Nagel, 1975 Monograph comprising a literature survey of government policy research in the USA and abroad together with directories of research centres covers empirical research methods and theoretics of public policy etc and includes research on specific policy problems References **The Oxford Handbook of Political Networks** Jennifer Nicoll Victor, Alexander H. Montgomery, Mark Lubell, 2018 Politics is intuitively about relationships but until recently the network perspective has not been a dominant part of the methodological paradigm that political scientists use to study politics This volume is a foundational statement about networks in the study of politics **Policy Studies and the Social Sciences** Stuart S. Nagel, Monograph of selected readings describing the potential contributions of various social sciences disciplines to decision making evaluation social research and general study of social policy examines the application methodology advantages and uses of applied mathematics economic theory geography the study of jurisprudence and law psychology political science social and cultural anthropology social philosophy and social theory Flow charts references and statistical tables Environmental Politics and Policy James P. Lester, 1995 Completely revised throughout and including five new chapters this second edition of Environmental Politics and Policy provides an updated review and synthesis of the political science literature on the subject of environmental politics and policy Various chapters by leading scholars in the field analyze and describe the role of public opinion interest groups political parties Congress the Executive Branch the Courts and elites as they have influenced the formation of U S environmental policies over the past twenty five years The book also provides ideas for future research and will stimulate thinking about the subject in the 1990s and beyond From reviews of the First Edition All the authors in this collection of essays are well known in the field of environmental policy Their breadth of knowledge and diversity of perspectives permit a rich and comprehensive coverage of the scholarly work in this field Daniel McCool Journal of Politics An excellent collection of readings with a strong emphasis on institutional analysis as an approach to environmental policy in the United States Robert Paehlke Natural Resources and Environmental Administration No better review of the political science of environmental policy making has yet been published Christopher J Bailey Environmental Politics Contributors David Colnic Douglas Costain John S Dryzek Riley E Dunlap Helen M Ingram Sheldon Kamieniecki Michael E Kraft James P Lester Dean E Mann Evan J Ringquist Walter A Rosenbaum Mark E Rushefsky Gerald B Thomas Lettie M Wenner **Handbook of Foreign Policy Analysis** Daniel Frei, Dieter Ruloff, 2024-08-26 Latin American Development and Public Policy Stuart S. Nagel, 2016-07-27 This book analyzes various important aspects of methodology and substance regarding economic social and political policy in Latin America directed toward achieving more effective efficient and equitable societal institutions The chapters are authored by experts from within Latin America and also from Latin America research institutes elsewhere The

book combines practical policy significance with insightful causal and prescriptive generalizations The emphasis is on the role of governmental decision making and the important but secondary role of the marketplace social groups and engineering

Policy Studies Stuart S. Nagel, 1988-11-22 Less fragmented than the author's earlier work this book synthesizes Nagel's perspective on the field of policy analysis As the field's principal organizer and leading promoter one is indebted to Nagel for his energy enthusiasm and resourcefulness This volume is itself imbued with such qualities It covers vast territory insistently counters the skeptics and develops original schema for evaluating the work of the field Furthermore as vintage Nagel the book is highly structured with many definitions lists and prenamed series of ideas The author provides numerous hypothetical examples of his points worked out in succinct formulas and terse explanations Nagel is unswervingly convinced of the correctness of the rationalist perspective and anchors himself firmly in behaviorist political science while accepting the contributions from other social sciences Not one to qualify a statement or beat around the bush the author enunciates many guiding principles and values such as effectiveness efficiency and equity Nagel discusses software options for those interested in conducting analysis with microcomputers He also gives advice on teaching with computers Important for graduate students and university libraries Choice The purpose of this work is twofold First it attempts to integrate the basic ideas that relate to policy studies These include the definition of concepts the establishment of criteria for judging policy studies research and the clarification of policy goals Second the volume proposes to evaluate the methods of policy evaluation themselves and to assess the field as a whole Designed to serve as a definitive analysis of policy studies this volume covers basic concepts research criteria societal goals and policy alternatives It also examines analytic methods optimizing statistics quasi experimentation behaviorism multicriteria decision making evaluation research legal analysis and conflicting critiques of the field It was written for researchers and instructors of public policy studies and will also assist public policy specialists and others interested in the application of social science and other fields of knowledge to important public policy issues **PAIS International List of Journals Indexed in ...** ,1997 Featuring bibliographic and ordering information on journals indexed in the PAIS International database
