and early warning systems. It brings together studies which relate to sociology politics and institutional economics which work under the impact of resource availability issues of leadership and international laws. Disasters are trans boundary and disaster studies are trans disciplinary. It is this aspect which would form the fulcrum of contributions and present a new refreshing and innovative design for the handbook.

The transformatory pedagogy which started with the Hyogo Framework for action 2005 2015 and The Sendai Framework for Disaster Risk Reduction 2015 2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks The four priority areas around which the book would revolve are i Understanding disaster risk ii Strengthening disaster risk governance to manage disaster risk iii Investing in disaster reduction for resilience and iv Enhancing disaster preparedness for effective response and to Build Back Better in recovery rehabilitation and reconstruction

Hazard Management and Emergency Planning Dennis Parker, John Handmer, 2013-06-17 This book assesses critically the British approach to hazard management and emergency planning It identifies the principal legal organizational and cultural impediments to more effective hazard management and emergency planning postulates explanations for the shortcomings in the British approach and examines a number of promising avenues for improving current practice It comprises 18 chapters written by experts with a wide range of practical experience in the many different aspects of the field Many of the authors introduce international perspectives and comparisons From it all the editors conclude sadly The overall hazard and emergency management approach currently adopted in Britain appears to be inadequate and current standards of protection appear to be inefficient for the 1990s and beyond
