

PEACE IN FOREIGN POLICY

Peace nations in times of crisis

Merel Selleslach & Maarten Van Alstein

EXECUTIVE SUMMARY

This analysis looks at how different states (Norway, Sweden, and Switzerland) and sub-state regions (Catalonia, Emilia-Romagna, Flanders, Hessen, North Rhine-Westphalia, and Wales) in Europe developed a peace orientation in their foreign policy. It also examines how the war in Ukraine has impacted these approaches.

Confronted with shifting foreign policy priorities, the analysis explores novel pathways for shaping peace policy in Europe. Initially, it delineates how a robust historical national identity can serve as both inspiration and a foundation for a credible peace policy. Additionally, by exploring peace through various lenses and augmenting it with descriptive adjectives, it provides guidance to make peace tangible for policy practice. Drawing upon diverse adjectives such as agonistic, environmental, local, feminist, and multilateral peace, the analysis identifies a broad spectrum of policy domains and levels that can contribute to peace. This fosters a collective responsibility across all policy fields, transcending beyond foreign, security, and defence policies.

Furthermore, the analysis elaborates on how peace isn't merely a value to be projected but a relationship to be actively practiced. Engaging in the promotion of peace within foreign policy inevitably generates tensions. To mitigate the risk of subsequent erosion of legitimacy and trust, the analysis argues, governments should maintain transparency regarding the dilemmas and tensions inherent in their policies.

Peace and Rural Development in Colombia Andrés García Trujillo, 2020-09-24 In Peace and Rural Development in Colombia Andr s Garc a Trujillo investigates whether peace agreements geared toward terminating internal armed conflicts trigger rural distributive changes Combining academic rigor with an insider s perspective Garc a Trujillo shows that the peace agreement in Colombia opened an exceptional window for addressing rural inequality Yet despite some progress he argues that the agreement s leverage to stir change was severely constrained by opposing actors within and outside the government Garc a Trujillo later applies the framework developed for the Colombian case to explain key dynamics of other post conflict societies that have dealt with agrarian issues under a transitional context like El Salvador or South Africa The original theoretical framework and empirically rich analysis make Peace and Rural Development in Colombia an indispensable read for scholars and practitioners who wish to gain an understanding on the political economy of peacemaking policy change and rural development in Colombia and beyond [The Palgrave Handbook of Peace, Conflict and Security Studies in Africa](#)

Kurosawa, Kazumi Mizumoto, 2005-03-06 This work provides a comprehensive examination of the current state and future prospects for nuclear disarmament at the turn of the century The work juxtaposes a sober review of progress made during the last decade with a proactive agenda of proposals for new disarmament initiatives in the next decade Taken together the contributions to this volume suggest that contrary to current conventional wisdom the increasing global cache of nuclear weapons and the waning progress on nuclear disarmament of recent years need not become the defining features of the post Cold War era Rather by examining the new conditions that have emerged at the dawn of the 21st century through both national and issue based perspectives this work reveals how the likelihood of continuing uncertainty and change in world affairs creates opportunities as well as the need for renewed progress toward significant nuclear disarmament
