Policing Canadas Century:

Policing Canada's Century Greg Marquis,1993 This study examines the origins and development of the CACP an important but little studied non governmental organization reflecting the interests principally of municipal police administrators within the broader political and social context of the 20th century a period of dramatic changes in the r

Canadian Policing in the 21st Century Robert Christmas,2013-09-01 How can police remain effective and vital in an era of unprecedented technological advances access to information and the global transformation of crime Written by a long serving officer Canadian Policing in the 21st Century offers a rare look at street level police work and the hidden culture behind the badge Robert Christmas shares experiences from his years of service to highlight areas where police can more effectively enforce laws and improve relations with the communities they serve He proposes tactics for addressing widespread social issues such as gang and domestic violence and strategies for cooperating in international networks tackling human trafficking internet based child exploitation organized crime and terrorism Christmas stresses how changing demographics related to age gender and racial diversity and increased dangers and demands require intensified training and higher education in policing He highlights the need for more effective collaborative relationships between police and local provincial and federal governments non government agencies and their communities While the principles and goals of policing remain largely unchanged police challenges tools and strategies have evolved dramatically Christmas s vantage point as an officer and a scholar provides an illuminating account of the Canadian justice system and road maps to future success

Police Powers in Canada University of Alberta. Centre for Constitutional Studies,1994-01-01 The television spectacles of Oka and the Rodney King affair served to focus public disaffection with the police a disaffection that has been growing for several years In Canada confidence in the police is at an all time low At the same time crime rates continue to rise Canada now has the dubious distinction of having the second highest crime rate in the Western world How did this state of affairs come about What do we want from our police How do we achieve policing that is consistent with the Charter of Rights and Freedoms The essays in this volume set out to explore these questions In their introduction the editors point out that constitutional order is tied to the exercise of power by law enforcement agencies and that if relations between the police and civil society continue to erode the exercise of force will rise a dangerous prospect for democratic societies **Border**

Policing Holly M. Karibo,George T. Díaz,2020-04-21 An interdisciplinary group of borderlands scholars provide the first expansive comparative history of the way North American borders have been policed and transgressed over the past two centuries An extensive history examining how North American nations have tried and often failed to police their borders Border Policing presents diverse scholarly perspectives on attempts to regulate people and goods at borders as well as on the ways that individuals and communities have navigated contested and evaded such regulation The contributors explore these power dynamics through a series of case studies on subjects ranging from competing allegiances at the northeastern border

during the War of 1812 to struggles over Indian sovereignty and from the effects of the Mexican Revolution to the experiences of smugglers along the Rio Grande during Prohibition Later chapters stretch into the twenty first century and consider immigration enforcement drug trafficking and representations of border policing in reality television Together the contributors explore the powerful ways in which federal authorities impose political agendas on borderlands and how local border residents and regions interact with and push back against such agendas With its rich mix of political legal social and cultural history this collection provides new insights into the distinct realities that have shaped the international borders of North America

City of Order Michael Boudreau, 2012-05-15 Interwar Halifax was a city in flux a place where citizens debated adopting new ideas and technologies but agreed on one thing modernity was corrupting public morality and unleashing untold social problems on their fair city In this context citizens policy makers and officials turned to the criminal justice system to create a bulwark against further social dislocation Officials modernized the city s machinery of order courts prisons and the police force and placed greater emphasis on crime control while residents supported tough on crime measures and attached little importance to rehabilitation These initiatives gave birth to a constructed vision of a criminal class that singled out ethnic minorities working class men and female and juvenile offenders as problem figures in the eternal quest for order Michael Boudreau s in depth study of crime and culture in interwar Halifax the first of its kind shows how tough on crime measures can compound rather than resolve social inequalities and dislocations

Laws and Societies in the Canadian Prairie West, 1670-1940 Louis A. Knafla, Jonathan Swainger, 2011-11-01 *Laws and Societies in the Canadian Prairie West 1670 1940* examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region s mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history Legal history is not just about black letter law It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives By examining how central and important the law has been to individuals communities and societies in the Canadian Prairies this book makes an original contribution

Youth Squad Tamara Gene Myers, 2019-10-24 Starting in the 1930s urban police forces from New York City to Montreal to Vancouver established youth squads and crime prevention programs dramatically changing the nature of contact between cops and kids Gone was the beat officer who scared children and threatened youth Instead a new breed of officer emerged whose intentions were explicit befriend the rising generation Good intentions however produced paradoxical results In *Youth Squad* Tamara Gene Myers chronicles the development of youth consciousness among North American police departments Myers shows that a new comprehensive strategy for crime prevention was predicated on the idea that criminals are not born but made by their cultural environments Pinpointing the origin of this paradigmatic shift to a period of optimism about the ability of police to protect children she explains how by the middle of the twentieth century police forces had intensified their presence in children s lives through juvenile curfew laws police athletic leagues traffic safety and anti corruption campaigns and school programs The book describes the ways that seemingly altruistic efforts to integrate working class youth into society evolved into pervasive supervision and surveillance normalizing the police presence in children s lives At the intersection of juvenile justice policing and childhood history *Youth Squad* reveals how the overpolicing of young people today is rooted in well meaning but misguided schemes of the mid twentieth century
